MANUAL by William Logan , Commentary William Logan s Malabar is popularly known as Malabar Manual It is a huge book
of more than 500 000 words It might not be possible for a casual reader to imbibe all the minute bits of information from this
book However in this commentary of mine I have tried to insert a lot of such bits and pieces of information by directly
quoting the lines from Malabar On these quoted lines I have built up a lot of arguments and also added a lot of explanations
and interpretations I do think that it is much easy to go through my Commentary than to read the whole of William Logan s
book Malabar However the book Malabar contains much more items than what this Commentary can aspire to contain This
book Malabar will give very detailed information on how a small group of native Englishmen built up a great nation by joining
up extremely minute bits of barbarian and semi barbarian geopolitical areas in the South Asian Subcontinent *Mergent*
