Hanegraaff,1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one s true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement

The Global Financial Crisis George K. Zestos, 2015-10-05 Although banking and sovereign debt crises are not unusual the crisis that has unfolded across the world since 2007 has been unique in both its scale and scope It has also been unusual in being both triggered by and mainly affecting developed economies Starting with the US subprime mortgage crisis and the recession in 2007 2009 the problem soon erupted into financial crisis in Europe A few of these countries came to the brink of bankruptcy and were rescued by the EU and the IMF on the condition they adopt austerity measures The detrimental social effects of the crisis in both the US and Europe are still emerging Although there have been several studies published on the US crisis in particular there has so far been an absence of an accessible comparative overview of both crises This insightful text aims to fill this gap offering a critical overview of causes policy responses effects and future implications Starting with the historical context and mutation of the crisis the book explores the policies regulations and governance reforms that have been implemented to cope with the US subprime mortgage crisis A parallel analysis considers the causes of the European sovereign debt crisis and the responses of the European Union EU examining why the EU is as yet unable to resolve the crisis This book is supported with eResources that include essay questions and class discussion questions in order to assist students in their understanding This uniquely comprehensive and readable overview will be of interest and relevance to those studying financial crises financial governance international economics and international political economy

[You Can Kill Each Other After I Leave](#) Patrick Strickland, 2025-04-15 In the vein of George Orwell's *Homage to Catalonia* and Martha Gellhorn's *The View from the Ground* a remarkable work of reportage based on hundreds of hours of on the ground reporting that tells how Greece's violent far right is trying to destroy the birthplace of democracy In 2012 Greece's far right political party the Golden Dawn were building a significant street presence in Greece Over the previous decade they had grown from a tiny group of neofascist brawlers to a formidable vigilante force responsible for multiple murders street fights and shootings On the eve of the 2012 election one of their candidates said that the knives will come out after the elections And the knives did come out Golden Dawn became a significant parliamentary presence and used it as a platform to escalate their terror campaigns against migrants and leftists across the country They also became an inspiration for far right groups across Europe and the Americas Journalist Patrick Strickland first arrived in Greece in 2015 to cover the European refugee crisis just as Golden Dawn were ramping up their campaign of terror With an eye for

journalistic detail that recalls Orwell's reportage in Spain Strickland traces the antecedents of Golden Dawn to the dark years of Nazi occupation and subsequent military dictatorship and looks at the post 2008 economic crisis that emboldened the far right He also introduces us to the resistance forces standing up to the right taking us to the Greek islands where people rallied together to support the hundreds of thousands of refugees traveling across the Aegean Sea Strickland also takes us to the anarchist squats in Athens where activists took over abandoned buildings and opened them up to the refugees a tactic they viewed as an anti fascist alternative to dooming migrants to life in the squalid refugee camps *You Can Kill Each Other After I Leave* is an exemplary work of narrative nonfiction and compelling journalism that provides an intimate portrait of the stories of migrants and activists resisting the growth of the far right as well as a vivid and shrewd analysis of the evolving political landscape in Greece and Europe

Eurasianism and the European Far Right Marlene Laruelle, 2015-07-01 The 2014 Ukrainian crisis has highlighted the pro Russia stances of some European countries such as Hungary and Greece and of some European parties mostly on the far right of the political spectrum They see themselves as victims of the EU technocracy and liberal moral values and look for new allies to denounce the current mainstream and its austerity measures These groups found new and unexpected allies in Russia As seen from the Kremlin those who denounce Brussels and its submission to U S interests are potential allies of a newly re assertive Russia that sees itself as the torchbearer of conservative values Predating the Kremlin's networks the European connections of Alexander Dugin the fascist geopolitician and proponent of neo Eurasianism paved the way for a new pan European illiberal ideology based on an updated reinterpretation of fascism

Although Dugin and the European far right belong to the same ideological world and can be seen as two sides of the same coin the alliance between Putin's regime and the European far right is more a marriage of convenience than one of true love This unique book examines the European far right's connections with Russia and untangles this puzzle by tracing the ideological origins and individual paths that have materialized in this permanent dialogue between Russia and Europe

The Securitisation of Migration in the EU Gabriella Lazaridis, Khursheed Wadia, 2015-10-15 Since 9/11 Western states have sought to integrate securitisation measures within migration regimes as asylum seekers and other migrant categories come to be seen as agents of social instability or as potential terrorists Treating migration as a security threat has therefore increased insecurity amongst migrant and ethnic minority populations
