The NGO Challenge for International Relations Theory William E. DeMars, Dennis Dijkzeul, 2015-02-11 It has become commonplace to observe the growing pervasiveness and impact of Non Governmental Organizations NGOs And yet the three central approaches in International Relations IR theory Liberalism Realism and Constructivism overlook or ignore the importance of NGOs both theoretically and politically Offering a timely reappraisal of NGOs and a parallel reappraisal of theory in IR the academic discipline entrusted with revealing and explaining world politics this book uses practice theory global governance and new institutionalism to theorize NGO accountability and analyze the history of NGOs This study uses evidence from empirical data from Europe Africa Latin America the Middle East and Asia and from studies that range across the issue areas of peacebuilding ethnic reconciliation and labor rights to show IR theory has often prejudged and misread the agency of NGOs Drawing together a group of leading international relations theorists this book explores the frontiers of new research on the role of such forces in world politics and is required reading for students NGO activists and policy makers

[How Human Rights Can Build Haiti](#) Fran Quigley, 2021-04-30 A cataclysmic earthquake revolution corruption and neglect have all conspired to strangle the growth of a legitimate legal system in Haiti But as *How Human Rights Can Build Haiti* demonstrates the story of lawyers activists on the ground should give us all hope They organize demonstrations at the street level argue court cases at the international level and conduct social media and lobbying campaigns across the globe They are making historic claims and achieving real success as they tackle Haiti's cholera epidemic post earthquake housing and rape crises and the Jean Claude Duvalier prosecution among other human rights emergencies in Haiti The only way to transform Haiti's dismal human rights legacy is through a bottom up social movement supported by local and international challenges to the status quo That recipe for reform mirrors the strategy followed by Mario Joseph Brian Concannon and their clients and colleagues profiled in this

book Together Joseph Concannon and their allies represent Haiti's best hope to escape the cycle of disaster corruption and violence that has characterized the country's two hundred year history At the same time their efforts are creating a template for a new and more effective human rights focused strategy to turn around failed states and end global poverty **Killing with Kindness** Mark Schuller, 2012-09-24 Set in Haiti following the 2004 coup and enhanced by research carried out after the 2010 earthquake Killing with Kindness analyzes the impact of official development aid on recipient non governmental organizations NGOs and their relationships with local communities It offers rich ethnographic comparisons of two Haitian women's NGOs working in HIV AIDS prevention and examines participation and autonomy as well as donor policies that inhibit these goals **Cultures of Doing Good** Amanda Lashaw, Christian Vannier, Steven Sampson, 2017-12-05 Anthropological field studies of nongovernmental organizations NGOs in their unique cultural and political contexts Cultures of Doing Good Anthropologists and NGOs serves as a foundational text to advance a growing subfield of social science inquiry the anthropology of nongovernmental organizations NGOs Thorough introductory chapters provide a short history of NGO anthropology address how the study of NGOs contributes to anthropology more broadly and examine ways that anthropological studies of NGOs expand research agendas spawned by other disciplines In addition the theoretical concepts and debates that have anchored the analysis of NGOs since they entered scholarly discourse after World War II are explained The wide ranging volume is organized into thematic parts Changing Landscapes of Power Doing Good Work and Methodological Challenges of NGO Anthropology Each part is introduced by an original reflective essay that contextualizes and links the themes of each chapter to broader bodies of research and to theoretical and methodological debates A concluding chapter synthesizes how current lines of inquiry consolidate and advance the first generation of anthropological NGO studies highlighting new and promising directions in this field In contrast to studies about surveys of NGOs that cover a single issue or region this book offers a survey of NGO dynamics in varied cultural and political settings The chapters herein cover NGO life in Tanzania Serbia the Czech Republic Egypt Peru the United States and India The diverse institutional worlds and networks include feminist activism international aid donors USAID democracy experts Romani housing activism academic gender studies volunteer tourism Jewish philanthropy Islamic faith based development child welfare women's legal arbitration and environmental conservation The collection explores issues such as normative democratic civic engagement elitism and professionalization the governance of feminist advocacy disciplining religion the politics of philanthropic neutrality NGO tourism and consumption blurred boundaries between anthropologists as researchers and activists and barriers to producing critical NGO ethnographies **OECD Public Governance Reviews: Haiti Strengthening Public Administration for Resilient and Sustainable Governance** OECD, 2021-12-14 The government of Haiti is undertaking public governance reforms to support sustainable growth and inclusive socio economic development This Review analyses areas such as whole of government co ordination the links between budgeting and planning and the decentralisation process

Good Intentions in Global Health Nicole S. Berry, 2024-04-09 *Good Intentions in Global Health* is an engaging ethnography of the world of DIY global health. It argues that the intent to do good shapes people's everyday understandings of their own actions taken in the global health domain. Berry opens new ways for critical scholarship to impact global health and health equity.

