Zombie Politics and Culture in the Age of Casino Capitalism Henry A. Giroux, 2011 *Zombie Politics and Culture in the Age of Casino Capitalism* capitalizes upon the popularity of zombies exploring the relevance of the metaphor they provide for examining the political and pedagogical conditions that have produced a growing culture of sadism, cruelty, disposability and death in America. The zombie metaphor may seem extreme but it is particularly apt for drawing attention to the ways in which political culture and power in American society now operate on a level of mere survival. This book uses the metaphor not only to suggest the symbolic face of power beginning and ending with an analysis of authoritarianism; it attempts to mark and chart the visible registers of a kind of zombie politics including the emergence of right wing teaching machines, a growing politics of disposability, the emergence of a culture of cruelty and the ongoing war being waged on young people, especially on youth of color. By drawing attention to zombie politics and authoritarianism, this book aims to break through the poisonous common sense that often masks zombie politicians, anti-public intellectuals, politics institutions and social relations and bring into focus a new language, pedagogy and politics in which the living dead will be moved decisively to the margins rather than occupying the very center of politics and everyday life.

Transcultural Writers and Novels in the Age of Global Mobility Arianna Dagnino, 2015-06-30 In *Transcultural Writers and Novels in the Age of Global Mobility* Arianna Dagnino analyzes a new type of literature emerging from artists' increased movement and cultural flows spawned by globalization. This transcultural literature is produced by authors who write across cultural and national boundaries and who transcend in their lives and creative production the borders of a single culture. Dagnino's book contains a creative rendition of interviews conducted with five internationally renowned writers: Inez Baranay, Brian Castro, Alberto Manguel, Tim Parks and Ilija Trojanow, and a critical exegesis reflecting on thematic, critical and stylistic aspects. By studying the selected authors' corpus of work, life experiences and cultural orientations, Dagnino explores the implicit, often subconscious process of cultural and imaginative metamorphosis that leads transcultural writers and their fictionalized characters beyond ethnic, national, racial or religious loci of identity and identity formation. Drawing on the theoretical framework of comparative cultural studies, she offers insight into transcultural writing related to belonging, hybridity, cultural errancy, the Other, worldviews, translingualism, deterritorialization, neonomadism, as well as genre, thematic patterns and narrative techniques. Dagnino also outlines the implications of transcultural writing within the wider context of world literature and identifies some of the main traits that characterize transcultural novels.

Meaning and Aging Joachim Duyndam, Anja Machielse, 2024-04-27

The main objective of this book is to add from a humanist perspective new interdisciplinary insights and research results to the current academic debate on aging. The collection aims to enhance and complement the predominantly biomedical and sociological debates and provide a more comprehensive and highly topical view on aging and old age. By purveying a meaning in life perspective to the current debate we want to enrich and to deepen the research on aging thus aspiring to an ideal of meaningful aging. The starting point of this book is a humanistic meaning frame for addressing basic needs of a meaningful existence such as having goals in life, a sense of self worth, connectedness with others, moral justification, a certain degree of understanding, comprehensibility, direction and influence with a view to cohesion in life and not in the least place living pleasure or excitement. Taken together the essays show that experiencing a meaningful life contributes to one's mental resilience conceived as the ability to realize a humane individuality, autonomy in thinking and acting in situations of adversity and vulnerability particularly those faced by older people.

Self and Other in an Age of Uncertain Meaning

Timothy Stephen, 2021-11-25 *Self and Other in an Age of Uncertain Meaning* explores the nature and origins of widespread problems of self in modern societies. It examines the paradoxical interplay between the modern world's many benefits and freedoms and its mounting social challenges and psycho-emotional impacts. Over time the character of consciousness has shifted in concert with societal trends. The experienced world has become more nuanced, fragmented and uncertain as well as increasingly personal and intimate, reshaping social relationships. Chapters analyze the interdependence of language, mind, intimacy, the self and culture, arguing that as the coevolution of these five factors produced the modern world, many features

of contemporary culture have become disruptive to security of being The book explores the importance to the vital sense of self in constructing relationships based in mutual recognition of moral and intellectual equality between partners Rich with examples from everyday experience this text offers profound insights for those interested in sociology psychoanalysis psychology communication history and culture

A Private Sphere Zizi A. Papacharissi, 2013-04-23 Online technologies excite the public imagination with narratives of democratization The Internet is a political medium borne of democracy but is it democratizing Late modern democracies are characterized by civic apathy public skepticism disillusionment with politics and general disinterest in conventional political process And yet public interest in blogging online news net based activism collaborative news filtering and online networking reveal an electorate that is not disinterested but rather fatigued with political conventions of the mainstream This book examines how online digital media shape and are shaped by contemporary democracies by addressing the following issues How do online technologies remake how we function as citizens in contemporary democracies What happens to our understanding of public and private as digitalized democracies converge technologies spaces and practices How do citizens of today understand and practice their civic responsibilities and how do they compare to citizens of the past How do discourses of globalization commercialization and convergence inform audience producer citizen consumer personal political public private roles individuals must take on Are resulting political behaviors atomized or collective Is there a public sphere anymore and if not what model of civic engagement expresses current tendencies and tensions best Students and scholars of media studies political science and critical theory will find this to be a fresh engagement with some of the most important questions facing democracies today

Beyond Bauman Michael Hviid Jacobsen, 2016-10-26 Bringing together leading interpreters of Zygmunt Bauman s sociology this volume thinks with and beyond Bauman s work in order to show its continued relevance as a theory in its own right as an object of criticism and as a stepping stone towards a fuller understanding of contemporary society The volume deals with some proposed omissions and absences in Bauman s sociology with chapters comparing Bauman s ideas to those of other prominent social thinkers as well as chapters devoted to teasing out some problems and pitfalls in his work Paying attention to central concepts and themes of Bauman s thought authors engage with various aspects of his work considering potential deficiencies in his ethical perspective his neglect of the religious dimensions of modernity his lack of consideration for ethnicity and gender his overlooking the importance of socialisation in liquid modernity and his problematic argument for individual choice and freedom in a world that is increasingly closed down by consumer capitalism Beyond Bauman aspires to show that despite Bauman s status as a key sociological thinker there are also certain deficiencies in his work demand critical discussion It will be of use to scholars of sociology contemporary society social theory and modernity
