Governance In The Community College New Directions For Community Colleges Number 141:

Governance in the Community College Robert C. Cloud, Susan T. Kater, 2008-04-07 Community college governance is a process for distributing authority influence and resources among internal and external constituencies Having evolved from traditional public school bureaucratic and political models that emphasize control and oversight community college governance is now a dynamic process with a host of participants Gone are the days when presidents and trustees acted unilaterally on college issues Although boards retain the legal authority to govern their colleges prudent trustees now encourage broad based involvement in governance Nationwide the trend is toward more participation and shared responsibility and some states are codifying the process For example the California legislature has mandated a shared governance system in public community colleges reflecting the movement toward involvement and transparency College leaders resist or ignore that trend to the detriment of their colleges and at their own peril Interest in community college governance will increase among scholars and practitioners for many reasons Enrollments are increasing rapidly while funding is not keeping pace Taxpayer resistance is a reality Workforce training programs will compete with transfer curricula for resources Increasing numbers of poorly prepared students will require remediation For profit institutions will compete for students Employee unions will press for better salaries and benefits and meaning participation in governance Special interest groups will continue electing advocates to governing boards P 19 initiatives will require close collaboration with public schools In the meantime rogue trustees will try the patience of everyone Traditional governance models will not suffice in this demanding arena Governance structures that are more collegial flexible and inclusive will be essential in the future as community colleges evolve to meet the needs of an increasingly complex and diverse society Chapters include Community College Governance What Matters and Why Governance over the Years A Trustee s Perspective Governance in a Union Environment Internal Governance in the Community College Models and Quilts The Effect of the Community College Workforce Development Mission on Governance Closing the Gaps in Texas The Critical Role of Community Colleges Yanks Canucks and Aussies Governance as Liberation Governance in Strategic Context Key Resources on Community College Governance This is the 141th volume of the Jossey Bass higher education quarterly report series New Directions for Community Colleges an essential guide for presidents vice presidents deans and other leaders in today s open door institutions this quarterly provides expert guidance in meeting the challenges of their distinctive and expanding educational mission

David, Marilyn J. Amey, 2020-05-21 Higher Education is in a state of ferment People are seriously discussing whether the medieval ideal of the university as being excellent in all areas makes sense today given the number of universities that we have in the world Student fees are changing the orientation of students to the system The high rate of non repayment of fees in the UK is provoking difficult questions about whether the current system of funding makes sense There are disputes about the ratio of research to teaching and further discussions about the international delivery of courses *Increasing Effectiveness of the Community College Financial Model* S. Sutin, D. Derrico, R. Raby, E. Wang, 2016-10-01 A volume on Theory and Practice of Adult and Higher Education or Foundations of Adult and Higher Education will appeal to both our graduate students and faculty as so many of them have been taking courses in both program areas and have been concerned with their defined areas of expertise Although theories and practices in Adult Education and in Higher Education are being used interchangeably there is a lack of scholarly work that connects existing theories and practices across the two fields The proposed ground breaking volume will cover topics theories practices in both fields of Adult Education and of Higher Education and in doing so will bring to the fore the connections that make these two fields truly inseparable The proposed volume will therefore generate new knowledge to share among faculty graduate students and other researchers who practice not only in Adult Education but also in Higher Education
