Music in Goethe's Faust Lorraine Byrne Bodley, 2017 Goethe's Faust a work which has attracted the attention of composers since the late eighteenth century and played a vital role in the evolution of vocal operatic and instrumental repertoire in the nineteenth century has had a seminal impact in musical realms Operatic Migrations Downing A. Thomas, 2017-07-05 This volume takes an interdisciplinary approach to studying a wide range of subjects associated with the creation performance and reception of opera in varying social and historical contexts from the eighteenth to the twentieth centuries Each essay addresses migrations between genres cultures literary and musical works modes of expression media of presentation and aesthetics Although the directions the contributions take are diverse they converge in significant ways particularly with the rebuttal of the notion of the singular nature of the operatic work The volume strongly asserts that works are meaningfully transformed by the manifold circumstances of their creation and reception and that these circumstances have an impact on the life of those works in their many transformations and on a given audience's experience of them Topics covered include transformations of literary sources and their migration into the operatic genre works that move across geographical and social boundaries into different cultural contexts movements between media and or genre as well as alterations through interpretation and performance of the composer's creation the translation of spoken theatre to lyric theatre the theoretical issues contingent on the rendering of speech into song and the transforming effects of aesthetic considerations as they bear on opera Crossing over disciplinary boundaries between music literary studies history cultural studies and art history the volume enriches our knowledge and understanding of the operatic experience and the works The book will therefore appeal to those working in the field of music literary and cultural studies and to those with a particular interest in opera and musical theatre **A Comparative History of the Literary Draft in Europe** Olga Beloborodova, Dirk Van Hulle, 2024-11-15 Literary drafts are a constant in literatures of all ages and linguistic areas and yet their role in writing processes in various traditions has seldom been the subject of systematic comparative scrutiny In 38 chapters written by leading experts in many different fields this book charts a comparative history of the literary draft in Europe and beyond It is organised according to eight categories of comparison distributed over the volume's two parts devoted respectively to Text i

e the textual aspects of creative processes and Beyond Text i e aspects of creative processes that are not necessarily textual Across geographical temporal linguistic generic and media boundaries to name but a few this book uncovers idiosyncrasies and parallels in the surviving traces of human creativity while drawing the reader s attention to the materiality of literary drafts and the ephemerality of the writing process they capture Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction

explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

The Philosophical Quest for God Norbert Fischer, 2005 Philosophy is Love of wisdom There is continual danger that the ports of the search will be taken as the final goal The constitutive absoluteness of its goal points to an unknown absolute This absolute creates a place for thinking about God Thus the God question plays its role in every philosophy from antiquity to the present The way begins with man as the entry point of the question concerning transcendence Then this question is shown to be directed toward God The middle section is dedicated to the arguments concerning divine existence After the arguments for the reasonableness of belief in God we deal with the relationship of philosophical thought about God to living faith Finally the ways to a search for God carried out in trust which certain thinkers have followed while recognizing its problems is outlined
