Pierce,2015-03-04 **Religious Diversity--What's the Problem?**

Rita M. Gross,2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world s various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author s longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture *The Routledge Handbook of Buddhist-Christian Studies* Carol Anderson,Thomas Cattoi,2022-09-30 Buddhist Christian dialogue has a long and complex history that stretches back to the first centuries of the common era Comprising 42 international and disciplinarily diverse chapters this volume begins by setting up a framework for examining the nature of Buddhist Christian interreligious dialogue discussing how research in this area has been conducted in the past and considering future theoretical directions Subsequent chapters delve into important episodes in the history of Buddhist Christian dialogue contemporary conversations such as monastic interreligious dialogue multiple religious identity and dual religious practice and Buddhist Christian cooperation in social justice social engagement pastoral care and interreligious education settings The volume closes with a section devoted to comparative and constructive explorations of different speculative themes that range from the theological to the philosophical or experiential This handbook explores how the study of Buddhist Christian relations has been and ought to be done The Routledge Handbook of Buddhist Christian Studies is essential reading for researchers and students interested in Buddhist Christian studies Asian religions and interreligious relationships It will be of interest to those in fields such as anthropology political science theology and history Crucified Wisdom S. Mark Heim,2018-12-04 Winner of the Frederick Streng Book Award for Excellence in Buddhist Christian Studies This work provides the first systematic discussion of the Bodhisattva path and its importance for constructive Christian

theology Crucified Wisdom examines specific Buddhist traditions texts and practices not as phenomena whose existence requires an apologetic justification but as wells of tested wisdom that invite theological insight With the increasing participation of Christians in Buddhist practice many are seeking a deeper understanding of the way the teachings of the two traditions might interface Christ and the Bodhisattva are often compared superficially in Buddhist Christian discussion This text combines a rich exposition of the Bodhisattva path using ntideva s classic work the Bodicary vat ra and subsequent Tibetan commentators with detailed reflection on its implications for Christian faith and practice Author S Mark Heim lays out root tensions constituted by basic Buddhist teachings on the one hand and Christian teachings on the other and the ways in which the Bodhisattva or Christ embody and resolve the resulting paradoxes in their respective traditions An important contribution to the field of comparative theology in general and to the area of Buddhist Christian studies in particular Crucified Wisdom proposes that Christian theology can take direct instruction from Mah y na Buddhism in two respects deepening its understanding of our creaturely nature through no self insights and revising its vision of divine immanence in dialogue with teachings of emptiness Heim argues that Christians may affirm the importance of novelty in history the enduring significance of human persons and the Trinitarian reality of God even as they learn to value less familiar nondual dimensions of Christ s incarnation human redemption and the divine life Crucified Wisdom focuses on questions of reconciliation and atonement in Christian theology and explores the varying interpretations of the crucifixion of Jesus in Buddhist Christian discussion The Bodhisattva path is central for major contemporary Buddhist voices such as the Dalai Lama and Th ch Nh t Hanh who figure prominently as conversation partners in the text This work will be of particular value for those interested in dual belonging in connection to these traditions
