Linguistic Human Rights Overcoming Linguistic Discrimination Contributions To Sociology Of Language

Robert Bayley, Richard Cameron, Ceil Lucas

Linguistic Human Rights Overcoming Linguistic Discrimination Contributions To Sociology Of Language:

Linguistic Human Rights Tove Skutnabb-Kangas, Robert Phillipson, 2010-12-16 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language **Encyclopedia of Language and Education** Ruth Wodak, David Corson, 1997 Made up of eight volumes the Encyclopedia of Language and Education is the first attempt at providing an overview of the subject

Linguistic Genocide in Education--or Worldwide Diversity and Human Rights? Tove Skutnabb-Kangas, 2013-05-13 In this powerful multidisciplinary book Tove Skutnabb Kangas shows how most indigenous and minority education contributes to linguistic genocide according to United Nations definitions Theory is combined with a wealth of factual encyclopedic information and with many examples and vignettes The examples come from all parts of the world and try to avoid Eurocentrism Oriented toward theory and practice facts and evaluations and reflection and action the book prompts readers to find information about the world and their local contexts to reflect and to act A Web site with additional resource materials to this book can be found at <http://www.ruc.dk/tovesk> *Sociolinguistics / Soziolinguistik. Volume 3* Ulrich Ammon, Norbert Dittmar, Klaus J. Mattheier, Peter Trudgill, 2008-07-14 No detailed description available for SOCIOLINGUISTICS AMMON 3 TLBD HSK 3 3 2A E BOOK Language Policy and Language Issues in the Successor States of the Former USSR Sue Wright, 2000 This book looks at the question of language rights the rights of minorities to remain monolingual if they so wish and the rights of governments to promote the language of the majority as the language of the state The central question is once again the thorny problem of whether linguistic rights are fundamental human rights and therefore inalienable and individual or whether they are group rights since communication necessarily involves more than one individual The context of this discussion is the situation of the Russian speakers in Latvia and Kyrgyzstan

Language Policy and Linguistic Justice Michele Gazzola, Torsten Templin, Bengt-Arne Wickström, 2018-09-03 Language policies are increasingly acknowledged as being a necessary component of many decisions taken in the areas of the labor market education minority languages mobility and social inclusion of migrants They can affect the democratic control of political organizations and they can either entrench or reduce inequalities These are the central topics of this book Economists philosophers political scientists and sociolinguists discuss from an interdisciplinary perspective the distributive socio economic effects of language policies their impact on justice and inequality at the national or international level as well as the connection between language choices and an inclusive access to public services The range of social and economic

issues raised by linguistic diversity in contemporary societies is large and this requires new approaches to tackle them This book provides new input to design better more efficient and fair language policies in order to manage linguistic diversity in different areas Topics covered include theoretical models of linguistic justice and linguistic disadvantage the assessment of the socio economic consequences of language policies the evaluation of the costs benefits and degree of inclusion of language planning measures the politics of migrants linguistic integration as well as multilingualism and economic activities These topics are discussed in different contexts including the areas inhabited by linguistic minorities cities receiving migrants and supranational organizations

Transcending Monolingualism: Linguistic Revitalization in Education A. Camilleri, L. Huss, K. King, 2014-06-17 This volume describes a wide range of educational situations where linguistic revitalization is currently taking place

Opportunities and Challenges of Bilingualism Li Wei, Jean-Marc Dewaele, Alex Housen, 2011-09-12 This volume contributes to the debates about the social aspects of bilingualism focusing on the various opportunities and challenges bilingualism presents to today's society The contributions in this volume are of a prospective stance delineating directions for future research on bilingualism and or identifying important issues which have been under researched or which are still of a controversial nature All the contributions are from leading international scholars who have researched and published extensively in the field of bilingualism To facilitate further discussions of the issues raised in the volume there are study questions and suggested reading attached to each of the main chapters

The Politics of English as a World Language Christian Mair, 2003 The complex politics of English as a world language provides the backdrop both for linguistic studies of varieties of English around the world and for postcolonial literary criticism The present volume offers contributions from linguists and literary scholars that explore this common ground in a spirit of open interdisciplinary dialogue Leading authorities assess the state of the art to suggest directions for further research with substantial case studies ranging over a wide variety of topics from the legitimacy of language norms of lingua franca communication to the recognition of newer post colonial varieties of English in the online OED Four regional sections treat the Caribbean including the diaspora Africa the Indian subcontinent and Australasia and the Pacific Rim Each section maintains a careful balance between linguistics and literature and external and indigenous perspectives on issues The book is the most balanced complete and up to date treatment of the topic to date

Social Justice Through Multilingual Education Tove Skutnabb-Kangas, 2009 Although the principles for enabling children to become fully proficient multilinguals through schooling are well known most Indigenous and minority children are not provided with multilingual education which would enable them to succeed both in school and in society In this important book experts from around the world show how multilingual education can be provided and what it can achieve

