Grossman,2014-04-01 A controversial psychological examination of how soldiers willingness to kill has been encouraged and exploited to the detriment of contemporary civilian society Psychologist and US Army Ranger Dave Grossman writes that the vast majority of soldiers are loath to pull the trigger in battle Unfortunately modern armies using Pavlovian and operant conditioning have developed sophisticated ways of overcoming this instinctive aversion The mental cost for members of the military as witnessed by the increase in post traumatic stress is devastating The sociological cost for the rest of us is even worse Contemporary civilian society particularly the media replicates the army s conditioning techniques and Grossman argues is responsible for the rising rate of murder and violence especially among the young Drawing from interviews personal accounts and academic studies On Killing is an important look at the techniques the military uses to overcome the powerful reluctance to kill of how killing affects the soldier and of the societal implications of escalating violence [Life Culture Versus Death Culture and the Death of Literature](#) Dr. Patrick ODougherty,2020-01-27 If you take the divine out of literature and the spark of the divine out of race you are left with a death of literature and a death of race This work is a tribute to the writings and brilliance of Pope John Paul II **Contemporary European Perspectives on the Ethics of End of Life Care** Nathan Emmerich,Pierre Mallia,Bert Gordijn,Francesca Pistoia,2020-05-12 This book examines the ethics of end of life care focusing on the kinds of decisions that are commonly made in clinical practice Specific attention is paid to the intensification of treatment for terminal symptoms particularly pain relief and the withdrawal and withholding of care particularly life saving or life prolonging medical care The book is structured into three sections The first section contains essays examining end of life care from the perspective of moral theory and theology The second sets out various conceptual terms and distinctions relevant to decision making at the end of life The third section contains chapters that focus on substantive ethical issues This format not only provides for a comprehensive analysis of the ethical issues that arise in the context of end of life care but allows readers to effectively trace the philosophical theological and conceptual underpinnings that inform their specific interests This work will be of interest to scholars working in the area as well as clinicians specialists and healthcare professionals who encounter these issues in the course of their practice **What the Bible Says about Life and Death** David Adams,2013-10-01 The central theme of the Bible is about life specifically the eternal life that is God s gift to all who believe in what he says about himself and who accompany that belief with repentance In this short book we ve pulled together many of the key bible verses that deal with this theme of life Their combined effect is electric especially when seen in contrast to the verses that speak of death This book will be encouraging to born again Christians and challenging to those who are inclined to regard the Bible as little more than a significant ancient document It will also alert non believers to the heart of the Christian gospel **Euthanasia, Abortion, Death Penalty and Religion - The Right to Life and its Limitations** Hans-Georg Ziebertz,Francesco Zaccaria,2018-11-16 This book considers how the termination of life might be accepted in the view of a general obligation to protect life It features more than 10 papers written by scholars from 14

Beyond the Sentence: Life Behind the Death Penalty Pasquale De Marco, 2025-07-09 Beyond the headlines and sanitized stories there lies a hidden world of suffering resilience and injustice Within the confines of death row individuals face a unique form of isolation uncertainty and emotional pain that is often overlooked or ignored In this book we delve into the lives of those who have been condemned to death uncovering the human stories behind the cold statistics We explore the psychological and emotional impact of isolation the physical hardships of living in harsh conditions and the impact on their families and loved ones We examine the complexities of the criminal justice system the legal process that determines life or death and the challenges of seeking clemency or commutation We question the effectiveness of capital punishment as a deterrent and the moral and ethical implications of taking a life in the name of justice We also recognize the impact on victims and their families the need for justice and closure and the challenges of coping with the loss of a loved one We explore the complexities of grief forgiveness and the long road to healing This book is not just about capital punishment it is about the people whose lives have been forever changed by it It is about the families torn apart the communities divided and the psychological scars that may never fully heal It is a call for a more just and humane criminal justice system one that values human life and dignity above all else With powerful storytelling and in depth analysis this book offers a unique perspective on one of the most controversial issues of our time It is essential reading for

anyone seeking a deeper understanding of capital punishment and its impact on individuals families and communities If you like this book write a review *Killing in Self-Defence* Fiona Leverick,2006-12-07 This book is a comprehensive analysis of the criminal defence of self defence from a philosophical legal and human rights perspective The primary focus is on self defence as a defence to homicide as this is the most difficult type of self defensive force to justify Although not always recognised as such self defence is a contentious defence permitting as it does the victim of an attack to preserve her life at the expense of another If one holds that all human life is of equal value explaining why this is permissible poses something of a challenge It is particularly difficult to explain where the aggressor is for reasons of non age or insanity for example not responsible for her actions The first part of the book is devoted to identifying the proper theoretical basis of a claim of self defence It examines the classification of defences and the concepts of justification and excuse in particular and locates self defence within this classification It considers the relationship between self defence and the closely related defences of duress and necessity It then proceeds critically to analyse various philosophical explanations of why self defensive killing is justified before concluding that the most convincing account is one that draws on the right to life with an accompanying theory of forfeiture The book then proceeds to draw upon this analysis to examine various aspects of the law of self defence There is detailed analysis of the way in which on a human rights approach it is appropriate to treat the issues of retreat imminence of harm self generated self defence mistake and proportionality with a particular focus on whether lethal force is ever permissible in protecting property or in preventing rape The analysis draws on material from all of the major common law jurisdictions The book concludes with an examination of the implications that the European Convention on Human Rights might have for the law of self defence especially in the areas of mistaken belief and the degree of force permissible to protect property *Life, Death and Sex in Prison* Jimmie,2005 What is life death and sex all about behind prison walls Do men actually fall in love with other men How prevalent are beatings or death There are three laws to follow in prison free world law and the prison s and prisoner s laws *Captains of the Watch of Life and Death* Mabel Osgood Wright,1927 *The Life and Death of Richard Yea-and-Nay* Maurice Hewlett,1900 A historical novel about King Richard the Lionheart of England
