**Decision-Making Groups and Teams** Steven Silver,2013-11-12 In recent years there has been increasing implementation of group and team decision making within organizations much of it managed electronically between members of what are virtual groups or teams Recent research into effective team implementation emphasizes trust as an intermediary process and trust must be a part of any account of team decision making This book provides an integrated framework that represents process in decision making by interactive groups and teams This framework furthers both our understanding of process and our capabilities in implementation based on an account of group decision making that differentiates the information types contributing to decision quality and relates them to process in interactive groups and teams Author Steve Silver emphasizes the social structure that is inherent in the interaction of decision makers as group or team members and effects on the information they exchange [The Wiley Blackwell Handbook of the Psychology of Team Working and Collaborative Processes](#) Eduardo Salas,Ramon Rico,Jonathan Passmore,2020-04-06 A state of the art psychological perspective on team working and collaborative organizational processes This handbook makes a unique contribution to organizational psychology and HRM by providing comprehensive international coverage of the contemporary field of team working and collaborative organizational processes It provides critical reviews of key topics related to teams including design diversity leadership trust processes and performance measurement drawing on the work of leading thinkers including Linda Argote Neal Ashkanasy Robert Kraut Floor Rink and Daan van Knippenberg *Team-Based Learning* Larry K. Michaelsen,Arletta Bauman Knight,L. Dee Fink,2002-12-30 Team learning is an especially powerful way of using small groups Different authors have used different terms when writing about small groups learning groups collaborative learning cooperative learning and team learning Despite the varying terminology all refer to the same idea putting individual students in a class into small groups for the purpose of promoting more active and more effective learning By creating a course structure that involves small groups in the initial acquisition of course content in learning how to apply that content and in the assessment of student learning the procedures of team learning offer teachers an extremely powerful tool for creating several kinds of higher level learning The key to using this tool successfully lies in understanding a few key principles of team dynamics and then learning how to apply those principles to specific subject matter and in a variety of teaching situations This book explains those principles and shows how team learning transforms the structure of the course transforms small groups into teams and transforms the quality of student learning
