Scents that matter - from olfactory stimuli to genes, behaviors and beyond Markus Fendt,Yasushi Kiyokawa,Thomas Endres,2016-06-19 Scents can carry a lot of important information about the environment conspecifics and other species While some of these scents are positively related as the odor of food mating partners or familiar conspecifics other scents are associated with negative situations and events e g the occurrence of a predator an aggressive territorial conspecific or spoiled food The present research topic is focused on such scents that matter i e scents that are crucial for the survival of an organism Since many years the importance of scents always attracts scientists to investigate how scents affect the behavior of mammals via which mechanisms scents are perceived and how scents modulate neural circuitries responsible for behavior We believe that this research topic gives a nice overview on current olfactory research Many of the contributions are focused on scents with aversive effects i e kairomones or pheromones that warn about potential threats These studies range from research articles identifying new active odor components of predator odors describing the induced behavioral changes and the underlying neuroanatomical and neurochemical mechanisms to review articles summarizing the findings of the last decades on this field Other articles are focused on the effects of scents in social behaviors or on associative learning This

research topic also represents nicely the current combination of methodological approaches in olfactory research cell biologists geneticists behavioral pharmacologists neuroanatomists and computational modelers work effectively together to unravel the mechanisms of how scents matters in humans and animals      *Project Self-Esteem* Wendy Cullum,2014-05-01

Shyness bullying and depression can be a sad part of every child's school experience Each of these problems can be traced back to a single source a lack of self esteem In my many years of working with children I have found that the key to helping our kids succeed in life is building up their self esteem at an early age In this book are valuable life lessons that have been tried and tested for more than fifteen years by myself and other parents and teachers in their homes and classrooms The subjects that are taught range from courage to forgiveness The lessons are fun and uplifting and have profound effects on children and their self esteem When children feel they have value they are happier and do better in school and in life I taught the lesson for PSE on Joy Thank you so much for such a great lesson I went to teach it to the kids at their level and left the classroom so encouraged and full of joy because I couldn't help but to understand the topic The kids enjoyed all the activities and we had such a fun time Again thank you so much for all the work you do to put this program together It doesn't just impact the children it was an amazing and timely reminder for me today Cristina Sands stay at home mom PSE is a wonderful program at our school The valuable lessons and discussion points are age appropriate and engaging We appreciate how they are grade specific Our students teachers and volunteers look forward to the activities and relatable topics each month Marlo Guerra PTA member and grounds supervisor      *Illustrative Units of Reading Activity for All Grades Or Growth Stages with Pertinent Problems and Reference Readings* Laura Zirbes,1924
