Lineages Of Despotism And Development British Colonialism And State Power:

Lineages of Despotism and Development Matthew Lange, 2009-08-01 Traditionally social scientists have assumed that past imperialism hinders the future development prospects of colonized nations Challenging this widespread belief Matthew Lange argues in *Lineages of Despotism and Development* that countries once under direct British imperial control have developed more successfully than those that were ruled indirectly Combining statistical analysis with in depth case studies of former British colonies this volume argues that direct rule promoted cogent and coherent states with high levels of bureaucratization and inclusiveness which contributed to implementing development policy during late colonialism and independence On the other hand Lange finds that indirect British rule created patrimonial weak states that preyed on their own populations Firmly grounded in the tradition of comparative historical analysis while offering fresh insight into the colonial roots of uneven development *Lineages of Despotism and Development* will interest economists sociologists and political scientists alike

British Colonialism and the Criminalization of Homosexuality Enze Han, Joseph O'Mahoney, 2018-05-03 *British Colonialism and the Criminalization of Homosexuality* examines whether colonial rule is responsible for the historical and continuing criminalization of same sex sexual relations in many parts of the world Enze Han and Joseph O Mahoney gather and assess historical evidence to demonstrate the different ways in which the British empire spread laws criminalizing homosexual conduct amongst its colonies Evidence includes case studies of former British colonies and the common law and criminal codes like the Indian Penal Code of 1860 and the Queensland Criminal Code of 1899 Surveying a wide range of countries the authors scrutinise whether ex British colonies are more likely to have laws that criminalize homosexual conduct than other ex colonies or other states in general They interrogate the claim that British imperialism uniquely poisoned societies against homosexuality and look at the legacies of colonialism and the politics and legal status of homosexuality across the globe

Colonialism and Postcolonial Development James Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of little consequence

Fates of Political Liberalism in the British Post-Colony Terence C. Halliday, Lucien Karpik, Malcolm M. Feeley, 2012-02-13 This book presents a theory of political liberalism in the British post

colonies The Oxford Handbook of Transformations of the State Stephan Leibfried, Evelyne Huber, Matthew Lange, Jonah D. Levy, Frank Nullmeier, John D. Stephens, 2015-06-11 This Handbook offers a comprehensive treatment of transformations of the state from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries the post Communist world and the Global South Leading experts in their fields from Europe and North America discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic social and political challenges The Handbook covers different types of states in the Global South from failed to predatory rentier and developmental in different kinds of advanced industrial political economies corporatist statist liberal import substitution industrialization and in various post Communist countries Russia China successor states to the USSR and Eastern Europe It also addresses crucial challenges in different areas of state intervention from security to financial regulation migration welfare states democratization and quality of democracy ethno nationalism and human development The volume makes a compelling case that far from losing its relevance in the face of globalization the state remains a key actor in all areas of social and economic life changing its areas of intervention its modes of operation and its structures in adaption to new international and domestic challenges **Imperial Borderlands** Bogdan G. Popescu, 2023-11-08 What are the institutions which govern border spaces and how do they impact long term economic and social development This book focuses on the Habsburg military frontier zone which originated in the sixteenth century as an instrument for protecting the empire's southern border against the threat of the Ottoman Empire and which lasted until the 1880s The book outlines the conditions under which this extractive institution affected development showing how locals were forced to work as soldiers and exposed to rigid communal property rights an inflexible labor market and discrimination when it came to the provision of public infrastructure While the formal institutions set up during the military colony disappeared their legacy can be traced in political attitudes and social norms even today with the violence and abuses exercised by the imperial government transformed into distrust in public authorities limited political involvement and low social capital **Ernest Gellner** John A. Hall, 2014-06-10 Ernest Gellner 1925-95 was a multilingual polymath and a public intellectual who set the agenda in the study of nationalism and the sociology of Islam Having grown up in Paris Prague and England he was also one of the last great Jewish thinkers from Central Europe to experience directly the impact of the Holocaust His intellectual trajectory differed from that of similar thinkers both in producing a highly integrated philosophy of modernity and in combining a respect for nationalism with an appreciation of the power of modern science Gellner was a fierce opponent in private as well as in public of such contemporaries as Michael Oakeshott Isaiah Berlin Charles Taylor Noam Chomsky and Edward Said As this definitive biography shows he was passionate in the defense of reason against every form of relativism a battle that his intellectual inheritors continue to this day Africa's Development in Historical Perspective Emmanuel Akyeampong, Robert

H. Bates, Nathan Nunn, James Robinson, 2014-08-11 Why has Africa remained persistently poor over its recorded history Has Africa always been poor What has been the nature of Africa's poverty and how do we explain its origins This volume takes a necessary interdisciplinary approach to these questions by bringing together perspectives from archaeology linguistics history anthropology political science and economics Several contributors note that Africa's development was at par with many areas of Europe in the first millennium of the Common Era Why Africa fell behind is a key theme in this volume with insights that should inform Africa's developmental strategies *Hong Kong Society* Stephen WK Chiu, Kaxton YK

Siu, 2022-02-23 This book borrows the concept of high definition from digital broadcasting to highlight our unique approach to Hong Kong society which gives a sharper image than analyses It intends to highlight contrasts with many common and taken for granted stories myths and representations of Hong Kong which often presented with a low level of detail lacking proper connections between grounded personal experiences and the macro social context With chapters covering various salient dimensions of Hong Kong's society including migration economy inequality identity and social movements our high definition approach presents images with high enough resolution to match multiple layers of experiences from walks of life of Hong Kong people contributing to an understanding of how global transformation impacts local people's experiences as well as Hong Kong's significance in the regional and global system The Colonial Origins of Ethnic Violence in India Ajay

Verghese, 2016-03-02 The neighboring north Indian districts of Jaipur and Ajmer are identical in language geography and religious and caste demography But when the famous Babri Mosque in Ayodhya was destroyed in 1992 Jaipur burned while Ajmer remained peaceful when the state clashed over low caste affirmative action quotas in 2008 Ajmer's residents rioted while Jaipur's citizens stayed calm What explains these divergent patterns of ethnic conflict across multiethnic states Using archival research and elite interviews in five case studies spanning north south and east India as well as a quantitative analysis of 589 districts Ajay Verghese shows that the legacies of British colonialism drive contemporary conflict Because India served as a model for British colonial expansion into parts of Africa and Southeast Asia this project links Indian ethnic conflict to violent outcomes across an array of multiethnic states including cases as diverse as Nigeria and Malaysia The Colonial Origins of Ethnic Violence in India makes important contributions to the study of Indian politics ethnicity conflict and historical legacies The Routledge Handbook of Contemporary Inequalities and the Life Course Magda Nico, Gary

Pollock, 2021-12-30 Drawing upon perspectives from across the globe and employing an interdisciplinary life course approach this handbook explores the production and reproduction of different types of inequality across a variety of social contexts Inequalities are not static easily measurable and essentially quantifiable circumstances of life They are processes which impact on individuals throughout the life course interacting with each other accumulating attenuating reproducing or distorting themselves along the way The chapters in this handbook examine various types of inequality such as economic gender racial and ethnic inequalities and analyse how these inequalities manifest themselves within different aspects of

Administrative Traditions B. Guy Peters, 2021-02-02 Contemporary public administration reflects its historical roots as well as contemporary ideas about how