Global Latin(o) Americanos Mark Overmyer-Velázquez, Enrique Sepúlveda, 2018 *Global Latin o Americanos* addresses and reframes a central issue of our time: the challenge of incorporating immigrants into Western societies and economies, which too often frame immigrants as the problem. How Latino immigrants respond and exercise agency under familiar and unfamiliar global conditions is of critical importance on several fronts, including the health of democratic societies and the diverse expressions of citizenship across the Latino diaspora. Building on the scholarship of new migratory destinations of people from Latin America and the Caribbean, *Global Latin o Americanos* moves toward studies of diasporic citizenship, this shift not only de-centers U.S. dominant interpretations but also places less emphasis on the nation-state and its economic systems as units of analysis. The book includes work by leading scholars of migration in Latin America, Asia, Europe, and the United States. It examines a wide range of intraregional and transoceanic migratory flows and addresses critical themes from several disciplinary perspectives.

Gender, Power, and Non-Governance Andria D. Timmer, Elizabeth Wirtz, 2022-05-13 Using Sherry Ortner's analogy of Female Nature/Male Culture, this volume interrogates the gendered aspects of governance by exploring the NGO-State relationship. By examining how NGOs/States perform gendered roles and actions and the gendered divisions of labor involved in different types of institutional engagement, this volume attends to the ways in which gender and governance constitute flexible relational and contingent systems of power. The chapters in this volume present diverse analyses of the ways in which projects of governance both reproduce and challenge binaries.

Tectonic Shifts Mark Schuller, Pablo Morales, 2012 The 7.0 magnitude earthquake that hit Haiti's capital on January 12, 2010, will be remembered as one of the world's deadliest disasters. The earthquake was a tragedy that gripped the nation and the world. But as a disaster, it also magnified the social ills that have beset this island nation that sits squarely in the United States' diplomatic and geopolitical shadow. The quake exposed centuries of underdevelopment, misguided economic policies, and foreign aid interventions that have contributed to rampant inequality and social exclusion in Haiti. *Tectonic Shifts* offers a diverse on-the-ground set of perspectives about Haiti's cataclysmic earthquake and the aftermath that left more than 1.5 million individuals homeless. Following a critical analysis of Haiti's heightened vulnerability as a result of centuries of foreign policy and most recently neoliberal economic policies, this book addresses a range of contemporary realities, foreign impositions, and political changes that occurred during the relief and reconstruction periods. Analysis of these realities offers tools for engaged, principled reflection and action. Essays by scholars, journalists, activists, and Haitians still on the island and those in the Diaspora highlight the many struggles that the Haitian people face today, providing lessons not only for those impacted and

involved in relief but for people engaged in struggles for justice and transformation in other parts of the world The Routledge Handbook of Poverty in the Global South Rajendra Baikady, John Gal, Varoshini Nadesan, Sajid S.M., Gao Jianguo, 2023-12-01 This handbook initiates fresh debates on poverty and its impact in a constantly changing Global South society It studies the concept theories and causes of poverty as well as the design and delivery of social welfare policies related to specific groups such as women children and the elderly The chapters are theoretical evidence based and empirical in nature and bring together a holistic understanding of social problems and issues in developing countries The volume brings together researchers educators and practitioners from across the globe to develop a hands on reference work that will be requisite for several social science disciplines concerned with poverty and the welfare of poor people The first of its kind the handbook will be indispensable for scholars and researchers of development studies economics social work political studies poverty studies population and demographic studies sociology social anthropology public policy and political economy especially those concerned with the Global South The Business of Transition Melissa Crouch, 2017-10-26 A timely reflection on law development and economics through empirical and comparative perspectives on the case of Myanmar

consequences rupturing Haitian social and cultural institutions and actually increasing violence especially against women. The book shows how Haitian people were removed from any real decision making replaced by a top down NGO dominated system of humanitarian aid led by an army of often young inexperienced foreign workers. Ignorant of Haitian culture these aid workers unwittingly enacted policies that triggered a range of negative results. Haitian interviewees also note that the NGOs planted the flag and often tended to just do something always with an eye to the photo op in no small part due to the competition over funding. Worse yet they blindly supported the eviction of displaced people from the camps forcing earthquake victims to relocate in vast shantytowns that were hotbeds of violence. Humanitarian Aftershocks in Haiti concludes with suggestions to help improve humanitarian aid in the future perhaps most notably that aid workers listen to and respect the culture of the victims of catastrophe.
