Good Governance And The European Union Good Governance And The European Union:

Good Governance and the European Union Deirdre Curtin, Ramses A. Wessel, 2005 This book approaches the notion of good governance from three different angles First it establishes whether it is a meaningful notion at all by taking a closer look at the parameters of good governance Secondly the authors look at the institutional translation of the criteria of good governance In a third dimension the concept may be analysed in relation to a number of substantive issues **New**

Approaches on Good Governance in the European Union Maria Pascal, Alexandra Ema Cioclea, 2010 Governance as a concept has progressed from obscurity to widespread usage particularly in the last two decades due to the critical role it plays in determining welfare for nations regions communities The paper aims to offer an overview on good governance and its principles the way it evolved from the World Bank's point of view in the 90s to European Commission's White Paper on European Governance in 2001 The article also emphasizes on the impact good governance has on regional development through multi level European governance **Europe's Burden** Alina Mungiu-Pippidi, 2019-12-05 The EU is many things a civilization ideal to emulate an anchor of geopolitical stabilization a generous donor and a historical lesson on cooperation across nations A fixer of national governance problems however it is not In this book Mungiu Pippidi investigates the efficacy of the European Union's promotion of good governance through its funding and conditionalities both within EU proper and in the developing world The evidence assembled shows that the idea of European power to transform the quality of governance is largely a myth From Greece to Egypt and from Kosovo to Turkey EU interventions in favour of good governance and anti corruption policy have failed so far to trigger the domestic political dynamic needed to ensure sustainable change Mungiu Pippidi explores how we can better bridge the gap between the Europe of treaties and the reality of governance in Europe and beyond This book will interest students and scholars of comparative politics European politics and development studies particularly those examining governance and corruption

Good Governance in Europe's Integrated Market Christian Joerges, Renaud Dehousse, 2002 Exploring the constitutional and the administrative law dimensions of the developing European market governance this volume considers the changes which have occurred from the perspective of both legal and social theory **Centralised Enforcement, Legitimacy and Good Governance in the EU** Melanie Smith, 2009-09-10

Article 226 EC is the central mechanism of enforcement in the EC Treaty and has remained unchanged since the original Treaty of Rome It provides the European Commission as guardian of the Treaty with a broad power of policing Member States conduct Article 226 has been traditionally characterised as an arena of secretive negotiation focused on the sole function of effective enforcement This study seeks to move beyond this approach by characterising Article 226 as a multi functional mechanism within the Treaty It does this by examining the central mechanism of enforcement through the normative lenses of legitimacy good administration and good governance Centralised Enforcement Legitimacy and Good Governance in the EU is interdisciplinary in nature examining law in its political context It focuses on how the institutions

interact and react to competing policy pressures and explores the tensions that lie at the heart of legitimacy in the actions of public actors by engaging with concepts such as democracy legitimacy and good administration Scholars and policy makers whose work explores Article 226 will find this work especially relevant It will also appeal to those who are interested in enforcement and regulation in the international EU arena as well as those whose work considers concepts such as good governance legitimacy and accountability in the EU It is also relevant to scholars engaged in the study of institutions and processes of interaction and change Challenges of Good Governance in the European Union Robert Grzeszczak,2016

Executive Power of the European Union Deirdre Curtin,2009 The picture of Brussels based bureaucrats exercising arbitrary executive powers is one of the favourite images conjured by Eurosceptics across the political spectrum This book offers a richer understanding of the nature of the EU s powers how they relate to national governments and how they are controlled *The European Union and Global Governance* Dr Jens-Uwe Wunderlich,David J. Bailey,2010-12-14 The European Union and Global Governance A Handbook aims to analyse contemporary debates in European Studies in order to provide lessons for the development design and normative evaluation of global governance It brings together scholars of European studies and international relations where much of the literature on regional and global governance is located thereby providing interdisciplinary lessons from the study of European Union and its governance that can be used to re evaluate processes of global governance Each chapter examines methodological theoretical or empirical discussions within European studies in order to draw insights for current developments in global governance **The Transformation of**

Governance in the European Union Rainer Eising,BEATE KOHLER-KOCH,2003-09-02 The book presents a theoretically informed typology of modes of governance which is tested in a careful selection of comparative country and policy studies At the core is the question whether the European Union is destined to a network type of governance and whether and how this type of governance will be translated into the member states The individual chapters subject the governing patterns at European and national level to empirical scrutiny Drawing on recent research findings in different issue areas including monetary union social affairs environment genetic engineering and market liberalisation in transport banking energy professional services the contributions highlight the impact of the European activities on policy making process in the member states **Centralized Enforcement, Legitimacy and Good Governance in the EU** Melanie Smith,2009-09-10

