## **God Reason And Theistic Proofs God Reason And Theistic Proofs:**

**God, Reason, and Theistic Proofs** Stephen T. Davis,1997 Wisely structured and clearly written God Reason and Theistic Proofs will make an excellent resource for those looking for an introduction to the debate surrounding the existence of God or for those seeking intellectual validation for their faith

**Five Views on Apologetics** Zondervan,2010-06-01 Of the most common approaches to apologetics which is most effective The goal of apologetics is to persuasively defend Christianity against charges of falsehood inconsistency or credulity It s an intellectual discipline that serves to bolster the faith of Christian believers and to aid the task of evangelism but are some methods more effective than others Five Views on Apologetics examines the how to of apologetics putting five prominent techniques under the microscope Classical represented by William Lane Craig Evidential represented by Gary Habermas Cumulative Case represented by Paul D Feinberg Presuppositional represented by John M Frame Reformed Epistemology represented by Kelly James Clark Offering a forum for presentation critique and defense this book allows the contributors for the different viewpoints to respond to the others Your own informed conclusions can then guide you as you meet the questions of a needy world with the claims of the gospel The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair minded and respectful of the biblical text Each volume is a one stop reference that allows readers to evaluate the different positions on a specific issue and form their own educated opinion

**Christian Apologetics** Douglas Groothuis,2022-02-08 The Christian faith offers people hope But how can we know that Christianity is true How can Christians confidently present their beliefs in the face of doubts and competing views In this second edition of a landmark apologetics text Douglas Groothuis makes a clear and rigorous case for Christian theism addressing the most common questions and objections raised regarding Christianity

**Reasons We Believe (Foreword by John MacArthur)** Nathan Busenitz,2008-07-22 Reasons We Believe will reinforce your personal faith and will provide you with a clear concise evangelistic tool to help you share that faith with others In an age of cynics and skeptics Christianity is constantly under attack Believers need resources that defend the veracity of their faith They are searching for clear concise and credible answers to both doubts of their own and objections from their unbelieving friends Nathan Busenitz provides such resources to believers Reasons We Believe confirms and strengthens the faith of believers by demonstrating the reliability of the twofold authority on which Christianity rests the Word of God and the person of Jesus Christ Reasons builds a biblical foundation for the authority of the Bible and then shows how extra biblical evidence corresponds with and thereby attests to what the Bible claims This study seeks to reinforce the faith of Christians while also providing them with a straightforward evangelistic tool for reaching non Christians

**The Rationality of Theism** Paul Copan,Paul Moser,2004-07-31 The Rationality of Theism is a controversial collection of brand new papers by thirteen outstanding philosophers and scholars Its aim is to offer comprehensive theistic replies to the traditional arguments against the existence of God offering a positive

case for theism as well as rebuttals of recent influential criticisms of theism      **Religions, Reasons and Gods** John Clayton, 2006-11-25 Traditional theistic proofs are often understood as evidence intended to compel belief in a divinity John Clayton explores the surprisingly varied applications of such proofs in the work of philosophers and theologians from several periods and traditions thinkers as varied as Ramanuja al Ghazali Anselm and Jefferson He shows how the gradual disembedding of theistic proofs from their diverse and local religious contexts is concurrent with the development of natural theologies and atheism as social and intellectual options in early modern Europe and America Clayton offers a fresh reading of the early modern history of philosophy and theology arguing that awareness of such history and the local uses of theistic argument offer important ways of managing religious and cultural difference in the public sphere He argues for the importance of historically grounded philosophy of religion to the field of religious studies and public debate on religious pluralism and cultural diversity      **The Future of Reason, Science and Faith** Revd Dr J Andrew Kirk, 2013-05-28 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book's principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society      **Atheism or Theism?** Hakan Gok, 2018-08-22 Is there a God is one of those irrepressible questions that has been debated throughout human history with scholars from opposites camps making the case for or against the existence of God It is a never ending debate This book first examines the theistic arguments developed by Islamic scholar Sa d Nursi in the twentieth century Although his arguments initially seem to be mere presentations of well established theistic arguments for God such as teleological and cosmological and arguments from miracles and morals it is clear that Nursi takes a fresh approach to these existing philosophical defences The book then analyses how Nursi tackles certain atheistic arguments such as the problem of evil and the possibility of existence without a creator and criticism leveled against the prophets and the Qur'an      **Faith Has Its Reasons** Kenneth Boa, Robert M. Bowman Jr., 2012-01-05 A most accessible but thoroughly practical primer on apologetics      *Encountering Religious Pluralism* Harold Netland, 2001-08-14 Harold Netland traces the emergence of the pluralistic ethos that challenges Christian faith and mission interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive

evangelical theology of religions      *God and Reason, Second Edition* Ed L. Miller, 2015-10-20 This book provides a concise introduction to the main ideas and issues in philosophical theology While covering a wide range of classic and contemporary perspectives the text stresses a historical approach focussing primarily on the development of philosophical theology in the Judeo Christian tradition

