digital citizenship isn't just one more thing but is threaded into the DNA of how educators teach and work. The book provides a five-year plan for developing a digital citizenship program in your school. Covers such topics as digital ethics and leveled approaches to digital citizenship. Walks through the digital citizenship responsibilities and opportunities inherent in various roles including library media specialists, classroom educators, and special ed teachers. Offers strategies for spreading digital citizenship internationally and explores the future of digital citizenship. The book offers school and district leaders a path toward a shared and collective understanding so that digital citizenship is embedded in the way students and educators interact with technology and each other. It is a guide for school communities to discover which practices in the end will lead to better people. Audience: K-12 educators, education leaders.

Cybersafe Young Children Barbara Sprung, Merle Froschl, Nancy Gropper, 2020. Learn how to integrate lessons about good digital citizenship into the daily life of the early childhood classroom. Based on reviews of empirical research, this book addresses the need for a new educational paradigm that will enable educators to help young children develop the skills and ethical behaviors they will need to thrive in both the real and digital worlds. *Cybersafe Young Children* provides a rationale for addressing issues of cyber safety and children's usage of social media in the early grades to prevent later harmful behavior such as cyberbullying. Written from a developmental perspective, it offers practical classroom strategies for fostering positive digital citizenship in young children.

Book Features: Addresses cyber safety before children become fully immersed in digital communication. Reviews important research with practical applications for K-3 teachers. Grounded in social emotional learning, literacy, executive function, and conceptual skill development. Provides suggested readings and annotated lists of children's books and organizational resources. For young children to be CyberSafe, their parents, caregivers, family members, teachers, and teacher educators need to embrace the developmentally informed knowledge, skills, and evidence-based strategies found in these pages. With guidance from well-prepared media mentors, young children can learn to safely and mindfully use digital devices at home and in school as powerful tools for their learning, social emotional development, communication, and collaboration to become effective digital citizens in their real and digital worlds. Chip Donohue, principal, Donohue and Associates, founding director, Technology in Early Childhood, TEC Center at Erikson Institute; senior fellow and advisor, Fred Rogers Center.
