of feeling The author's point is to have the reader learn the proper method of mastering the spirit and to have the spirit pervade the reader's body so that he will be able to grasp the basic meaning of ki In part two of the book the author gives detailed and concrete examples of how to apply the principles of ki to our daily lives The author wishes that not only those who are in positions of leadership but also those who have physical or spiritual problems or who do not fully realize their own abilities and strength will learn the full meaning of ki He also wishes that those who have learned the principles of ki will instill them in their hearts and help those around them walk a brighter and happier path **Orion Shirow**
