Gnostic Anthropology:

Gnostic Anthropology Samael Aun Weor, 2025-01-01 For centuries humanity has been caught between science evolutionism and religion creationism fighting about our origin and purpose Even though both sides have some truths both are crippled by blind faith in theories beliefs and speculations that are short on facts and abundant in contradictions and shortcomings What if the truth about life its origin purpose and future could be found through the union of science and religion What if rather than relying on fanatics who only repeat what they have been told one could learn to perceive and experience the truth for oneself This is the essential point of view of Gnosis knowledge from conscious experience By awakening consciousness which is religion to perceive reality as it is which is science one can begin to see that our history is far more incredible than modern science or religion suspect Based on this practical foundation Gnostic Anthropology explains the evolution of humanity as symbolized in the ancient teachings Rather than being the descendants of apes or of two divinely created people and the incest of their children we are the outcome of a very long and slow spiral cycle evolution and devolution whose pattern includes the rise and fall of civilizations faintly remembered in myths and scriptures such as the stories of the universal flood Atlantis Lemuria Hyperborea Thule etc Just as a child resembles its parents but also is changed humanity also resembles its parents but with changes In the birth and development of a single human being we can find all the clues of our ancient origins All we need to know is how to look in order to see the truth for ourselves Modern science insists upon the doctrine of evolution so do human reason and the Secret Doctrine and the idea is corroborated by the ancient legends and myths and even by the Bible itself when it is read between the lines We see a flower slowly developing from a bud and the bud from its seed But whence the latter with all its predetermined programme of physical transformation and its invisible therefore spiritual forces which gradually develop its form colour and odour The word evolution speaks for itself The germ of the present human race must have preexisted in the parent of this race as the seed in which lies hidden the flower of next summer was developed in the capsule of its parent flower H P Blavatsky Isis Unveiled Vol I p 153 **Gnostic Truth and Christian Heresy** A. H. B. Logan, 1996-01-01 **Gnosticism: A Note on the Philosophical School** Pons Malleus, 2025-07-10 In an age flooded with information and noise where the material and measurable often overshadow the inner and ineffable a rediscovery of Gnosticism offers a strikingly modern relevance This book is an invitation to journey into a philosophical worldview that defied the orthodoxies of its time and perhaps still defies those of our own Gnosticism often misunderstood or dismissed as a heretical fragment of early Christian history is far more than a set of outlawed scriptures or esoteric rituals It is a mode of thought a way of being and a profound challenge to the prevailing paradigms of existence knowledge and salvation At its heart Gnosticism confronts a perennial human condition the deep sense that the world as we experience it is somehow not as it should be that we are exiles in a cosmos that conceals more than it reveals Gnostics dared to name this unease to mythologize it and to systematize it into a metaphysical framework that combined ancient mythology

Platonic philosophy and radical introspection For the Gnostics the material world was not merely flawed but fundamentally alien a creation of lesser powers a prison of the soul Salvation they claimed comes not from belief or obedience but through gnosis direct transformative knowledge of the divine spark within This book does not aim to romanticize Gnosticism nor to reduce it to a single unified doctrine It is neither a defense of Gnosticism nor an attack on its critics Rather it is an attempt to understand it as a living breathing philosophical tradition complex diverse and internally contested The reader will encounter the major themes of Gnostic thought the demiurge and the pleroma the fall of Sophia the cosmic drama of entrapment and awakening and the radical anthropology that sees the human being not as a sinner to be redeemed but as a divine fragment to be remembered We will examine Gnosticism in its historical context arising in the melting pot of Hellenistic religious ferment drawing from Jewish mysticism Persian dualism and Greek metaphysics We will explore the writings of key Gnostic texts from the Apocryphon of John to the Gospel of Thomas and consider the philosophical implications of their often cryptic and poetic insights At the same time we will trace the influence of Gnostic ideas through the centuries in the mystics of medieval Europe the dissenting sects of the Renaissance and even in modern existential and psychological thought Why does Gnosticism endure Perhaps because it speaks to a timeless intuition that the path to truth lies not in submission to external authority but in awakening to something buried within In a world increasingly dominated by systems that reduce human beings to data points and citizens to consumers the Gnostic refusal to accept appearances at face value is not just subversive it is necessary I invite you to suspend your assumptions to read not only with your intellect but with your inner ear Gnosticism may not offer clear answers but it poses questions that remain uncannily alive It calls us to remember to seek and above all to know

Eusebius, Christianity and Judaism Gohei Hata, Harold W. Attridge, 2022-10-04 Eusebius of Caesarea lived at a crucial turning point in the history of the Christian church He was an important witness to the polemical and apologetic attitudes that characterized much early Christian literature The most voluminous writer of the early fourth century he was also the first comprehensive historian of his community seeking a philosophy to explain the whole course of history from the beginning to his own time This volume places Eusebius work in proper perspective The contributors all recognized specialists in early Christianity shed light on the person and circumstances of Eusebius himself This collection of essays focuses on elements of the story that Eusebius tells the story of the early church its relationship to Judaism or its confrontation with the Roman Empire and explores gaps left by Eusebius The writers offer a cross section of current scholarly methods in the study of early Christianity and Judaism

Johannine and Pauline Themes in the New Testament Robert Ignatius Letellier, 2022-08-02 This study presents themes deriving from the key contributions of the Apostles John and Paul to the New Testament It examines the Gospel of John and aspects of the Letters and Theology of Paul These cover chronology and authorship contemporary contexts use of rhetorical figures the Christological hymns and soteriological and moral concerns in the wider context of both the New Testament and the Old Testament The approach is essentially synchronic but also encompasses diachronic elements Christological and tropological issues are examined afresh especially in the light of the canonical approach and in terms of imagery symbolism and semiotic considerations The person of Jesus and the teachings of the Christian Church still raise many questions and controversies This book re considers some of these in the light of recent scholarship and finds new perspectives on the themes arising from the crucial contribution of both John and Paul to the Bible and Christian witness generally

The Concept of Self in Hinduism,

Buddhism, and Christianity and Its Implication for Interfaith Relations Kiseong Shin, 2017-05-05 This is the first comparative study of the self and no self in Hinduism Buddhism and Christianity In spite of doctrinal differences within these three belief systems they agree that human beings are in a predicament from which they need to be liberated Indian religions including Hinduism and Buddhism share the belief that human nature is inherently perfectible while the epistemological and psychological limitation of the human being is integral to Christian belief Regarding the immortality of the human being Hinduism and Christianity traditionally and generally agree that human beings as atman or soul possess intrinsic immortality On the contrary Buddhism teaches the doctrine of no self anatta Further in their quest to analyze the human predicament and attempt a way out of it they employ different concepts such as sin and salvation in Christianity attachment tanka and enlightenment nirvana in Buddhism and ignorance avidya and liberation moksha in Hinduism This volume seeks to show that that behind these concepts are deep concerns related to human existence and its relationship with the whole creation These common concerns can be a basis for a greater understanding and dialogue between Christians Hindus and Buddhists
