assess the risks and rewards that come with owning gold he introduces opinions from an impressive range of commentators examines different scenarios that may play out on the world economic stage and highlights situations when owning gold makes sense and when it doesn't To complete the picture Frank Holmes's contribution to *The Goldwatcher* explains the risks and rewards *The Goldwatcher* has been written for 21st century investors It will be an indispensable resource for responsible people from institutional money managers to private savers whether the gold price moves up down or sideways Patrick H Spencer Managing Director Head of Institutional Sales Robert W Baird Limited London Frank Holmes's stellar track record as a resource portfolio manager is a clear reflection of his understanding of the business the markets and the factors that affect them His success is as much about unearthing value as it is about creating an investment process that is religiously followed If you want to succeed in your resource investment this book is a must It's all the more enjoyable because the writing style is easy going clear and understandable Pierre Lassonde Former chairman World Gold Council and past president Newmont Mining Corp This book is also supported by *The Goldwatcher* blog <http://www.thegoldwatcher.com> which addresses news and developments affecting gold and the dollar updates statistical information and links with sources for data and commentary **Buying Actuals an Investors Manual for Evaluating Gold and Silver** Jack N.
