Mirrors - Manual on combating antigypsyism through human rights education Council of Europe, 2015-05-22 Everyday in Europe people associated with Roma or Traveller communities are exposed to acts of discrimination and exclusion on a scale that has stopped shocking people and institutions Too often it is only when lives are claimed that we wake up to the persistence of realities that have no place in any democratic society Antigypsyism is a term used to refer to the multiple forms of biases prejudice and stereotype that motivate the everyday discriminatory behaviour of institutions and many individuals towards Roma Antigypsyism is a form of racial discrimination Most antigypsyism acts are illegal and contrary to human rights even when they are not prosecuted and even if they are widespread and often ignored or tolerated Antigypsyism undermines the moral fabric of societies Democracy and human rights cannot take root where discrimination is institutionalised tolerated or conveniently ignored Education plays a central role in combating and overcoming antigypsyism because the result of centuries of prejudice cannot be fought by laws and courts alone Human rights education learning for through and about human rights provides an ideal approach to raising awareness about antigypsyism and promoting a culture of universal human rights This manual was produced within the Roma Youth Action Plan of the Council of Europe to provide teachers trainers and facilitators of non formal education processes with essential information and methodological tools to address antigypsyism with young people of all ages and in any social cultural setting It is equally suitable for work with groups of non Roma Roma only or mixed groups Combating antigypsyism is a task for all of us learning about it is a necessary starting point As human beings we have the capability to discriminate and impose prejudice upon others Fortunately we are also capable to learn and change Mirrors is a great help to help us notice this correct distorted views and to recognise ourselves in the eyes of others *Handbook of NLP* Harry Alder, 2017-05-15 Since its Californian beginnings a generation ago Neurolinguistic Programming NLP has won world wide recognition as probably the most powerful set of tools

available for improving communication thinking and problem solving Derived from the study of leading practitioners in fields as disparate as psychotherapy and selling NLP is now used extensively in business management human resource development and sport Dr Alder s Handbook brings together in one volume the ideas and skills involved in applying NLP to achieve superior performance at both the personal and the professional level Part 1 sets out the underlying principles and introduces key concepts such as outcomes representational systems anchoring modelling and reframing together with the techniques required for putting them to work Part 2 shows how to use NLP in training selling negotiating interviewing coaching and presentation Throughout the text there are examples and exercises designed to help readers profit from rather than simply understand the procedures described Other valuable features include a glossary of terms and a sources and resources section containing an annotated reading list and details of organizations offering NLP training Anyone seeking a comprehensive guide to NLP theory and practice need look no further