**The Metaphysics of Religion** Michael S. Jones, 2006 Lucian Blaga was an early twentieth century European philosopher whose work was suppressed at the height of his career by the creation of the Romanian Socialist Republic Blaga's philosophical writings are rich and creative spanning metaphysics epistemology philosophy of science philosophical anthropology aesthetics philosophy of culture philosophy of history and philosophy of religion Mircea Eliade wrote that Blaga was the most gifted and critical original thinker in the history of Romanian philosophy Because of historical circumstances Blaga's philosophy has not become known outside of his own country although within Romania it continues to be read and discussed Were it to become known outside of Romania Blaga's philosophy could provide interesting contributions to contemporary philosophical discussions The thesis of this book is that Blaga's philosophy can make valuable contributions to contemporary Anglo American philosophy In order to support this thesis Blaga's philosophical system is explained in detail so that the reader may see how it can be applied to a variety of philosophical issues philosophy of religion in order to demonstrate that it can contribute to contemporary Anglo American discussions Michael S Jones is Assistant Professor of Philosophy at Liberty University

**Philosophy of Religion: The Key Thinkers** Jeffrey J. Jordan, 2010-11-18 Arguments concerning the existence and nature of God have been a staple of western philosophy for over 2 000 years Philosophy of Religion The Key Thinkers offers a comprehensive historical overview of this fascinating field Nine specially commissioned essays introduce and explore the contributions of those philosophers who have shaped the subject and the central issues and arguments therein The book reconstructs the history of the philosophy of religion clearly illustrating the most important attempts to address such crucial issues as the ontological argument the cosmological argument the problem of evil miracles the moral argument the design argument religious experience and the idea of god Thinkers covered include Anselm Aquinas Pascal Hume Kant Paley and James Crucially the book demonstrates why the ideas and arguments these key thinkers developed are still relevant in contemporary thought Ideal for undergraduate students the book lays the necessary foundations for a complete and thorough understanding of this fascinating subject

**Paths Beyond Tracing Out** Dolf te Velde, Roelf T. te Velde, 2010

**Theological Epistemology of Contemporary American Confessional Reformed Apologetics** Juha Ahvio, 2005

*Logic* Vern S. Poythress, 2013-02-28 For the well rounded Christian looking to improve their critical thinking skills here is an accessible introduction to the study of logic parts 1 2 as well as an in depth treatment of the discipline parts 3 4 from a professor with 6 academic degrees and over 30 years experience teaching Questions for further reflection are included at the end of each chapter as well as helpful diagrams and charts that are appropriate for use in high school home school college and graduate level classrooms Overall Vern Poythress

has undertaken a radical recasting of the study of logic in this revolutionary work from a Christian worldview     Reason and Religion Rem B. Edwards, 2016-10-13 This book covers a variety of approaches to the main issues usually covered by philosophy of religion textbooks such as the meaning of religion six ways of relating theology to philosophy naturalism versus supernaturalism and their respective difficulties an explanation and defense of process theism or panentheism God's attributes critiques and defenses of the ontological cosmological and teleological arguments religious experience including pluralistic and monistic mysticism verification after death and the future of reason and religion In dealing with the arguments for the existence of God theism wins Though published some decades ago there is very little in this book that the author would change today     **Reason & the Contours of Faith** Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it     **Reforming the Doctrine of God** F. LeRon Shults, 2005-11 Linking traditional attributes of God with contemporary philosophy F LeRon Shults culminates with a reformed doctrine of God that revolves around themes of God's omniscient faithfulness omnipotent love and omnipresent hope     *The Doctrine of God in Reformed Orthodoxy, Karl Barth, and the Utrecht School* R.T. te Velde, 2013-06-27 In The Doctrine of God Dolf te Velde examines the interaction of method and content in three historically important accounts of the doctrine of God Does the method of a systematic theology affect the belief content expressed by it Can substantial insights be detected that have a regulative function for the method of a doctrine of God This two way connection of method and content is investigated in three phases of Reformed theology The first seeks to discover inner dynamics of Reformed scholastic theology The second part treats Karl Barth's doctrine of God as a contrast model for scholasticism understood in the framework of Barth's theological method The third part offers a first published comprehensive description and analysis of the so called Utrecht School The closing chapter draws some lines for developing a Reformed doctrine of God in the 21st century