Article 226 EC is the central mechanism of enforcement in the EC Treaty and remains unchanged since the original Treaty of Rome This book examines Article 226 in the light of contemporary debates including concepts such as democracy legitimacy good administration and good governance in the EU **Good Governance in Central and Eastern Europe** Herman Willem Hoen,2001-01-01 Undeniably Good Governance in Central and Eastern Europe provides many insights in the political economy of institutional reform and constitutes an important contribution to the growing literature on second generation reforms Carlos Santiso Democratization The implementation of a democratic order embedded in a market economy

environment has proved immensely difficult Furthermore this process is subject to tremendous variety within Central and Eastern Europe Ten years after the collapse of communism it was apparent that only Poland and Slovenia surpassed their 1989 levels of GDP This book scrutinises the arrangements to enforce good governance in this area both by means of external help and domestic political leadership From the popular assumption that transformation is a collective good it follows that the problem of free riding has to be faced Consequently there is a danger that transformation may never be completed This book empirically tests the relationship between economic performance and good governance focusing upon voluntary coercion as a means to prevent free riding behaviour The author examines the role of international organisations and discusses elite formation as an important element of good governance something often ignored in the economic analysis of economic performance

Local Government in the European Union Marius Guderjan, Tom Verhelst, 2021-09-30 This book addresses the bigger picture of local European relations and adds a new dimension to existing studies on multilevel governance and the Europeanisation of local government Drawing from a combination of European integration theories and operational approaches it introduces the idea of an integration cycle in which local government responds to the top down impact of the EU internally horizontally and vertically This volume presents a wide range of empirical examples to demonstrate how local authorities across Europe have changed their practices orientation and preferences and adapted their institutions and organisation Not only do cities towns and counties cooperate with each other across borders and through transnational networks and partnerships but by mobilising formally and informally local actors participate in and influence European governance and contribute to the future trajectories of European integration thereby completing the integration cycle

Beyond the Panama Papers. The Performance of EU Good Governance Promotion Alina Mungiu-Pippidi, Jana Warkotsch, 2017-09-11 This last title in the series covers the most important findings of the five years EU sponsored ANTICORRP project dealing with corruption and organized crime How prone to corruption are EU funds Has EU managed to improve governance in the countries that it assists Using the new index of public integrity and a variety of other tools created in the project this issue looks at how EU funds and norms affected old member states like Spain new member states Slovakia Romania accession countries Turkey and the countries recipient of development funds Egypt Tanzania Tunisia The data covers over a decade of structural and development funds and the findings show the challenges to changing governance across borders the different paths that each country has experienced and suggest avenues of reforming development aid for improving governance

Regional Institutions and Governance in the European Union José Magone, 2003-08-30 European integration has profoundly changed the relationship between national and subnational governments and has led to the emergence of the Europe of the Regions This edited volume highlights some of the problems involved in the integration of the three main levels of governance in the European Union the regional national and supranational level The contributors address recent developments in various regions and examine the way these regions have

adjusted to the growing importance of the European Union's multilevel governance system. Among the issues discussed are the emergence and institutionalization of new regional political systems such as those of Scotland, Wales, and Flanders; the channels available to the regions for influencing the EU policy process in relation to their constituencies; and horizontal projects of integration among regions which make the whole multilevel governance system more flexible as well as more complex.

EU Good Governance Promotion in the Age of Democratic Decline Digdem Soyaltin-Colella, 2022-09-05

The European Union's support for good governance reforms has been the cornerstone of its conditionality and funding policies and contributed its role as a transformative power. This book re-evaluates the EU's governance promotion capacity both within the EU and beyond its borders in light of the simultaneous decline in democracy in Europe in particular and across the whole world in general. The book is divided into three parts. Part I focuses on the EU's good governance transfer to member and accession countries. Part II examines how and to what extent the EU's governance promotion strategies travel beyond its borders and focuses on neighbours, partners, and aid recipient countries, especially in Africa. Part III turns to other regional and global actors and discusses the implications of illiberal contesters such as China and Russia on the future of EU's good governance promotion efforts. The findings of the book bring fresh insights for the scope and depth of the EU's governance transfer capacity.

