Bargaen,2015-08-31 Literary critiques of Murasaki Shikibu s eleventh century The Tale of Genji have often focused on the amorous adventures of its eponymous hero In this paradigm shifting analysis of the Genji and other mid Heian literature Doris G Bargaen emphasizes the thematic importance of Japan s complex polygynous kinship system as the domain within which courtship occurs Heian courtship conducted mainly to form secondary marriages was driven by power struggles of succession among lineages that

focused on achieving the highest position possible at court Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts Borgen focuses on the genealogical maze the literal and figurative space through which several generations of men and women in the Genji moved She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them The work examines in detail the literary construction of a courtship practice known as kaimami or looking through a gap in the fence in pre Genji tales and diaries and Sei Sh nagon s famous Pillow Book In Murasaki Shikibu s Genji courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices counteract sexual transgressions or resist the pressure of imperial succession Borgen argues persuasively that a woman observed by a man was not wholly deprived of agency She could choose how much to reveal or conceal as she peeked through shutters from behind partitions fans and kimono sleeves or through narrow carriage windows That mid Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship In Mapping Courtship and Kinship in Classical Japan readers both familiar with and new to The Tale of Genji and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts In addition the book includes charts that trace Genji characters lineages maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond and color reproductions of paintings that capture the drama of courtship

Todd, Thomas T. Hills, Trevor W. Robbins, 2012-08-31 An exploration of the evolution function and mechanisms of search for resources in the mind and in the world Over a century ago William James proposed that people search through memory much as they rummage through a house looking for lost keys We scour our environments for territory food mates and information We search for items in visual scenes for historical facts and for the best deals on Internet sites we search for new friends to add to our social networks and for solutions to novel problems What we find is always governed by how we search and by the structure of the environment This book explores how we search for resources in our minds and in the world The authors examine the evolution and adaptive functions of search the neural underpinnings of goal searching mechanisms across species psychological models of search in memory decision making and visual scenes and applications of search behavior in highly complex environments such as the Internet As the range of information social contacts and goods continues to expand how well we are able to search and successfully find what we seek becomes increasingly important At the same time search offers cross disciplinary insights to the scientific study of human cognition and its evolution Combining perspectives from researchers across numerous domains this book furthers our understanding of the relationship between search and the human mind *Insurgent Play* Duncan McDuie-Ra, 2025-07-08 *Insurgent Play* Social worlds of urban disruption explores play as a transgressive expression that counters the existing urban order neoliberal authoritarian militarised *Insurgent play* is disruptive yet through disruption it brings social worlds into being undergirds global subcultures and overcomes hostile urban environments characterised by ever diminishing spaces for free expression Acts of insurgent play are claims on space lasting from brief moments to years animating patches of the city designed for commercial industrial and logistical imperatives Even in public spaces designed for leisure and play insurgent play brings different expressions at different speeds transgressing designated uses and bodily expectations Through insurgent play people find belonging in the city especially for those excluded from other spaces based on race class sexuality and citizenship As such stories of insurgent play are stories of alternative ways of inhabiting cities stemming from the widespread human desire and need for play for joy and for sociality *Insurgent Play* draws upon examples from street skateboarding Street skateboarding disrupts the city in the

pursuit of play enlivens patches of space through temporary claims and initiates encounters with authorisers property owners and citizens gravid with hostility with instants of wonder Insurgence is a way of being and the desire for insurgent play cannot be placated by better urban planning or formal expertise Nor will multiplying designated play spaces creative precincts and flexible public spaces stop people seeking out space to create their own worlds of disruption The book makes four arguments First insurgent play is bodily expression that can challenge disrupt and transgresses dominant ways of city making Second insurgent play takes us to parts of the urban landscape that we might not otherwise go politics we might not otherwise recognise and encounters we might otherwise overlook Third claims on the city made through insurgent play enliven urban space through transformative power In this way these claims territorialise patches of the built environment intended for other uses Last insurgent play space is generated from below never above Insurgent play shapes and is shaped by identities that position adherents in opposition to prevailing urban orders **Finding Shelter** Angelina
