Vaccine manufacturing workshop for South-East Asia and the Western Pacific Regions World Health Organization, 2022-06-16 *Haschek and Rousseaux's Handbook of Toxicologic Pathology* Wanda M Haschek, Colin G. Rousseaux, Matthew A. Wallig, Brad Bolon, Ricardo Ochoa, 2013-05-01

Haschek and Rousseaux's *Handbook of Toxicologic Pathology* is a key reference on the integration of structure and functional changes in tissues associated with the response to pharmaceuticals, chemicals, and biologics. The 3e has been expanded by a full volume and covers aspects of safety assessment not discussed in the 2e. Completely revised with many new chapters, it remains the most authoritative reference on toxicologic pathology for scientists and researchers studying and making decisions on drugs, biologics, medical devices, and other chemicals, including agrochemicals and environmental contaminants. New topics include safety assessment, the drug life cycle, risk assessment, communication and management, carcinogenicity assessment, pharmacology and pharmacokinetics, biomarkers in toxicologic pathology, quality assurance, peer review, agrochemicals, nanotechnology, food, and toxicologic pathology, the environment, and toxicologic pathology, and more. Provides new chapters and in-depth discussion of timely topics in the area of toxicologic pathology and broadens the scope of the audience to include toxicologists and pathologists working in a variety of settings. Offers high quality and trusted content in a multi-contributed work written by leading international authorities in all areas of toxicologic pathology. Features hundreds of full color images in both the print and electronic versions of the book to highlight difficult concepts with clear illustrations.

Joint external evaluation of the International Health Regulations (2005) core capacities of Indonesia World Health Organization, 2024-11-08

The Joint External Evaluation (JEE) team would like to express its appreciation to Indonesia for volunteering for a second round of JEE. This demonstrates commitment, foresight, and leadership from the highest levels of government, crucial for long-term success in building and sustaining Indonesia's core capacities under the International Health Regulations (2005) IHR. The external team commends Indonesia for enhancing health security by implementing IHR through committed leadership, which is of significant importance not just regionally but also globally. As a large country spread over 17,000 islands, Indonesia's size, population, and vulnerability to natural disasters, along with its social, economic, and administrative diversity, pose unique challenges to public health. The country has robustly responded to these challenges, taking public health leadership roles both regionally and globally.

An American Experience in Indonesia Howard W. Beers, 2021-10-21

This book tells the story of an important experiment in international cooperation and inter-university collaboration in educational development. A team of educational and agricultural specialists from the University of Kentucky, called Kenteam, lived and worked in Bogor, Indonesia, from 1957 through 1965. Their purpose was to work with the Agricultural University in Bogor to develop a complete college of agriculture to the level of capability for self-regeneration and growth. Working against a background of political and economic turmoil, Kenteam succeeded in helping the Indonesians build an institution capable of achieving its

goals once the restraints of a struggling economy could be removed This heartening story is replete with sociological insight but free of sociological jargon Written in a reportorial and evaluative style the book interweaves ideas of organizational development with close ups of the interagency and human problems involved telling an absorbing story of international cooperation in technical assistance It will be read with interest by Asian specialists and the many people concerned with social change and economic and educational development

**MANIPULATION OF DIGITAL EVIDENCE BY THE
INDONESIAN NATIONAL POLICE FORENSIC LABORATORY: A CASE STUDY OF THE CYANIDE COFFEE INCIDENT**

RISMUN HASIROLAN SIANIPAR,2025-09-03 The criminal case involving Jessica Wongso has unveiled the fragility of digital evidence integrity within Indonesia s criminal justice system CCTV recordings which should have served as objective

evidence were reprocessed using irrelevant software such as eRightSoft and Freemake by police digital forensic experts namely Muhammad Nuh al Azhar and Christopher Hariman Rianto This practice resulted in technical alterations including downscaling recompression and the loss of original metadata Consequently the recordings lost their validity as authentic evidence and produced far reaching implications during the trial process The manipulated video was subsequently employed as the basis for analysis by psychologists criminologists criminal law experts prosecutors and judges Interpretations of Jessica s nonverbal behavior became biased criminological assessments were rendered defective and legal constructions were built upon contaminated data Even more concerning the court accepted the footage without conducting authenticity tests in accordance with international standards This not only compromised the probative value of the evidence but also undermined the principle of a fair trial This case serves as a critical lesson on how easily digital evidence can be manipulated and how devastating its consequences can be for justice The integrity of evidence is the cornerstone of law Without such integrity the judicial process risks becoming an instrument of criminalization Accordingly this book seeks to reveal how digital evidence manipulation operates its impact on forensic psychology criminology criminal law and even public perception It is hoped that readers will recognize the urgency of safeguarding the integrity of digital evidence in order to uphold truth and justice
