Throughout the book, he emphasizes particularly those aspects of the discipline that seem fundamental and most likely to remain important. Yunis Ali, 2013-10-08 This book deals with two different pragmatic approaches to textual communication i the mainstream approach followed by the Ash'ari s Hanafi s and Mu'tazili s ii the salafite approach followed mainly by the Hanbali s defended and elaborated by Ibn Taymiyyah One of the primary aims of the book is to explore and formulate several Muslim legal theorists' pragmatic theories communicative principles and linguistic views construct them in the form of models and set them within a general uniform framework Another aim is to reveal a corpus of information and data which though highly relevant to modern pragmatics is still unknown This study which can be seen as an extensive introduction to medieval Islamic pragmatics is the first attempt to examine the approaches followed by the Salafi s or the mainstream from a pragmatic viewpoint There has been no attempt to explain the principles and the strategies utilised by the medieval Sunni Muslim legal theorists in their account of how communication works and how successful interpretation is achieved Of course a lot of work has been done on different Islamic sects and their different positions over the interpretation of the Quran and Sunnah but these studies fall short of delving into the underlying communicative principles that motivate their differences over interpretation The author's formulation of the Muslim legal theorists' views is enhanced by setting up a reliable theoretical foundation and by delving into their underlying philosophical principles This involves relating the legal theorists' insights into interpretation and communication to their relevant ontological epistemological and theological outlooks and comparing these insights with their modern pragmatic counterparts

Usage-Based Studies in Modern Hebrew Ruth A. Berman, 2020-03-18 The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics typology and Semitic studies Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language the bulk of the book is devoted to usage based studies of the morphology lexicon and syntax of current Hebrew Based primarily on original analyses of authentic spoken and online materials these studies reflect varied theoretical frames of reference that are largely model neutral in approach To this end the book presents a functionally motivated dynamic approach to actual usage rather than providing strictly structuralist or formal characterizations of particular linguistic systems Such a perspective is particularly important in the case of a language undergoing accelerated processes of change in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated literate but non expert speaker writers of current Hebrew is constantly on the rise
