Philosophy of Language in the Brentano School Arnaud Dewalque, Charlotte Gauvry, Sébastien Richard, 2020-11-23 This collection of fourteen original essays addresses the seminal contribution of Franz Brentano and his heirs to philosophy of language Despite the great interest provoked by the Brentanian tradition and its multiple connections with early analytic philosophy precious little is known about the Brentanian contribution to philosophy of language The aim of this new collection is to fill this gap by providing the reader with a more thorough understanding of the legacy of Brentano and his school in their pursuit of a unique research programme according to which the analysis of meaning is inseparable from philosophical inquiries into what goes on in the mind and what there is in the world In three parts the volume first reconstructs Brentano's pathbreaking thoughts on meaning and grammatical illusions exploring their strong connections with the Austro-German tradition and analytic philosophy It then addresses the multifaceted debates on the objectivity of meaning in the Brentano School and its aftermath Meinong Husserl Ingarden Twardowski and the Lvov-Warsaw School Finally part three explores Brentano's wider legacy namely Husserl's theory of modification and typicality Bühler's theory of linguistic and non-linguistic expressions and Wittgenstein's thoughts on guidance and rule following The result is a unique collection of essays which shows the significance, originality and timely character of the Brentanian philosophy of language

New Essays on Aristotle's Organon António Pedro Mesquita, Ricardo

Santos,2023-12-22 This collection of new essays by an international group of scholars closely examines the works of Aristotle's *Organon*. The *Organon* is the general title given to the collection of Aristotle's logical works: *Categories*, *De Interpretatione*, *Prior Analytics*, *Posterior Analytics*, *Topics*, and *Sophistical Refutations*. This extremely influential collection gave Aristotle the reputation of being the founder of logic and has helped shape the development of logic for over two millennia. The chapters in this volume cover topics pertaining to each of the six works traditionally included in the *Organon*, as well as its manuscript tradition. In addition, a comprehensive introduction by the editors discusses Aristotle and logic, the composition and order of the *Organon*, and the authenticity, title, and chronology of the treatises that make up these works. As an appendix, the volume includes a new critical edition of the Greek text of Book 8 of the *Topics*. *New Essays on Aristotle's Organon* offers a valuable insight into this collection for students and scholars working on Aristotle, the works of the *Organon*, or the philosophy of logic more broadly. The Cambridge Handbook of the Philosophy of Language Piotr Stalmaszczyk,2021-12-02 A comprehensive guide to contemporary investigations into the relationship between language philosophy and linguistics.

A History of Ambiguity Anthony Ossa-Richardson,2021-12-14 Ever since it was first published in 1930, William Empson's *Seven Types of Ambiguity* has been perceived as a milestone in literary criticism. Far from being an impediment to communication, ambiguity now seemed an index of poetic richness and expressive power. Little, however, has been written on the broader trajectory of Western thought about ambiguity before Empson, as a result the nature of his innovation has been poorly understood. *A History of Ambiguity* remedies this omission. Starting with classical grammar and rhetoric and moving on to moral theology, law, biblical exegesis, German philosophy, and literary criticism, Anthony Ossa-Richardson explores the many ways in which readers and theorists posited, denied, conceptualised, and argued over the existence of multiple meanings in texts between antiquity and the twentieth century. This process took on a variety of interconnected forms: from the Renaissance delight in the elegance of ambiguities in Horace through the extraordinary Catholic claim that Scripture could contain multiple literal and not just allegorical senses to the theory of dramatic irony developed in the nineteenth century; a theory intertwined with discoveries of the double meanings in Greek tragedy. Such narratives are not merely of antiquarian interest; rather, they provide an insight into the foundations of modern criticism, revealing deep resonances between acts of interpretation in disparate eras and contexts. *A History of Ambiguity* lays bare the long tradition of efforts to liberate language and even a poet's intention from the strictures of a single meaning.

Herder's Philosophy Michael N. Forster,2018-08-16 Johann Gottfried Herder (1744–1803) is a towering figure in modern thought, but one who has hitherto been severely underappreciated. Michael Forster seeks to rectify that situation. He considers Herder's philosophy in the round and argues that it is both far more impressive in quality and far more influential in modern thought than has previously been realized. After an introduction on Herder's intellectual

biography philosophical style and general program in philosophy there are chapters on his philosophy of language his hermeneutics his theory of translation his contribution of the philosophical foundations for both linguistics and cultural anthropology his philosophy of mind his aesthetics his moral philosophy his philosophy of history his political philosophy his philosophy of religion and his intellectual influence Forster argues that Herder contributed vitally important ideas in all of these areas that in many of them his ideas were seminal for major subsequent philosophers including Friedrich Schlegel Schleiermacher Wilhelm von Humboldt Hegel and Nietzsche that they indeed founded whole new disciplines such as linguistics anthropology and comparative literature and that moreover they were in many cases even better than what these subsequent thinkers and disciplines went on to make of them

