Doris Lessing's global reputation and readership is addressed for the first time in *In Pursuit of Doris Lessing* through a series of essays that also provide a provocative overview of Lessing's long career from *The Grass Is Singing* the first of a series of African and woman centered politically radical works to her latest galactic and politically conservative works. Nine different Lessings emerge from these essays forcing us to question received propositions about the universality of literature and the stability of the text and uncovering and recovering in the process the pungent variable controversial Lessing who has been and remains as international and transcultural as she is African and English.
