world's goddesses ranging from the immediately recognizable to the obscure. These figures, many of whom derive from ancient cultures and civilizations, serve as points of departure for examining questions that go well beyond the role of women in religion and spirituality to include social organization, environmental awareness, historical developments, and psychological archetypes. Each volume of this groundbreaking set is composed of 20-25 previously unpublished articles written by expert contributors from diverse disciplines. Volume one covers Asia and Africa; volume two covers the Eastern Mediterranean and Europe; and volume three covers Australia and the Americas. Goddesses from cultures often overlooked in texts on religion, such as those of the Australian Aborigines, Korea, Nepal, and the Caribbean, are included here. In addition, the work offers new translations of ancient texts, introduces little-known folklore, and suggests new approaches to contemporary religious practices.

Dancing on the Earth Johanna Leseho, Sandra McMaster, 2011-06-01 The essays in this dynamic compilation are a testament to dance as a healing art. Widely interdisciplinary in nature and written by women dancers from around the world, they illustrate a rich array of dance practices, cultures, and disciplines and show how this expressive therapy can be both empowering and exhilarating. The women's narratives all share a deep appreciation for the connection between mental, spiritual, and physical dimensions, offering dance as a transformative power of renewing and rebuilding that bond. Both personal and professional, the stories weave a vivid tapestry of lived experiences and insights, balance, and a community healed by dance.

Russian Magic Cherry Gilchrist, 2009-10-13 In the heart of Russia, old ways of perceiving the spirits of home and nature still prevail. Fairy stories, folk art, and calendar customs carry hints of the old gods and offer a now rare way of linking human life to the landscape. This is as true for city dwellers and villagers for the Russian soul is open to the power of myth and the mysteries of the universe. This book explains how Russia's concept of soul, *dusha*, and sensitivity to the landscape extends to archaeologists, scientists, and doctors in Russia who retain an open-minded approach and a keen interest in psychic phenomena along with folk traditions and faith healing. Author Cherry Gilchrist has traveled often to Russia and researched its traditional lore, gaining knowledge she interweaves into this book. She blends that first-hand knowledge with serious research to paint a lively picture of these remarkable magical traditions and their enduring power.

The Dancing Goddesses Elizabeth Wayland Barber, 2013-02-04 A fascinating exploration of an ancient system of beliefs and its links to the evolution of dance. From Southern Greece to northern Russia, people living in agrarian communities have long believed in dancing goddesses, mystical female spirits who spend their nights and days dancing in the fields and forests. In *The Dancing Goddesses*, archaeologist, linguist, and lifelong folkdancer Elizabeth Wayland Barber follows the trail of these spirit maidens long associated with fertility, marriage customs, and domestic