A Legal Analysis of NGOs and European Civil Society Piotr Staszczuk, 2019-06-26

Amid widespread awareness and discussion of the democratic deficit and shrinking civil space, the role of nongovernmental organizations (NGOs) becomes increasingly important. Yet the precise legal status of such bodies is ill-defined. Here for the first time is a thorough commentary and analysis of the position of NGOs and European civil society in the European Union's constitutional system, bringing to the fore existing and desirable means of public participation in EU lawmaking. Recognizing that NGOs have historically been designed to meet the ends of civil society, the analysis focuses on the following topics and issues: means in EU law of advocating for the collective interests of civil society; unofficial means of influencing the EU institutions; access to documents and the European Citizens Initiative as means of exerting pressure on EU legislation; relations between the EU institutions and NGOs, including lobbying activities; bringing actions in the common good before courts and other institutions; the special role of NGOs in environmental protection; complaints to the Commission and the European Ombudsman; EU funding for NGOs and transboundary philanthropy. Drawing on a broad spectrum of sources of law, including CJEU case law and relevant legal literature, the book offers insightful proposals leading to the democratization of the EU's internal procedures that will allow enhanced cooperation of civil society representatives across national borders. In its thorough examination of legal tools that can respond to the democratic deficit, this book makes a distinctive contribution to the public debate on the future of the European Union, especially in the context of emerging threats to further integration. It will prove of great value not only to civil activists, academics, and policymakers but also to everyone interested in European integration and affordance for social participation.

Human Rights and Good Governance Wei Zhang, Ruoyu Li, Zihan

Yan,2016-03-11 The Chinese Perspectives on Human Rights and Good Governance series reviews various aspects of human rights and good governance in China including international human rights standards specific substantive rights protection and rule of law as well as constitutionalism especially in the context of contemporary China Its aim is to stimulate discussion on these and related topics with a focus on international standards whenever these are applicable and relevant to China In this first volume in the series the contributors adopt different disciplinary approaches to look at China both in the context of its internal constraints and as a global player in the overall development of human rights Where is China headed in the near future Does Chinese culture stand in contradiction to human rights Is the rule of law alien to Chinese society Can China move ahead without political reforms In this thought provoking volume leading Chinese and Western scholars offer analysis of these issues also with reference to Chinese history and contemporary culture *EU External Relations and Systems of Governance* Paul James Cardwell,2009-12-04 This book takes a fresh look at the external relations of the European Union EU and in particular the Common Foreign and Security Policy CFSP Rather than focusing exclusively on the competence aspects of the institutions and actors the book makes the case that the CFSP can be understood as a system of governance which produces effects beyond the traditional tools associated with foreign policy The theoretical approach draws on insights from new institutionalism constructivism and the institutional theory of law and emphasises how the institutionalised forms of cooperation in the external sphere contribute to a social reality in which the added value of the CFSP can be seen Paul James Cardwell takes the Euro Mediterranean Partnership EuroMed as a case study Not initially a CFSP project EuroMed has become the frame for EU foreign policy in the region as an emerging system of governance in which the EU institutions play a central role Having recently been relaunched as the Barcelona Process Union for the Mediterranean it is a topical subject With the increasing importance of migration on the EU s agenda the book looks at the relationship between migration EuroMed and the CFSP and argues that the legal effects of the CFSP can be felt beyond the Treaty based instruments EU External Relations and Systems of Governance will be of interest to students and scholars of Law Politics and European studies researching in the dynamic fields of EU external relations and foreign policy as well as policy makers and non governmental organisations striving to better understand how the EU and its systems of governance operate The Ombudsman, Good Governance and the International Human Rights System Linda C. Reif,2013-12-19 This book uses comparative law and comparative international law approaches to explore the role of human rights ombuds classic based ombuds and other types of ombuds institutions in human rights protection and promotion their methods of application of international and domestic human rights law and their roles in strengthening good governance It highlights the increasing importance of national human rights ombuds institutions globally and their roles as national human rights institutions NHRIs Chapters address ombuds institutions as mechanisms to strengthen democratic horizontal and vertical accountability the rule of law and good governance national human rights ombuds institutions as NHRIs the investigatory litigation promotional and

other powers of human rights and classic based ombuds and their methods for applying international and domestic human rights law ombuds institutions and the protection and promotion of international children s rights national human rights ombuds additional mandates as OPCAT national preventive mechanisms UN Convention on the Rights of Persons with Disabilities Article 33 2 framework mechanisms and EU national equality bodies human rights ombuds and business and human rights ombuds institutions gender and women s rights the European Ombudsman and human rights national human rights ombuds and other ombuds models by region accompanied by case studies on national human rights ombuds and the legal and extra legal factors affecting ombuds institutional effectiveness

The EU and China in African Authoritarian Regimes Christine Hackenesch, 2018-05-30 This open access book analyses the domestic politics of African dominant party regimes most notably African governments survival strategies to explain their variance of opinions and responses towards the reforming policies of the EU The author discredits the widespread assumption that the growing presence of China in Africa has made the EU s task of supporting governance reforms difficult positing that the EU s good governance strategies resonate better with the survival strategies of governments in some dominant party regimes more so than others regardless of Chinese involvement Hackenesch studies three African nations Angola Ethiopia and Rwanda which all began engaging with the EU on governance reforms in the early 2000s She argues that other factors generally identified in the literature such as the EU good governance strategies or economic dependence of the target country on the EU have set additional incentives for African governments to not engage on governance reforms
