No Permanent Waves Nancy A. Hewitt, 2010 No Permanent Waves boldly enters the ongoing debates over the utility of the wave metaphor for capturing the complex history of women s rights by offering fresh perspectives on the diverse movements that comprise U S feminism past and present Seventeen essays both original and reprinted address continuities conflicts and transformations among women s movements in the United States from the early nineteenth century through today A respected group of contributors from diverse generations and backgrounds argue for new chronologies more inclusive conceptualizations of feminist agendas and participants and fuller engagements with contestations around particular issues and practices Race class and sexuality are explored within histories of women s rights

and feminism as well as the cultural and intellectual currents and social and political priorities that marked movements for women's advancement and liberation. These essays question whether the concept of waves surging and receding can fully capture the complexities of U.S. feminisms and suggest models for reimagining these histories from radio waves to hip hop.

Third Wave Feminism S. Gillis, G. Howie, R. Munford, 2007-04-17 This revised and expanded edition new in paperback provides a definitive collection on the current period in feminism known by many as the third wave. Three sections: genealogies and generations, locales and locations, politics and popular culture, interrogate the wave metaphor and through questioning the generational account of feminism indicate possible future trajectories for the feminist movement. New to this edition are an interview with Luce Irigaray, a foreword by Imelda Whelehan, as well as newly commissioned chapters.

Sisterhood, Interrupted D. Siegel, 2007-08-24 Contrary to clichés about the end of feminism, Deborah Siegel argues that younger women are not abandoning the movement but reinventing it. After forty years, is feminism today a culture or a cause? A movement for personal empowerment or broad-scale social change? Have women achieved equality or do we still have a long way to go?

The Gender Line Nancy Levit, 1998 Annotation: Levit analyzes the ways in which law legitimizes the social segregation of the sexes through legal decisions and illustrates the ways in which men's and women's oppressions are intertwined and how law molds the very definition of masculinity.

Feminism in Coalition Liza Taylor, 2022-11-11 In *Feminism in Coalition*, Liza Taylor examines how US women of color feminists' coalitional politics provides an indispensable resource to contemporary political theory, feminist studies, and intersectional social justice activism. Taylor charts the theorization of coalition in the work of Bernice Johnson Reagon, Audre Lorde, Barbara Smith, the Combahee River Collective, Gloria Anzaldúa, Cherríe Moraga, and others. For these activist scholars, coalition is a dangerous struggle that emerges from a shared political commitment to undermining oppression and an emphasis on self-transformation. Taylor shows how their coalitional understandings of group politics, identity, consciousness, and scholarship have transformed how activists and theorists build alliances across race, class, gender, sexuality, faith, and ethnicity to tackle systems of domination. Their coalitional politics enrich current discussions surrounding the impetus and longevity of effective activism, present robust theoretical accounts of political subject formation, and demonstrate the promise of collective modes of scholarship. In this way, women of color feminists have been formulating solutions to long-standing problems in political theory. By illustrating coalition's vitality to a variety of practical and philosophical interdisciplinary discussions, Taylor encourages us to rethink feminist and political theory.

Different Wavelengths Jo Reger, 2014-01-27 The original essays in this collection ground the shifting terrain of feminism in the 21st century. The contributors define and examine the complexity of the Third Wave by answering questions like: how appropriate is a third wave label for contemporary feminism? Are the agendas of contemporary feminism and the second wave really all that different? Does the wave metaphor accurately describe the difference between contemporary feminists and their predecessors? How do women of color fit into this notion of

contemporary feminism and what are the future directions of the feminist movement