Cultural Rights in International Law Elsa Stamatopoulou, 2007 Drawing from a comprehensive review of legal instruments practice jurisprudence and literature and using a multidisciplinary approach this unique book brings forth the full spectrum of cultural rights as individual and

collective human rights and offers a compelling vision for public policy Introduction to Applied Linguistics Alan Davies, 2007-07-12 This second edition of the foundational textbook *An Introduction to Applied Linguistics* provides a state of the art account of contemporary applied linguistics The kinds of language problems of interest to applied linguists are discussed and a distinction drawn between the different research approach taken by theoretical linguists and by applied linguists to what seem to be the same problems Professor Davies describes a variety of projects which illustrate the interests of the field and highlight the marriage it offers between practical experience and theoretical understanding The increasing emphasis of applied linguistics on ethicality is linked to the growth of professionalism and to the concern for accountability manifested in the widening emphasis on critical stances This Davies argues is at its most acute in the tension between giving advice as the outcome of research and taking political action in order to change a situation which it is claimed needs ameliorisation This dilemma is not confined to applied linguistics and may now be endemic in the applied disciplines **The Sociopolitics of English Language Teaching** Joan Kelly Hall, William Eggington, 2000-01-01 The sociopolitical dimensions of English language teaching are central to the English language professional These dimensions include language policies cultural expectations and the societal roles of languages This book aims to present these issues to practicing and aspiring teachers in order to raise awareness of the sociopolitical nature of English language teaching Who's Afraid of Multilingual Education? Amir Kalan, 2016-08-18 More than 70 languages are spoken in contemporary Iran yet all governmental correspondence and educational textbooks must be written in Farsi To date the Iranian mother tongue debate has remained far from the international scholarly exchanges of ideas about multilingual education This book bridges that gap using interviews with four prominent academic experts in linguistic human rights mother tongue education and bilingual and multilingual education The author examines the arguments for rejecting multilingual education in Iran and the four interviewees counter those arguments with evidence that mother tongue based education has resulted in positive outcomes for the speakers of non dominant language groups and the country itself It is hoped that this book will engage an international audience with the debate in Iran and show how multilingual education could benefit the country **Human Rights** Albert A. Zinnos, 2007 Human rights refers to the concept of human beings as having universal rights or status regardless of legal jurisdiction and likewise other localising factors such as ethnicity and nationality For many the concept of human rights is based in religious principles However because a formal concept of human rights has not been universally accepted the term has some degree of variance between its use in different local jurisdictions difference in both meaningful substance as well as in protocols for and styles of application Ultimately the most general meaning of the term is one which can only apply universally and hence the term human rights is often itself an appeal to such transcended principles without basing such on existing legal concepts The term humanism refers to the developing doctrine of such universally applicable values and it is on the basic concept that human beings have innate rights that more specific local legal concepts are often

based Within particular societies human rights refers to standards of behaviour as accepted within their respective legal systems regarding 1 the well being of individuals 2 the freedom and autonomy of individuals and 3 the representation of the human interest in government These rights commonly include the right to life the right to an adequate standard of living the prohibition of genocide freedom from torture and other mistreatment freedom of expression freedom of movement the right to self determination the right to education and the right to participation in cultural and political life These norms are based on the legal and political traditions of United Nations member states and are incorporated into international human rights instruments This new book brings together the latest book literature centred on this crucial topic **Theories and**

Methods Peter Auer,Jürgen Erich Schmidt,2009-12-22 The dimensions of time and space fundamentally cause and shape the variability of all human language To reduce investigation of this insight to manageable proportions researchers have traditionally concentrated on the deepest dialects But it is increasingly apparent that although most people still speak with a distinct regional coloring the new mobility of speakers in recently industrialized and postindustrial societies and the efflorescence of communication technologies cannot be ignored This has given rise to a reconsideration of the relationship between geographical place and cultural space and the fundamental link between language and a spatially bounded territory Language and Space An International Handbook of Linguistic Variation seeks to take full account of these developments in a comprehensive theoretically rich way The introductory volume examines the concept of space and linguistic approaches to it the structure and dynamics of language spaces and relevant research methods A second volume offers the first thorough exploration of the interplay between linguistic investigation and cartography and subsequent volumes uniformly document the state of research into the spatial dimension of particular language groupings Key features comprehensive coverage of the field in terms of theory and methods the unique volume stands alone since it neither is a handbook of dialectology or of areal linguistics nor a handbook on language variation alone gathers together a great number of distinguished scholars and experts in the field **Language Rights Revisited - The Challenge of Global Migration and Communication** Dagmar

Richter,Ingo Richter,R. Toivanen,I. Ulasiuk,2012-01-01 Hauptbeschreibung Linguistic autonomy assured internationally to ethnic minorities has succeeded above all in Europe yet is nowhere near passing its acid test in other parts of the world Examples show that it is not only a question of linguistic autonomy but of ethnic and religious conflicts which are simmering in the foreground Hence there are reasons for doubting whether international agreements designed to guarantee linguistic autonomy can solve these conflicts The protection of indigenous languages is justified largely by the principle of diversity and is de The Oxford Handbook of Sociolinguistics Robert Bayley,Richard Cameron,Ceil Lucas,2013-02-21 This major new survey of sociolinguistics identifies gaps in our existing knowledge base and provides directions for future research

International Journal of the Sociology of Language ,1996 Regional Nationalism in Spain Jaine Beswick,2007 This book is about linguistic diversity and language revitalisation in Galicia one of the autochthonous regions of Spain By

means of historical linguistic and sociolinguistic perspectives it examines societal language use and institutional support in order to determine the role of the Galician language and loyalty and prestige factors in expressions of Galician ethnic identity

Linguistic Human Rights Overcoming Linguistic Discrimination Contributions To Sociology Of Language Book

Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Linguistic Human Rights Overcoming Linguistic Discrimination Contributions To Sociology Of Language**, a literary masterpiece that delves deep into the significance of words and their effect on our lives. Compiled by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
