Israelology - The Birthright, House of Israel, Kingdom, and Sons of God Paul H. Andree, III,2008-03-29 The Houses of Israel and Judah dominate the scriptures from the time of King David until they both were sent into captivity Each House had a destiny to fulfill These destinies are being worked out today What drives the destiny of these Houses The Birthright is a term that many in the Church are aware of but without an understanding of its presence throughout the scriptures It is manifested as the Dominion Mandate and the Fruitfulness Mandate through the Houses of Israel and Judah What are the implications for the coming Kingdom of God and the Sons of God We cannot know or comprehend this answer unless we understand the many foundational scriptures and concepts that establish God s Heart and Plan for the last days This study will challenge each person to be teachable and open to another perspective of God s Plan for Redemption God will reveal His Plan for you and your place in His Coming Kingdom God is maturing His Believers to rule and reign with Him

A critical engagement with theological education in Africa Johannes J. Knoetze, Alfred R. Brunson, 2022-02-07 The higher education landscape has arguably become one of the most arduous to traverse More so in the African context where a

host of variables continuously challenge educators to reflect critically on their philosophies and practices as they engage an ever changing audience In this book a critical engagement with theological education in Africa is offered As the book originates from South Africa it is presented as a South African perspective although contributors are situated across the African continent and abroad The common denominator is that all contributors are in some way or another invested in theological education in Africa The main contribution of this collaborative work is to be sought in the insights it offers on four main areas of theological education A historical and current orientation on theological education in Africa some paradigm shifts in theological education in Africa ministerial formation needs versus theological education challenges and a critical reflection on elective models and methods The book presents the original and innovative research of scholars for fellow scholars involved in theological higher education as it is grounded in the respective fields of interest of each contributor It contributes to a better understanding of the complex African theological higher education landscape that is also mindful of post COVID 19 realities Methodologically the work draws on a combination of methods including literature studies empirical work and in some cases sectional offerings from doctoral studies as indicated in the various chapters
