Gold,2015-05-20 While attention has been focused on high level struggles over control of giant enterprises in China and the former Soviet bloc a remarkable but underreported revolution has been occurring at the grass roots level This volume examines the profiles of entrepreneurs and the patterns of business development in the post socialist countries Bringing

together the perspectives of all the social science disciplines from anthropology through economics and political science to sociology the contributors identify the criteria for survival and success of independent businesses in different environments Their findings shed light not only on the transition from socialism at the micro level but also on the conditioning effects of different economic historical legal and social conditions on the conduct of independent economic initiatives *Canadian Mines Handbook* ,1956 Kiplinger's Personal Finance ,2009-05 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics Bulletin of the Phillips Exeter Academy ,1913 A List of lost alumni published as supplement to v 12 and v 16 **The Role of Consent in Human Trafficking** Jessica Elliott,2014-10-24 Human trafficking is consistently featured on the global political agenda This book examines the trafficking of adult female victims for sexual exploitation and specifically the understanding of consent and its influence in the identification and treatment of trafficking victims Jessica Elliott argues that when applied to situations of human trafficking migration and sexual exploitation the notion of consent presents problems which current international laws are unable to address Establishing the presence of coercion and a lack of consent can be highly problematic particularly in situations of human trafficking and exploitative prostitution activities which may be deemed inherently coercive and problematically clandestine By examining legal definitions of human trafficking in international instruments and their domestic implementation in different countries the book explores victimhood in the context of exploitative migration and argues that no clear line can be drawn between those who have been smuggled trafficked or consensually trafficked into a situation of exploitation The book will be great use and interest to students and researchers of migration law transnational criminal law and gender studies
