The Aid Effect David Mosse,David Lewis,2005-10-20 Today international development policy is converging around ideas of neoliberal reform democratisation and poverty reduction What does this mean for the local and international dimensions of aid relationships The Aid Effect demonstrates the fruitfulness of an ethnographic approach to aid policy reform and global governance The contributors provide powerful commentary on hidden processes multiple perspectives or regional interests behind official aid policy discourses The book raises important questions concerning the systematic social effects of aid relationships the nature of sovereignty and the state and the working of power inequalities built through the standardisations of a neoliberal framework The contributors take on new challenges to anthropology presented by a global aid architecture which no longer operates through discrete projects but has moved on to sector wide approaches budgetary support and other macro level instruments of development but they remain faithful to the fieldwork methodology that is anthropology s strength and the source of rare insight

The Corporation

That Changed the World Nick Robins,2012-10-05 This is the history of the East India Company and its enduring legacy as a corporation dealing in exploitation and violence The English East India Company was the mother of the modern multinational

Its trading empire encircled the globe importing Asian luxuries such as spices textiles and teas But it also conquered much of India with its private army and broke open China s markets with opium The Company s practices shocked its contemporaries and still reverberate today This expanded edition explores how the four forces of scale technology finance and regulation drove its spectacular rise and fall This story provides vital lessons on both the role of corporations in world history and the steps required to make global business accountable today

Inventing Africa Robin Derricourt,2011-03-04 Inventing Africa is a critical account of narratives which have selectively interpreted and misinterpreted the continent s deep past Writers have created alluring images of lost cities vast prehistoric migrations and golden ages of past civilisations Debates continue on the African origins of humankind the contributions of ancient Egypt to the world and Africa s importance to global history Images of Africa simplifying a complex and diverse continent have existed from ancient Mediterranean worlds slave trading nations and colonial powers to today s political elites ecotourists and aid givers Robin Derricourt draws on his background as publisher and practitioner in archaeology and history to explore the limits and the dangers of simplifications arguing as with Said s concept of Orientalism that ambitious ideas can delude or oppress as well as inform Defending Africa against some of the grand narratives that have been imposed upon its peoples Inventing Africa will spark new debates in the history of Africa and of archaeology

Ireland's Economic History Gerard McCann,2011-09-12 This book explores the complex developments that have shaped Ireland s economic development north and south and led to recurring crises and instability The Irish economy has been traditionally portrayed as a product of its political divisions and the colonial legacy divided and analysed in terms of the hegemonic tensions that exist on the island Influenced by these divisions academics have tended to look at a two region approach to economic development without adequately acknowledging the interactive nature of the island economy as a source of the crises or as a solution to systemic divergence McCann s definitive and dynamic history of the Irish economy circumvents conventional analyses and investigates the economic development of the island economy as a whole highlighting where aggressive differentiation has been divisive and destabilising He concludes by considering an alternative integrated and cohesive process of economic development

Crucible of Resistance Christos Laskos,Euclid Tsakalotos,2013-09-05 Syriza s victory in the recent Greek general election shook the foundations of the Western political establishment and gave hope to the millions suffering the austerity measures imposed by the European Troika Millions asked how did this happen and what is it about Greece that created such a centre of radicalism This insider s account from Syriza s Finance Minister Euclid Tsakalotos and economist Christos Laskos shows that that the narrative of Greek exceptionalism is a myth The blame game that has been played by the EU powers is an ideological tool used to shift attention from the disillusionment and anger at the European and global capitalist economic order By alienating an entire nation of people the Troika has revealed the internal contradictions of the modern neoliberal establishment as well as the inadequacies of the earlier social democratic Keynesian regime Tsakalotos and Laskos suggest that there is very little that

differentiates Greece from other countries struggling under austerity and that parties such as Syriza could usher in a new democratic and socialist era across the continent

Pierre Bourdieu Jeremy F. Lane, 2000-07-20 This beautifully written and lucidly argued study is the most persuasive account of Bourdieu's work yet to be published Lane illuminates much that can puzzle a foreign readership by expertly situating Bourdieu within a French context At the same time he points to those aspects of Bourdieu's writing which are of particular relevance to contemporary debates on questions of citizenship and globalisation He gives a fascinating account of Bourdieu's astonishingly prescient analyses of the impact of the expansion of higher education the influence of the mass media the growth of the culture industries and the changing nature of political and social elites not just in France but in the western world Professor Jill Forbes Queen Mary and Westfield University of London

New Directions in Economic Anthropology Susana Narotzky, 1997-04-20 Using an historical perspective Narotzky highlights the interdependent nature of the contemporary world economy and includes case studies of Western societies She gives special emphasis to current issues such as the anthropology of work the informal economy and the cultures of industrialisation

North Korea on the Brink James Glyn Ford, Soyoung Kwon, 2007-11-20 North Korea's development and testing of nuclear weapons made headlines in the Western media but is the country really a threat to the rest of the world This accessible introduction examines the country's history and focuses on whether the threat is realistic or exaggerated by the US in order to gain international support for the controversial missile defence system It also shows what the EU can do to engage with North Korea and counterbalance the US policy of isolationism North Korea is struggling to survive in the face of US threats of pre-emptive action and regime change by developing its own Weapons of Mass Destruction For the EU the challenge is to resolve this stand-off providing North Korea with sufficient security guarantees to enable them to give up their nuclear weapons and enough assistance to enable the economic and social reforms that the country so desperately needs

Understanding Al Qaeda Mohammad-Mahmoud Ould Mohamedou, 2011-06-03 This book controversially argues that Al Qaeda has clear aims and that the only way to defeat it is to engage with its arguments in a serious way Since the publication of the first edition in 2006 Mohamedou has brought the text right up to date Starting with Al Qaeda's creation almost twenty years ago and sketching its global mutation Mohamedou explains that there is a cogent strategy to Al Qaeda's actions He shows that the war on terror is failing only serving to recruit more terrorists to Al Qaeda's cause He also puts forward a case for how the international community can best respond Arguing that it is dangerous to dismiss Al Qaeda as illogical and irrational this incisive and original book is important for policy makers and ideal for undergraduates in international relations Middle East studies and peace conflict studies
