Kingdom Ministry 2014:

European-Russian Power Relations in Turbulent Times Mai'a Cross,Ireneusz Pawel Karolewski,2021-04-13 The Russia Europe relationship is deteriorating signaling the darkest era yet in security on the continent since the end of the Cold War In addition the growing influence of the Trump administration has destabilized the transatlantic security community compelling Europe especially the European Union to rethink its relations with Russia The volume editors primary goal is to illuminate the nature of the deteriorating security relationship between Europe and Russia and the key implications for its future While the book is timely the editors and contributors also draw out long term lessons from this era of diplomatic degeneration to show how increasing cooperation between two regions can devolve into rapidly escalating conflict While it is possible that the relationship between Russia and Europe can ultimately be restored it is also necessary to understand why it was undermined in the first place The fact that these transformations occur under the backdrop of an uncertain transatlantic relationship makes this investigation all the more pressing Each chapter in this volume addresses three dimensions of the problem first how and why the power status quo that had existed since the end of the Cold War has changed in recent years as evidenced by Russia s newly aggressive posturing second the extent to which the EU s power has been enabled or constrained in light of Russia s actions and third the risks entailed in Europe s reactive power that is the tendency to act after the fact instead of proactively toward Russia in light of the transatlantic divide under Trump Minerals Yearbook Mines Bureau,Geological Survey,Interior Department,2018-04-19 The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation It includes the British Isles Iceland and Greenland a self governing part of the Kingdom of Denmark Included are mineral commodity outlook tables plus global overview research for particularly commodities within a specific regions countries are presented throughout the text Manufacturers of these metals and commodities along with trade brokers that may specialize in imports and exports political scientists and economists may also be interested in this volume Students pursuing research on specific metals and mineral commodities for world economy courses may be interested in this volume **Military Veteran Reintegration** Carl Castro,Sanela Dursun,2019-08-21 Military Veteran Reintegration Approach Management and Assessment of Military Veterans Transitioning to Civilian Life offers a toolkit for researchers and practitioners on best practices for easing the reintegration of military veterans returning to civilian society It lays out how transition occurs identifies factors that promote or impede transition and operationalizes outcomes associated with transition success Bringing together experts from around the world to address the most important aspects of military transition the book looks at what has been shown to work and what has not while also offering a roadmap for best results moving forward Contains evidence based interventions for military veteran to civilian transition Features international experts from North America Europe and Asia Includes how to measure transition outcomes Outlines recovery programs for the injured and sick Identifies factors that

promote or impede successful transition *Education System in Saudi Arabia* Md. Muddassir Quamar, 2020-12-17 This book is a comprehensive study on the education system of Saudi Arabia placing the reforms and changes it has undergone in the past two decades within the context of the historical evolution of the education system An education system cannot be seen in isolation of the society it plays a significant role in shaping the individual state and the society that in turn have a bearing on the education system and its evolution Therefore this book locates Saudi education in the backdrop of the changes in the society how they have facilitated or hindered the education reforms and how the education reforms have impacted the society The book does not ignore the immediate trigger for the beginning of a comprehensive reforms process but goes beyond it to find much deeper socio political and economic rationales that paved the way for the reforms It provides a nuanced understanding of the interplays of various socioeconomic as well as political factors that have shaped the education system in Saudi Arabia Military Medical Ethics in Contemporary Armed Conflict Michael L. Gross, 2021-05-21 Integrating the ethics of medicine and the ethics of war *Military Medical Ethics in Contemporary Armed Conflict* offers theorists and practitioners clinicians and commanders the tools they need to distribute scarce medical resources in wartime Emphasizing that military medicine's goal is to maintain unit readiness and the force capabilities necessary to wage just war Michael L. Gross instructs readers on when and how compatriot and host nation war fighters local civilians detainees and veterans should receive medical attention Readers will see how medicine functions also as a weapon of war To this end military forces deploy medical care to win local hearts and minds and harness medical science to enhance war fighter capabilities

