King,2023-12-19 It was a slow realization over many years that I had been living a divided life as a Christian teaching in the public school system I had no problem teaching at a public school myself but I simultaneously refused to send my children to the same school because I didn't want them exposed to what was taught there The inconsistency was clear in the minds of others when they found out that I homeschooled my children but it took years for it to become clear to me After a decade in teaching I felt convicted to resign This book recounts the several moments and realizations that led up to my decision to leave public education

Running with the Horses Larry Taylor Ph.D.,2013-10-15 We all have great intentions when it comes to raising our children We want them to succeed and above all to surrender their lives to the lordship of Christ As a father of four boys and a twenty five year veteran of school administration I understand these goals I also understand the busyness of daily life how days merge into weeks as hurried lifestyles spin out of control leaving us wondering how our toddlers became teenagers This book introduces you to a simple biblically based plan for raising servant leaders for Christ Whether your child is eighteen months or eighteen years old this book will guide you through the process of preparation for the race that awaits him in this world We will walk through specific and practical things you can do to build a family plan Being deliberate and focusing on creating depth in your child's faith is the first step to preparing him or her to run with the horses If you have run with footmen and they have tired you out then how can you compete with horses If you fall down in a land of peace how will you do in the thicket of the Jordan Jeremiah 12:5

Okholm, 2012-02-09 There is a lot of talk these days about how churches need to become more missional and Kingdom focused but what about the families that make up our churches and often reflect the surrounding culture more than the Kingdom of God Christian families know that God has a better purpose for marriage and family but often don t have the slightest idea how to get there And while many books on Christian marriage and family are inwardly focused on simply getting along better this book addresses the cultural influences that have taken our focus away from God s intended purpose for marriage and family and through analysis and practical suggestions recalls marriages and families to the purpose for which God intended them in the first place namely to serve God s Kingdom as witnesses to a world desperately seeking deeper purpose and authenticity [Index to Book Reviews in Religion](#) , 1999 **Teaching Children** Ann

El-Moslimany, 2018-01-01 The author explores education from the essential principles of Tawhid Oneness of God humanity knowledge fitrah concept of human nature and the role of humans as vicegerents of God on earth responsibility and stewardship The current education system dates back a hundred years or more and is in desperate need of a reboot In developing the industrialized society the education system itself became like a factory the end product being pupils who merely regurgitate facts and themselves end up as cogs in the machine that is the wider industrial complex The legacy of this is a soulless functional educational system that fails to develop pupils to meet the present and future needs of individuals and their expectations This failure inevitably impacts on society and humanity at large Society has long since moved beyond the industrial revolution and into an age of global connectedness where the sum of human knowledge is freely available via the internet It is an age where people are generally more well informed and on a variety of issues An effective holistic educational philosophy is required one that gives full spiritual meaning to all that a child learns It should equip children with spiritual awareness morals and values social responsibility and accountability self discipline and self determination self confidence and empowerment ambition and aspiration tempered with thoughtfulness and a sense of gratitude **A Brief**
