## **God And Power Counter Apocalyptic Journeys:**

*God and Power* Catherine Keller, 2005-05-26 Keller traces America's response to the current national international and religious situation to the deeply fraught legacy of Christian apocalypticism. After diving deeply into the multiple and conflicting political and religious meanings of the Book of Revelation she proposes a counter apocalypse an anti imperial political theology of love.

**Mourner, Mother, Midwife** L. Juliana M. Claassens, 2012-01-01 Juliana Claassens explores alternative Old Testament metaphors that portray God as mourner mother and midwife images that resist the violence and bloodshed associated with the dominant warrior imagery.

Out of the Ashes Kenneth W. Arthur, 2017-08-10 This book seeks to help those who doubt or can no longer believe what they've been taught about Christianity that they don't have to abandon their faith. Kenneth Arthur challenges traditional thinking and helps the reader move beyond fundamentalism by thoughtfully reflecting on theological alternatives. His life has truly been a pilgrimage a search for meaning and purpose that includes belief and behavior as well as belonging so he proposes a constructive theology based on his own experiences and education in conjunction with the Bible well known theologians and other sources of revelation. Discussion questions at the end of each chapter invite conversation and provide a helpful resource for small groups.

**Theology, Creation, and Environmental Ethics** Whitney Bauman, 2009-04-30 Winner of the John Templeton Award for Theological Promise 2009 This book argues that the Christian doctrine of creatio ex nihilo creation out of nothing sets up a support system for a logic of domination toward human and earth others. Conceptually inspired by the work of theologian Catherine Keller and feminist philosopher of the environment Val Plumwood it follows a genealogical method in examining how the concept of creation out of nothing materializes in the world throughout different periods in the history of the Christian West.

**The Oxford Handbook of Eschatology** Jerry L. Walls, 2007-12-03 Eschatology is the study of the last things death judgment the afterlife and the end of the world. Through centuries of Christian thought from the early Church fathers through the Middle Ages and the Reformation these issues were of the utmost importance. In other religions too eschatological concerns were central. After the Enlightenment though many religious thinkers began to downplay the importance of eschatology which in light of rationalism came to be seen as something of an embarrassment. The twentieth century however saw the rise of phenomena that placed eschatology back at the forefront of religious thought. From the rapid expansion of fundamentalist forms of Christianity with their focus on the end times to the proliferation of apocalyptic new religious movements to the recent and very public debates about suicide martyrdom and paradise in Islam interest in eschatology is once again on the rise. In addition to its popular resurgence in recent years some of the world's most important theologians have returned eschatology to its former position of prominence. The Oxford Handbook of Eschatology will provide an important critical survey of this diverse body of thought and practice from a variety of perspectives biblical historical theological philosophical and cultural. This volume will be the primary resource for students scholars and others interested in questions of our ultimate existence.

*and Beyond* John D. Caputo, Michael J. Scanlon, 2007 A benchmark volume at the intersection of philosophy and religion

Christianity and Social Systems Rosemary Radford Ruether, 2009 From the earliest interactions of Christians with the Roman Empire to today's debates about the separation of church and state the Christian churches have been in complex relationships with various economic and political systems for centuries Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy racism slavery and environmentalism while looking critically at how the church shapes these systems today With a focus on the United States *Christianity and Social Systems* provides an introductory analysis of the interactions between the churches and major systems that have shaped western Christian and post Christian society Ruether discusses ideologies such as liberalism and socialism and includes three country case studies Nicaragua South Africa and North and South Korea to further illustrate the profound influences Christianity and social systems have with each other This book is neither an attack on the relationship between Christianity and these systems nor an apology but rather a nuanced examination of the interactions between them By understanding how these interactions have shaped history we can more fully understand how to make ethical decisions about the role of Christianity in some of today's most pressing social issues from economic and class disparities to the environmental crisis

