Moonlight Express Monisha Rajesh, 2025-08-28 From the author of the smash hit *Around the World in 80 Trains* comes a new globetrotting journey this time celebrating the peculiar magic and mayhem of the night train Nobody writes trains like Monisha Rajesh Irvine Welsh Hugely entertaining *The Times* A moonlit express train to travel writing heaven This is Monisha Rajesh's wittiest and most irresistible adventure yet William Dalrymple The wonder of the night train headlamps ablaze passengers boarding after sunset and leaving before sunrise slipping in and out of compartments unseen For Monisha Rajesh the singular thrill of sleeper trains inspired a new journey around the world one filled with moonlit landscapes cosy compartments and quirky companions From Austria's Nightjet to the Caledonian Sleeper and the Santa Claus Express Rajesh invites us on an adventure aboard the world's most wondrous night trains Along the way she samples reindeer stew in Scandinavia retraces the original route of the Orient Express sips on pisco sours aboard the Andean Explorer and watches the sun rise over the Potomac River on the Silver Meteor to New York A decade ago night trains were giving way to budget airlines and high speed rail But as people search for slower and more environmentally friendly ways to travel night trains are in the midst of a renaissance By turns romantic and hilarious *Moonlight Express* brings us along for the ride and drops us back at the platform before sunrise **Voluntary Detours** Lianne McTavish, 2021-10-15 After visiting hundreds of museums across Alberta Lianne McTavish chronicles some of the most challenging and unexpected sites where the idea of the museum is being reshaped The concept of the visit as a voluntary detour encapsulates the way visitors travel along backroads to find small town and rural museums as well as the agreement to turn away from standard museum scripts when they arrive Addressing themes of place land colonization rurality heritage childhood and play McTavish reveals the museum visitor as multifaceted with locals and tourists often interpreting museums very differently Case studies include the World Famous Gopher Hole Museum Fort Chipewyan Bicentennial Museum Blackfoot Crossing Historical Park and the Museum of Fear and Wonder A key chapter analyzing sites devoted to resource extraction explores how these places promote settler colonial understandings of land use By contrast Indigenous museums and cultural centres defy colonial messages in displays that adapt and refuse conventional museum formats Honouring local rural and Indigenous knowledge *Voluntary Detours* enriches critical accounts of the past present and future of museums **Official Gazette of the United States Patent Office** USA Patent Office, 1884 English Mechanic and Mirror of Science and Art, 1885 Minor Photography Mieke Bleyen, 2012 The

first book to apply the concept of the minor to the theory of photography The notion of the minor developed by Gilles Deleuze and Félix Guattari in *Kafka Towards a minor literature* 1975 is introduced and connected applied here for the very first time to the field of photography theory Deleuze and Guattari defined minor literature in terms of deterritorialization politicization and collectivization By transferring the minor to the medium of photography this book enlarges the idea of the minor and opens it up to all kinds of mutations in the process The essays gathered in this book discuss the ways in which photography can make the dominant codes of representation stammer and how it can produce new effects and address people yet to come The authors consider the minor as a valuable tool to help photography research move beyond or in between binary and hierarchized ways of thinking of high and low art for example or centre and periphery As such it aims to contribute to a rethinking of photography as multiplicity and variation Consequently the term is connected with both marginal and canonical photographic practices covering photographers as different as Miroslav Tichy Paul McCarthy Tacita Dean Dan Graham and Paul Noug After developing a theory of the minor this book explores how the operations of the minor can be found in major art practices It closes by tackling the question of photography as variation in case studies of belated forms of surrealist photography This publication is GPRC labeled Guaranteed Peer Reviewed Content *Making a Photographer* Rebecca A. Chemistry of the Upper and Lower Atmosphere Barbara J. Finlayson-Pitts, James N. Pitts Jr., 1999-11-17 Here is the most comprehensive and up to date treatment of one of the hottest areas of chemical research The treatment of fundamental kinetics and photochemistry will be highly useful to chemistry students and their instructors at the graduate level as well as postdoctoral fellows entering this new exciting and well funded field with a Ph D in a related discipline e.g analytical organic or physical chemistry chemical physics etc Chemistry of the Upper and Lower Atmosphere provides postgraduate researchers and teachers with a uniquely detailed comprehensive and authoritative resource The text bridges the gap between the fundamental chemistry of the earth's atmosphere and real world examples of its application to the development of sound scientific risk assessments and associated risk management control strategies for both tropospheric and stratospheric pollutants Serves as a graduate textbook and must have reference for all atmospheric scientists Provides more than 5000 references to the literature through the end of 1998 Presents tables of new actinic flux data for the troposphere and stratosphere 0-40km Summarizes kinetic and photochemical data for the troposphere and stratosphere Features problems at the end of most chapters to enhance the book's use in teaching Includes applications of the OZIPR box model with comprehensive chemistry for student use

The King of Orchard Street Vincent Palmieri, 2024-09-19 The King of Orchard Street is a tale told by six men including the author over three generations and across the decades of the 1940s 1950s and 1960s Their stories recreate a world that was bound by a simple yet profound code of family respect cooperation contentment and acceptance for all Due to the passing of time these six men's lives all intersected to varying degrees but the daily living experience for each of them over thirty plus years never varied The ageless principles etched into the King of Orchard Street are more germane to this tumultuous planet than

ever before A small uncomplicated set of values that can be practiced every day by everyone may lead to a world where problems massive and minimal can be reduced then vanquished

Principles of Lasers Orazio Svelto, 2013-04-17 This book is motivated by the very favorable reception given to the previous editions as well as by the considerable range of new developments in the laser field since the publication of the third edition in 1989 These new developments include among others quantum well and multiple quantum well lasers diode pumped solid state lasers new concepts for both stable and unstable resonators femtosecond lasers ultra high brightness lasers etc This edition thus represents a radically revised version of the preceding edition amounting essentially to a new book in its own right However the basic aim has remained the same namely to provide a broad and unified description of laser behavior at the simplest level which is compatible with a correct physical understanding The book is therefore intended as a textbook for a senior level or first year graduate course and or as a reference book The most relevant additions or changes to this edition can be summarized as follows 1 A much more detailed description of Amplified Spontaneous Emission has been given Chapter 2 and a novel simplified treatment of this phenomenon both for homogeneous and inhomogeneous lines has been introduced Appendix C 2 A major fraction of a new chapter Chapter 3 is dedicated to the interaction of radiation with semiconductor media either in a bulk form or in a quantum confined structure quantum well quantum wire and quantum dot 3

Ezra Pound in Context Ira B. Nadel, 2010-11-11 Long at the centre of the modernist project from editing Eliot's *The Waste Land* to publishing Joyce Pound has also been a provocateur and instigator of new movements while initiating a new poetics This is the first volume to summarize and analyze the multiple contexts of Pound's work underlining the magnitude of his contribution and drawing on new archival textual and theoretical studies Pound's political and economic ideas also receive attention With its concentration on the contexts of history sociology aesthetics and politics the volume will provide a portrait of Pound's unusually international reach an American born modern poet absorbing the cultures of England France Italy and China These essays situate Pound in the social and material realities of his time and will be invaluable for students and scholars of Pound and modernism
