**Missions Disrupted** Larry W. Sharp,2022-07-08 Most everything in the world has changed since the age of the Greatest Missionary Generation which was an outpouring of missionaries following World War II that lasted until around 1985 Today however missionaries are no longer welcomed in most of the world and Christian terms like evangelism church planting conversion and missions are considered pejorative outside of the Western world All this demands a reexamination of the theology of Missio Dei for today s world and a theory for change that can be validated with credible research Author and former missionary Larry Sharp believes that the era of professional missions as we ve known it is coming to an end But since

God still seeks to redeem his world the future lies now with missional professionals with a new set of rules for how the gospel of Jesus Christ can be proclaimed Near the end of his life Billy Graham said The great work of God in the 21st century will be through everyday believers living out their faith in the workplace Since the first century AD there have been historical events such the persecution of the early church the Edict of Milan and the Protestant Reformation where major disruption resulted in the radical advance of the gospel We are on the cusp of another disruptive innovation Through real life narratives of international workplace professionals who have successfully integrated their faith with their work Missions Disrupted describes how this new work of missions looks today These inspiring stories come from the world of agriculture manufacturing medicine information technology education engineering music and retail It is up to the next generations to continue to share the Good News with the world wherever and however that may be

**Kingdom First** Jeff Christopherson, Mac Lake, 2015-06-15 Authors Jeff Christopherson and Mac Lake call readers to imagine a movement that vividly remembers the insubstantial days of a mustard seed with a sense of awe and wonder when looking at the indescribable harvest that stands all around Though the kingdom of God can t be forced by superficial methods the good news is that when you move past the threshold of your competency and comfort you find yourself in the very spot where God can use you like no other

Trajectory of the 21st Century Lawrence J. Terlizese, 2009-01-10 Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book s theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a postrationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal

mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century