Aquino,Matthew Levering,2025-04-01 John Henry Newman s Essay in Aid of a Grammar of Assent is a masterpiece of religious epistemology providing astute descriptive analysis of how the human mind actually works in addressing itself to reality as well as a novel prescriptive vocabulary for fruitfully considering the assent involved in Christian belief While it is rightly numbered among the most important of Newman s writings the Grammar is a difficult and complex work combining rigorous theoretical argumentation with deeply personal reflection In this Critical Guide to Newman s Grammar editors Frederick D Aquino and Matthew Levering have assembled ten original essays on the work s historical background and key themes and ideas Topics discussed include Newman s distinctions of real and notional apprehension and real and notional assent his treatment of the role of conscience and dogmatic propositions in religious reasoning his understanding of faith and rationality his notions of the illative sense and the role of inference in intellectual inquiry and his view of the relation between natural and revealed religion The contributing authors are an international array of noteworthy Newman scholars including Frederick D Aquino Christopher Cimorelli John F Crosby Logan Paul Gage Stephen Grimm Thomas S Hibbs Lorraine Keller Andrew Meszaros Francesca Aran Murphy Cyril O Regan and Geertjan Zuijdwegt This collection of essays presents the riches of the Grammar in conversation with contemporary philosophical and theological concerns guiding readers into its central topics while also advancing its scholarly reception **Predication and Ontology** Alexander Kalbarczyk,2018-08-06

In *Predication and Ontology* A Kalbarczyk provides the first monograph length study of the Arabic reception of Aristotle s Categories At the center of attention is the critical reappraisal of that treatise by Ibn S n d 428 AH 1037 AD better known in the Latin West as Avicenna Ibn S n s reading of the Categories is examined in the context of his wider project of rearranging the transmitted body of philosophical knowledge Against the background of the late ancient commentary tradition and subsequent exegetical efforts Ibn S n s Kit b al Maq l t of the if is interpreted as a milestone in the gradual reshuffle of the relationship between logic proper and ontology In order to assess the philosophical impact of this realignment some of the subsequent developments in Ibn S n s writings and in the emerging post Avicennian tradition are also taken into account The

thematic focus lies on the two fundamental classification schemes which Aristotle introduces in the treatise the fourfold division of Cat 2 of a subject in a subject and the tenfold scheme of Cat 4 i.e substance and the nine genera of accidents They both pose the question of whether and how the manner in which an expression is predicated relates to extra linguistic reality As the study intends to show this question is one of the driving forces of Ibn S n s momentous reform of the Aristotelian curriculum This monograph has been awarded the Iran World Award for Book of the Year 2020 **Arts of Allusion** Margaret S. Graves, 2018-07-31 Through close studies of ceramics metalwares and other plastic arts from the ninth to the thirteenth centuries Arts of Allusion reveals the object as a crucial site where pre modern craftsmen of the eastern Mediterranean and Persianate realms engaged in fertile dialogue with poetry literature painting and most strikingly architecture Journey Among Dervishes Between Past and Present AA: VV:, 2024-03-08T00:00:00+01:00 The present book intends to invite readers on a multi dimensional and multifaceted journey meeting dervishes in different places and environments of the Muslim world its peculiarity is to bring together a classical orientalist approach based on texts and written documents with the approach typical of Anthropology Ethnography and Ethnomusicology based on research in the field and oral sources the ethnographic study of the present sheds new light on practices methods and theories exposed in treatises of the Past while at the same time practices of the present may be clarified and illuminated by the study of ancient Sufi texts and authors These different approaches want to draw attention to the multiple dimensions embraced by tasawwuf Sufism both in its historical and social context and in its nontemporal aspect concerning spirituality and the ways the latter is conveyed and transmitted both in the past and present **Power in the Name** Joseph L. Kimmel, 2025-05-19 How do divine names channel power This project analyzes first of all the invocation of particular divine names e.g Jesus Aphrodite to access power for activities like healing protecting and harming In so doing it focuses on texts and artifacts e.g amulets from ancient Mediterranean communities including both early Christian documents and Greek magical papyri Additionally it compares these materials with empowered names from a very different context 10th century Tibet where names were similarly invoked to access otherworldly power based upon Indic understandings of language In both contexts therefore a primary feature of this project is the analysis of religious experience mediated via invocation of particular names The project then builds upon this primary level onomastic analysis to consider how and why names were believed to work in this manner Towards this end the work comparatively considers major onomastic theories from the ancient Mediterranean world including those of Plato Origen Tertullian and Iamblichus While the main focus of the project is the ancient Mediterranean world the book will also address the Indo Tibetan linguistic theories undergirding artifacts from that context The Well-Tempered Reader Sarah R. Bin Tyeer, 2025-12-09 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more The Well Tempered Reader provides a new understanding of the term adab a ubiquitous concept in Arabic literature with many meanings In Sarah R Bin Tyeer s analysis adab is more

than just a way of writing or the cultivation of moral excellence as it is often understood. It is rather an ethical way of perceiving, understanding, and living that results from ceaseless critical interaction between the individual and all aspects of his or her social, cultural, natural, and metaphysical environment. Through a close reading of texts from eighth-century Baghdad to nineteenth-century Lebanon, in which *adab* emerges as a force across historical periods and geographies, Bin Tyeer posits the term as a generative literary and cultural framework and a discursive force for analyzing literary acts. This is the first book-length study of *adab* as an intellectual institution, examining its role and historical influence in the moral and intellectual formation of the *adabized* subject. Bin Tyeer reveals the import of *adab* not only for Arabic literary studies but for comparative literary inquiry.
