Goldfrank's Toxicologic Emergencies, Eleventh Edition Lewis S. Nelson, Robert S. Hoffman, Mary Ann Howland, Neal A. Lewin, Lewis R. Goldfrank, 2018-08-22

Goldfrank's is the premier toxicology textbook that should be in every emergency department or poison center library. Whether you are a student, resident, or faculty, there is something here for you. If you are a toxicology fellow or poison specialist studying for your boards, this is your go-to book. I highly recommend this work. The Journal of Emergency Medicine. The best edition yet of the landmark text in medical toxicology. A Doody's Core Title for 2021. Covering every aspect of poison management, this indispensable case-based resource has been thoroughly refreshed to deliver evidence-based principles viewed through the lens of an active bedside clinical practice. In no other reference will you find such a diverse roster of esteemed editors and authors who deliver expert insights into every type of toxicologic emergency, whether due to substance abuse or exposure to toxins. Fully referenced and supported by a cohesive organization and full-color format, Goldfrank's begins with a historical perspective on medical toxicology principles and the general approach to the patient. It then progresses to the fundamental principles of medical toxicology encompassing biochemical and molecular concepts, the effect of xenobiotics on vital organs and body systems, and toxicologic principles in special populations. The Eleventh Edition of Goldfrank's Toxicologic Emergencies is the most rigorous volume to date, driven by a precise analysis of the latest medical literature and complex cases designed to facilitate differential diagnosis. New to this Edition: Additional cases and Special Considerations chapters designed to enhance clinical decision making and patient outcomes. New Antidotes in Depth provides timely critical information on toxicologic treatment strategies. New content on toxicogenomics explores its increasingly important role in predictive toxicology. Chapter-ending bulleted summaries of key points. Updated coverage of synthetics such as K2. Revised chapters on medical, clinical, and chemical toxicology include updated insights on poison emergencies, treatment strategies, and risk assessment tools.

Goldfrank's Manual of Toxicologic Emergencies Robert S. Hoffman, Lewis S. Nelson, Mary Ann Howland, Neal A. Lewin, Neal E. Flomenbaum, Lewis R. Goldfrank, 2007-04-06. Preparing for an Influenza Pandemic Institute of Medicine, Board on Health Sciences Policy, Committee on Personal Protective Equipment for Healthcare Workers During an Influenza Pandemic, 2007-11-28 During an influenza pandemic healthcare workers will be on the front lines delivering care to patients and preventing further spread of the disease As the nation prepares for pandemic influenza multiple avenues for protecting the health of the public are being carefully considered ranging from rapid development of appropriate vaccines to quarantine plans should the need arise for their implementation One vital aspect of pandemic influenza planning is the use of personal protective equipment PPE the respirators gowns gloves face shields eye protection and other equipment that will be used by healthcare workers and others in their day to day patient care responsibilities However efforts to appropriately protect healthcare workers from illness or from infecting their families and their patients are greatly hindered by the paucity of data on the transmission of influenza and the challenges associated with training and equipping healthcare workers with effective personal protective equipment Due to this lack of knowledge on influenza transmission it is not possible at the present time to definitively inform healthcare workers about what PPE is critical and what level of protection this equipment will provide in a pandemic The outbreaks of severe acute respiratory syndrome SARS in 2003 have underscored the importance of protecting healthcare workers from infectious agents The surge capacity that will be required to reduce mortality from a pandemic cannot be met if healthcare workers are themselves ill or are absent due to concerns about PPE efficacy The IOM committee determined that there is an urgent need to address the lack of preparedness regarding effective PPE for use in an influenza pandemic

Preparing for an Influenza Pandemic Personal

Protective Equipment for Healthcare Workers identifies that require expeditious research and policy action 1 Influenza transmission research should become an immediate and short term research priority so that effective prevention and control strategies can be developed and refined The current paucity of knowledge significantly hinders prevention efforts 2 Employer and employee commitment to worker safety and appropriate use of PPE should be strengthened Healthcare facilities should establish and promote a culture of safety 3 An integrated effort is needed to understand the PPE requirements of the worker and to develop and utilize innovative materials and technologies to create the next generation of PPE capable of meeting these needs *Information Resources in Toxicology* P.J.
