Screw Your Perception Kareem A Rashed, 2022-08-22 Basically Screw Your Perception is to remind us all that we are one How is our ego getting in the way and stopping us from listening and

accepting others just as they are How can we learn to live in love and in relation with another How can we learn and understand one another What if we listened What if we allowed others to be themselves What if we let go What if we were willing to look ourself in the mirror What if we might just be each other s reflection What if we were here to learn to show empathy to love and to accept one another Can we accept others just as they are Can we accept them even when to us what they are saying thinking or doing seems so different from what we are saying thinking or doing The big question Can we deflate our ego and stop trying to change everyone else Maybe it is about changing ourselves Maybe it is all about connection rather than division

Argumentation and Language — Linguistic, Cognitive and Discursive Explorations
Steve Oswald, Thierry Herman, Jérôme Jacquin, 2018-03-08

This volume focuses on the role language plays at all levels of the argumentation process. It explores the effects that specific linguistic choices may have in the production and the reception of arguments and in doing so it moves beyond the first necessary descriptive stance provided by current literature on the topic. Each chapter provides an original take illuminating one or more of the following three issues: the range of linguistic resources language users draw on as they argue; how cognitive processes of meaning construction may influence argumentative practices; and which discursive devices can be used to fulfil a number of argumentative goals. The volume includes theoretical and empirical or applied stances providing the reader both with state of the art reflections on the relationship between argumentation and language and with concrete examples of how this relationship plays out in naturally occurring argumentative practices such as classroom interaction and political parliamentary or journalistic discourse. This is a very original, timely and welcome contribution to the study of argumentation conducted with the tools of the language sciences. The collection of papers relevantly tackles key linguistic discursive and cognitive aspects of argumentative practices whose treatment is underrepresented in mainstream argumentation studies by offering new and exciting linguistically grounded theoretical accounts. As such, the volume testifies both to the vigour of the linguistic current within the discipline and to the high standards of scholarly commitment and quality that the younger generation is pushing forward. Without question, this book marks an important milestone in the relationships between linguistics and argumentation theory.
