2.13b . . . or using a bolt to align the camshaft

engine whilst the crankshaft and camshaft timing pins are in position. If the engine is to be left in this state for a long period of time, it is a good idea to place suitable warning notices inside the vehicle, and

in the engine compartment. This will reduce the possibility of the engine being accidentally cranked on the starter motor, which would cause considerable damage.

14 Check that the mark on the high-pressure

2.14 The mark on the high-pressure pump sprocket must be aligned with the bolt head on the cylinder head

injection pump sprocket is aligned with the bolt head on the cylinder head [see illustration].

15 On completion, remove the timing pins and refit all removed components.
