Killing Mister Watson Peter Matthiessen, 2012-08-22 Drawn from fragments of historical fact Matthiessen's masterpiece brilliantly depicts the fortunes and misfortunes of Edgar J Watson a real life entrepreneur and outlaw who appeared in the lawless Florida Everglades around the turn of the century *Killing Mister Watson*, 1990 *Florida Studies* General Editor, Claudia Slate, 2009-05-05 Florida was the first region of the United States to be discovered explored and after a fashion settled by Euroamericans Its population in the early 21st century is approaching 17 million Within years the number of people living in the state will surpass those living in New York and the Sunshine State will become the most populous area east of the Mississippi The first book in English about Florida was written by Jean Ribault A French adventurer Ribault established a colony of Huguenots near present day Jacksonville He was captured by the very able Spanish commander Pedro Menendez who ordered his French rival and all his minions killed The state's long and colorful past is matched by its equally long and colorful literary production Strangely critical assessment of Florida literature has lagged far behind With this volume the Florida College English Association has formally begun an effort to correct this lamentable oversight Included are papers on every aspect of Florida literature and history by scholars from every part of the state who are employed in every kind of institution of higher learning Of special interest are the studies of Florida literature in the 19th century and in the late 20th and early 21st centuries areas that are generally ignored in national journals The papers on the contributions of African American literary figures such as Zora Hurston and James Weldon Johnson are noteworthy Of particular interest are the suggestions for teaching Florida studies in the classroom which can be adapted for high school as well as college students

*Bone by Bone* Peter Matthiessen, 2000-07-18 Watson's voice is an artistic triumph *Bone by Bone* may well come to be regarded as a classic San Francisco Chronicle Book Review In *Bone by Bone* Peter Matthiessen speaks in the extraordinary voice of the enigmatic and dangerous E J Watson whom we first saw obliquely through the eyes of his early twentieth century Everglades community in *Killing Mister Watson* This astonishing new novel calling to account the violence virulent racism and destruction of the land that fueled the so called American Dream points an accusing finger straight into the burning eyes of Uncle Sam Here is the bloodied child of the Civil War and Reconstruction who dreams of recovering the family plantation He becomes the gifted cane planter nearing success on a wilderness river when he gives in fatally to his accumulating demons Powerfully imagined prodigiously detailed *Bone by Bone* is a literary tour de force as bold and ambitious as Watson himself Like a true tragic figure Watson knows and understands he does not wriggle to save his own skin said The New York Times This is a work of genuine dignity **Imagined Frontiers** Carl Abbott, 2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In *Imagined Frontiers* urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and

occasionally even performance art to explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as Falling Down and The Sopranos By putting The Rockford Files and the cult favorite Firefly in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture

**Making Nature Sacred** John Gatta, 2004-10-14 This book argues that the religious import of American environmental literature has yet to be fully recognized or understood Making Nature Sacred explores how the quest for natural revelation has been pursued through successive phases of American literary and intellectual history Peter Matthiessen and Ecological Imagination Intaek Oh, 2010 Peter Matthiessen and Ecological Imagination offers an ecocritical reading of the Watson Trilogy Killing Mister Watson 1990 Lost Man s River 1997 and Bone By Bone 1999 which draws together themes Matthiessen has been exploring both in his fiction and nonfiction While this study argues that his ecological imagination comes from his unique experience as a novelist naturalist environmentalist social activist and a student of Zen it also illustrates that for Matthiessen economic political social racial psychological epistemological and ecological issues are all inseparably interconnected Set in the Everglades frontier in the formative era of American industrial capitalism Matthiessen s novels are his grand attempt to reexamine the root causes of ecological disaster in the region and the costs to the people and the land that accompanied the conquering of the frontier

**True Nature** Lance Richardson, 2025-10-14 The first biography of Peter Matthiessen the novelist naturalist and Zen roshi whose trailblazing work championed Native American rights and helped usher in the modern environmental movement by award winning writer Lance Richardson A stunning formidable achievement by a brilliant biographer Lance Richardson takes his readers on a wild ride with Peter Matthiessen Kai Bird Pulitzer Prize winning co author of American Prometheus Peter Matthiessen 1927 2014 a towering figure of twentieth century American letters achieved so much during his lifetime in so many different areas that people have struggled to pin him down While ambivalent about his WASP privilege as a teenager he demanded that his name be removed from the New York Social Register he attended Yale and cut his teeth in postwar Paris co founding The Paris Review as he worked undercover for the CIA But then after a rebellious stint as a Long Island fisherman he escaped into a series of wild expeditions floating through the Amazon to recover a prehistorical fossil embedding with a tribe in Netherlands New Guinea

swimming with sharks off the coast of Australia His novels inspired by his travels were unclassifiable meditations about Caymanian turtle hunters and frontier outlaws in the Florida Everglades Meanwhile his nonfiction became legendary nature books like *Wildlife in America* key parts of the canon of emergent environmental writing says Bill McKibben as well as advocacy journalism supporting Cesar Chavez Leonard Peltier and Native American land claims Underlying all Matthiessen's disparate pursuits was the same existential search to find a cure for deep restlessness This search was most profoundly articulated in *The Snow Leopard* his famous account of a 250 mile wildlife survey across the Himalayas In *True Nature* Lance Richardson reconstructs the full scope of a spiritual quest that ultimately led Matthiessen even as he inflicted great pain on his family to the highest ranks of Zen Drawing on rich primary sources and hundreds of interviews Richardson depicts Matthiessen's life with page turning immediacy while also illuminating how the writer's uncanny gifts enabled him to sense connections between ecological decline racism and labor exploitation to express eloquently and presciently that in a damaged human habitat all problems merge