Zealand Canadian Native American cultures Kiribati the United States and Scotland amongst others by practitioners working on projects that can be integrated into a Rights of Nature framework The authors also tackle required changes to shift the paradigm such as thinking of Nature in a sacred manner reorienting Nature s rights and human rights the conceptualization of restoration and the removal of large scale energy infrastructure Curated by experts in the field this expansive collection of papers will prove invaluable to a wide array of policymakers and administrators environmental advocates and conservation groups tribal land managers and communities seeking to create or maintain a sustainable relationship with Nature Features Addresses existing projects that are successfully implementing a Rights of Nature legal framework including the difference it makes in practice Presents the voices of practitioners not often recognized who are working in innovative ways towards sustainability and the need to grant a voice to Nature in human decision making Explores new ideas from the insights of a diverse range of cultures on how to grant legal personhood to Nature restrain damaging human activity create true sustainability and glimpse how a Rights of Nature paradigm can work in different societies Details the potential pitfalls to Rights of Nature governance and land use decisions from people doing the work as well as their solutions Discusses the basic human needs for shelter food and community in entirely new ways in relationship with Nature rather than in conquest of it

Science Education in the Arab Gulf States Nasser Mansour,Saeed Al-Shamrani,2015-04-27 The book introduces the development of science education in the Arab Gulf states and presents a critical analysis of current issues and concerns in educational research in science education The key purpose is to provide some perspectives on the state of science education in Gulf and to share experiences with international scholars about the impact of the innovations and reforms implemented in science education in Arabian Gulf But Science Education in the Arab Gulf States also intends to present new visions and to make suggestions and recommendations about the contribution of science education to prepare students in the knowledge age The volume is organised into three main sections The first section addresses the current practices and challenges in science education in some of the Arab Gulf states This section sheds critically the light on the challenges and problems that hinder or constrain the implementation of innovations in science education The second section analyses the science educational reforms and innovations that are being implemented in the Arabian Gulf This section presents experiences and research with using new approaches to teaching and learning in science classrooms in some of the Arab Gulf states The third section discusses the socio cultural issues that have impacted on shaping and reshaping the science education in the Arabian Gulf This section focuses on exploring the socio cultural factors that influence engagement and non engagement in science education It also explores how socio cultural issues and contexts guide the reform of science education in the Arabian Gulf and presents various examples of how we can respond to cultural issues **Precision and Purpose** Karl P.

Mueller,2015-07-08 A team of U S and international experts assesses the impact of various nations airpower efforts during the 2011 conflict in Libya including NATO allies and non NATO partners and how their experiences offer guidance for future

conflicts In addition to the roles played by the United States Britain and France it examines the efforts of Italy Canada Belgium Denmark the Netherlands Norway Sweden Qatar the UAE and the Libyan rebels *The World in 2050* Harinder S. Kohli, Ramgopal Agarwala, 2017-01-05 The world economy has over the past half century become increasingly intertwined and countries mutually dependent The convergence of emerging market economies EMEs with the advanced richer ones has led to dramatic transformation where the former have sustained growth rates far higher than the latter But more recently given the global economic turbulence since 2007 questions have arisen as to whether the era of rapid convergence is over and whether more EMEs are destined to get mired in the middle income trap This book takes a long term perspective of the economic and social outlook of the world to 2050 focusing on cross cutting intergenerational issues that often get overshadowed by the short term crises and political preoccupations of the day It argues that for a prosperous economic order convergence of large developing economies led by East Asia and India with the developed world is crucial given the former s share in the global GDP Addressing the various aspects of emerging markets such as international trade urbanization food security climate change and governance the book brings out the role of the global economic community toward increasing living standards throughout the world while pressuring our fragile planet A joint effort of a multidisciplinary multicultural team of 26 authors who were born in twelve different countries on five continents this book is an analytically rigorous exploration of the future of the global economy and its societies **Human Rights in Emergencies** Evan J. Criddle, 2016-07-21 This book examines current debates about how international human rights law regulates national authorities and international institutions during emergencies BRICS: building education for the future; priorities for national development and international cooperation Leclercq, François, 2014-09-22 **Handbook of Transitions to Energy and Climate Security** Robert Looney, 2016-11-25 An original contribution to our understanding of a phenomenon that is reshaping the world this title thoroughly discusses the transformation of the energy security policy arena brought on by two dramatic developments the increased potential availability of energy in many parts of the world on the supply side and on the demand side increasing concerns over the harmful effects on the environment brought on by the use of fossil fuels An in depth discussion specifically focuses on what energy security means to different countries and examines which of those countries appear to be managing their energy climate transitions successfully and which are having a more difficult time adapting to the new environment Part 1 introduces the topic covering the main themes and provides an overview of the chapters Part 2 provides a framework for policy evaluation considering the evolving factors affecting energy security and the energy climate policy trilemma Parts 3 to 6 discuss energy transitions in the carbon producing countries Saudi Arabia Canada Iran Russia Mexico in intermediate carbon producing consuming countries China United States UK Brazil Argentina South Africa in carbon consuming countries Germany Japan South Korea Israel India Spain and finally in carbon reduction countries France Denmark Switzerland Part 7 looks at attempts at regional international cooperation Part 8 considers the