**The Sleeping Giant Has Awoken** Jeffrey W. Robbins, Neal Magee, 2008-04-11 Introduction by John Caputo and Afterword by Slavoj Žižek The triumph of American political conservatism in the last two decades has been paralleled by the ascendance of Christian evangelicalism More importantly the political Campaigns of 2000 and 2004 marked a convergence between these two political entities with an effectiveness never before seen in national elections On the one side conservatives have successfully set the terms of debate around so called family values and the status of religion in the public sphere On the other side evangelicals have mobilized in a new self awareness of their formidable political power and now demand representation at all levels of government Upon what fundamental ideas does this convergence rest What potential dangers does it present for the concepts of religion politics and America How secure is this alliance and what does each side sacrifice in order to sustain it Must all religion in America now become similarly engaged in the political sphere This volume is a collection of articles by a group of young scholars addressing the nexus between political conservatism evangelical Christianity and American consumerist culture

**The Community of the Weak** Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on

North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story Dalit Theology after Continental Philosophy Y.T. Vinayaraj,2016-07-15 This book steeped in the traditions of both postcolonial theory and Continental philosophy addresses fundamental questions about God and theology in the postcolonial world Namely Y T Vinayaraj asks whether Continental philosophies of God and the other can attend to the struggles that entail human pain and suffering in the postcolonial context The volume offers a constructive proposal for a Dalit theology of immanent God or deothering God as it emerges out of the Lokayata the Indian materialist epistemology Engaging with the post Continental philosophers of immanence such as Gilles Deleuze Giorgio Agamben Catherine Malabou and Jean Luc Nancy Vinayaraj explores the idea of a Dalit theology of God and body in the post Continental context The book investigates how there can be a Dalit theology of God without any Christian philosophical baggage of transcendentalism The study ends with a clarion call for Indian Christian Theology to take a turn toward an immanence that is political and polydoxical in content **Divine Enjoyment** Elaine Padilla,2014-12-02 This book s theological and philosophical construction of a God of enjoyment poetically remaps divine love Posing a critique to the Aristotelian unmoved mover whose intellective enjoyment is self enclosed this book s affective tones depict a passionate God who intermingles with the cosmos to suffer and yearn out of love even improper love Divine Enjoyment leads the reader to a path of excess first in the form of an intellective appetite that for Aquinas places God beyond the divine self then more erotically in the silhouette of a lover whose love is like the delectable pain of mystics Culminating with banqueting fiesta and carnival the book deterritorializes God s affect conceiving of an expansively hospitable enjoyment stemming from many life forms With a renewed welcome for pleasure the book also upholds a disruptive ethic Ultimately an immoderate God of love whose passionate enjoyment stems from the sufferings as well as joys of the cosmos offers another paradigm of lovingly enjoying oneself in relationship with passionate becomings that belong to many others Gendering Christian Ethics Jenny Daggars,2012-11-30 Gendering Christian Ethics brings together ethical reflections by a new generation of European and American researchers Contributors are well versed in feminist theology and feminist theory chapters build on foundations laid by pioneers who first raised questions of gender and Christianity Christian ethics have a bearing on the conduct of Christian theology church or institution and on distinctive Christian ways of engaging with the wider world Gendering Christian Ethics addresses these inner and outer dynamics New Feminist Christianity Mary E. Hunt,Diann L. Neu,2012-01-01 Powerful insights from ministers theologians activists leaders artists and liturgists who are shaping the future Christianity has been a source of the oppression of women as well as a resource for unleashing women s full humanity Feminist analysis and practice have recognized this Feminist Christianity is reshaping religious institutions and religious life in more holistic inclusive and justice focused ways from the Introduction

Feminism has brought many changes to Christian religious practice From inclusive language and imagery about the Divine to an increase in the number of women ministers Christian worship will never be the same Yet even now there is a lack of substantive structural change in many churches and complacency within denominations The contributors to this book are the thought leaders who are shaping and being shaped by the emerging directions of feminist Christianity They speak from across the denominational spectrum and from the many diverse groups that make up the Christian community as it finds its place in a religiously pluralistic world Taken together their voices offer a starting point for building new models of religious life and worship Topics covered include feminist Theological Visions Scriptural Insights Ethical Agendas Liturgical and Artistic Frontiers Ministerial Challenges

a German cultural and religious life after the First World War to the new realities of religious pluralism Tillich's theological responses were always profoundly ambivalent impure and disruptive asserts Re Manning The Tillich that is outlined and analyzed by this collection is never merely correlative Far from the dominant image of the theologian as a liberal accommodationist Re Manning reintroduces the troubled and troubling figure of the radical Tillich