pursuits from their early appearance in traditional folktales and harvest rituals to their more recent incarnations in fairytales and present day dance Illustrated with photographs maps and line drawings the result is a brilliantly original work that stands at the intersection of archaeology and folk traditions at once a rich portrait of our rich agrarian ancestry and an enchanting reminder of the human need to dance **Goddesses and Their Offspring** Roberson Center for the Arts and Sciences,1986 Introducing the Mythological Crescent Harald Haarmann,Joan Marler,2008 There is a broad cultural region with related traditions of mythical beliefs interconnected by long term contacts during prehistoric times This area called here the Mythological Crescent is a zone of cultural convergence that extends from the ancient Middle East via Anatolia to southeastern Europe opening into the wide cultural landscape of Eurasia The very old interconnections between Eurasia and Anatolia are explored in this study for the first time In a comparative view striking similarities can be reconstructed for the ancient belief systems and the imagery of both regions which suggest convergent cosmological conceptualizations of high age The beliefs and ritual practices of the indigenous peoples of Eurasia are rooted in the shamanism of the oldest cultural layers of the Palaeolithic Although socioeconomic development in Anatolia was markedly different from cultural evolution in Eurasia the hunters and gatherers in Anatolia who adopted sedentary lifeways did not entirely lose their ancient beliefs during the transition to plant cultivation in the eighth millennium BCE Archaic beliefs and imagery fused with new practices and innovations during the development of agrarian societies One diagnostic motif which was perpetuated from the Palaeolithic to the Neolithic and beyond is represented by the production of female figurines statuettes Their significance for communal life has been linked to spiritual concepts of the continuity of life the vegetation cycle and the protection of the natural habitat of all living things as recorded in myths and historical folk art of Uralic and other peoples The bear plays a significant role as a mythical animal in the imagery of Eurasia whereas this motif was lost in Anatolia during the transition from antiquity to the Middle Ages **Russia • Women • Culture** Helena Goscilo,Beth Holmgren,1996-05-22 Een aantal essays over de culturele bijdrage die Russische vrouwen geleverd hebben aan de Russische beschaving De volgende bijdragen zijn opgenomen The second fantasy mother or all baths are women s baths door Nancy Condee Keeping a breast of the waist land women s fashion in early nineteenth century Russia door Helena Goscilo Female fashion Soviet style bodies of ideology door Olga Vainshtein Getting under their skin the beauty salon in Russian women s lives door Nadezhda Azhgikhina en Helena Goscilo Domestic porkbarreling in nineteenth century Russia or who holds the keys to the larder door Darra Goldstein The ritual fabrics of Russian village women door Mary B Kelly Dirty women cultural connotations of cleanliness in Soviet Russia door Nadya L Peterson Women on the verge of new language Russian salon hostesses in the first half of the nineteenth century door Lina Bernstein Stepping out going under women Russia s twentieth century salons door Beth Holmgren Pleasure danger and the dance nineteenth century Russian variations door Stephanie Sandler The incomparable Anastasiia Vial tsva and the culture of personality door Louise McReynolds Flirting with words

Offen, Ruth Roach Pierson, Jane Rendall, 1991-08-23 Five essays address such themes as the relationship between feminist history and women's history the use of the concept of experience the development of the history of gender demographic history and women's history and the importance of post structuralism to women's history **Women's Work: The First 20,000 Years Women, Cloth, and Society in Early Times** Elizabeth Wayland Barber, 1995-09-17 A fascinating history of a craft that preceded and made possible civilization itself New York Times Book Review New discoveries about the textile arts reveal women's unexpectedly influential role in ancient societies Twenty thousand years ago women were making and wearing the first clothing created from spun fibers In fact right up to the Industrial Revolution the fiber arts were an enormous economic force belonging primarily to women Despite the great toil required in making cloth and clothing most books on ancient history and economics have no information on them Much of this gap results from the extreme perishability of what women produced but it seems clear that until now descriptions of prehistoric and early historic cultures have omitted virtually half the picture Elizabeth Wayland Barber has drawn from data gathered by the most sophisticated new archaeological methods methods she herself helped to fashion In a brilliantly original book Katha Pollitt Washington Post Book World she argues that women were a powerful economic force in the ancient world with their own industry fabric

Womens Work E. J. W. Barber, 1994 The author presents the previously untold human side of the story of prehistoric textiles the relations of women and their textile work to society and economics over the huge span of prehistoric and early historic times Russian Talk Nancy Ries, 1997 As one of the first Western ethnographers working in Moscow Nancy Ries became convinced that talk is one crucial way in which Russian identity is constructed and reproduced Listening to the grim stories people used to characterize their lives during perestroika and encountering the florid pessimism with which Muscovites described the unraveling of Soviet governance Ries realized that these dire tales played a crucial role in fabricating a sense of shared experience and destiny While many of the narratives aptly depicted the chaotic social and political events they also promoted key images of Russianness and presented Russian society as an inescapable realm of injustice absurdity and suffering At the height of perestroika in the early 1990s Moscow residents commonly used the phrase complete ruin to refer to the disintegration of Russian society encompassing in that phrase the escalation of crime the disappearance of goods from stores the fall of production ecological catastrophes ethnic violence in the Caucasus the degradation of the arts and the flood of pornography Ries argues that such stories became a genre of folklore consistent in their lamenting portentous tone and their dramatic culturally poignant details