prospects for the future examining technological breakthroughs This title builds on the theme of unfolding energy transformations driven by but increasingly constrained by climate environmental considerations It is ideal for researchers and students in the areas of environmental politics and policy climate change and energy and climate security as well as for academics and professionals *Open Data Exposed* Bastiaan van Loenen, Glenn Vancauwenberghe, Joep

Crompvoets, 2018-10-25 The main objectives of this book are to expose key aspects that have a relevance when dealing with open data viewed from different perspectives and to provide appealing examples of how open data is implemented worldwide The concept of open data as we know it today is the result of many different initiatives both of a legislative and non legislative nature and promoted by a wide range of actors Numerous regulatory antecedents to foster the concept of open data and embed it in national and international policy agendas have been undertaken on both sides of the Atlantic as well as at a supranational level The book highlights a number of the efforts made to promote open data in Europe Asia and the United States In addition to new insights practical guidance and multiple disciplinary perspectives on open data the book also addresses the transformation of current developments towards open data which may be referred to as the democratisation of data This book will support open data practitioners as well as open data scholars in their endeavours to promote open data implementation and research Bastiaan van Loenen is associate professor and director of the Knowledge Centre Open Data at the Faculty of Architecture and The Built Environment of Delft University of Technology in the Netherlands as is Glenn Vancauwenberghe who is a post doctoral researcher and Joep Crompvoets is a professor at the Public Governance Institute of the KU Leuven in Belgium **A Citizen's Guide to Crime Trends in South Africa** Anine

Kreigler, Mark Shaw, 2016-06-05 South Africans care a lot about crime We think and worry about it plan and insure against it develop and share theories about it read about it and talk about it a lot But how much do we really know Crime statistics do not belong to the government academics specialists or the press They are ours we experience and report crimes and have a right to access and understand their official record It should not take any particular expertise to get a grasp on what we should make of the figures and graphs that the South African Police Service produces every year A Citizen's Guide to Crime Trends in South Africa provides a basis on which to understand the statistics in a manner that is accessible to everyone Each chapter challenges a set of oft repeated assumptions about how bad crime is where it occurs and who its victims are It also demonstrates how and why crime statistics need to be matched with other forms of research including criminal justice data in order to produce a fuller account of what we are faced with Small Arms Survey 2015 Keith Krause, 2015-07-30

Highlights emerging trends and concerns regarding armed violence and small arms proliferation as well as related policies and programming *WHO Report on the Global Tobacco Epidemic 2015: Raising Taxes on Tobacco* World Health Organization, 2015-07-31 This report the fifth in the series of WHO reports on the global tobacco epidemic presents a country level examination of the epidemic and identifies countries that have applied effective tobacco control measures The number

of people worldwide protected by effective tobacco control measures continues to grow and countries that have adopted these measures at the highest level of achievement can be considered models for action for those countries that have yet to do so The focus of this report is raising taxes on tobacco the R component of MPOWER Time and again increasing taxes on tobacco products to increase retail prices has been proven to be the most effective and efficient of the best buy demand reduction measures to reduce tobacco use And yet it is also the least widely implemented measure Air Power in the Falklands Conflict John Shields,2021-11-24 A Royal Air Force veteran of the Falklands Conflict presents a comprehensive myth busting study of the air campaign In the spring of 1982 Argentina and the UK engaged in tense combat over control of the Falkland Islands The ten weeks of fighting are often portrayed with a decidedly one sided narrative either heroic Argentine pilots relentlessly pressing home their attacks or the Sea Harrier force utterly dominating its Argentine enemies In Air Power in the Falklands Conflict RAF veteran John Shields presents a detailed and even handed analysis of the Falkland Islands air war As an RAF officer John Shields spent two and a half years in the Falklands as an air defense navigator Using recently released primary source material Shields looks at the air campaign at the operational level He develops a considered view of what should have occurred and contrasts it with what actually happened In so doing John Shields has produced a comprehensive account of the air campaign that has demolished many of the enduring myths of this Cold War conflict
