point of view at Early Childhood Science Education The book examines and discusses the nature of Precursor Models and their use for early science teaching and learning It scrutinizes different aspects of the construction of such models applied in early childhood education settings and contexts Several empirical studies are presented within diverse scientific domains as well as in international educational contexts By providing a variety of examples of precursor models it makes this book a great companion for teachers aiming to teach children to understand and reason about topics such as floating and sinking shadow formation water state changes air clouds and rain electricity inheritance and selection as well as variation within populations Finally this volume supports the development of science education from an early age by using the original framework of a precursor model to mediate teaching and learning science at school during early childhood *Investigating the Water Cycle* Candice Ransom, 2015-10-01 Water is essential to life on our planet Water is constantly moving between Earth's surface the air and the ground But did you know that water cannot be created or destroyed Or that water is not only a liquid but also a solid and a gas See the water cycle in action in this fascinating book

**Environmental Awareness in Preschool Children's Drawings** Mohamed Mlile, Mohammed Larouz, Diego Luis Forte, Huda Fadhil Halawachy, Handoko Handoko, Clara D.S. Vande-Guma, 2024-05-28 This edited volume investigates multiple perspectives of environmental meaning making among children by evaluating preschool children's drawings on the environment It critically traces the formation of early attitudes towards the environment before children's exposure to formal environmental education Similarities and differences are explored among preschool children's drawings across diverse cultural and geographic backgrounds Over five sections covering Morocco Indonesia Nigeria Iraq and Argentina each one examines the factors affecting children's environmental drawings such as age gender and geography Using different theoretical frameworks the chapters are written by researchers of environmental discourse and ecolinguistics with a background knowledge in environmental studies from a social science perspective This book is of interest to researchers interested in ecolinguistics and socio semiotics fields of study This seminal book also paves the way for further research on preschool environmental education

**Keepers of the Earth** Michael J. Caduto, Joseph Bruchac, 1997 The flagship book in the Keepers of the Earth series is an environmental classic for teaching children to respect the Earth

Environment and Children Christopher Day, Anita Midbjer, 2007 How does the built environment affect children their health their behaviour education and development To support them what do we need to consider and what do we need to do Can our surroundings foster environmental and social awareness and responsibility Based on Christopher Day's experiences designing schools and early childhood centres in the United States and Britain this groundbreaking book sets out to answer these questions and to offer solutions Children all too often find themselves living in alien surroundings designed with the needs of adults in mind cut off not just from the natural environment but also childhood itself Society's reaction to cocoon children from the outside world or to resort to drugs to control behaviour fails to address the fundamental causes of problems which lie in the environment

not the children themselves One of the world s leading thinkers on the impact of buildings on people Christopher Day s insights offer new light on one of the most important issues for today s society      **Educating English Learners** Joyce W. Nutta,Carine Strebel,Kouider Mokhtari,Florin M. Mihai,Edwidge Crevecoeur Bryant,2020-07-29 In *Educating English Learners* Joyce W Nutta and her colleagues offer practical tools for helping schools and teachers successfully integrate English learners into mainstream classrooms Drawing on the One Plus model presented in their award winning book *Preparing Every Teacher to Reach English Learners* the authors now turn their attention to the needs of K 12 teachers who typically have two or three English learners in their classrooms English learners are not a homogenous group and the challenges they face vary tremendously Nutta and her colleagues present protocols and case studies to help pre service and in service teachers understand the needs of English learners in their classrooms and differentiate instruction and assessment accordingly Woven throughout the book are the stories of Gero Edith Tasir and Edgar four case study students of different ages backgrounds and levels of English proficiency The authors show how the protocols they provide can be applied to adapt sample lessons for students like these across a range of grade levels subject areas and pedagogical approaches Finally the authors show how the system can be applied school wide for a collaborative approach to meeting English learners needs
