Growing Concern Part :

A Growing Concern Bruce Pinkos,2023-09-21 The Neiare departed the Ecuadorian port on a scheduled exercise along a bearing closely straddling the equator The ship s working crew plus a technical staff of horticulturists were soon to be pulled violently from their normal monotonous daily routines They would be cast into a myriad of terrifying life threatening situations that had to be overcome in order to survive As the ship s situation turns grave the staff fight to maintain their fragile life support systems Gerald Gross and his covert Sustain group must deftly manage the remaining crew to battle on in order to stay alive The odds are increasingly against their survival with each passing minute of indecision Unknown to the bulk of Horticulturists the work that they dedicated their careers to was about to become much more vital This was a fact the other major nations in the world had been well aware of Now their determined efforts to acquire the cargo that the Neiare berthed on board were intensified to a degree of terrifying desperation The fate of hundreds of millions may now rest in Sustains hands In summary each of the staff has a differing degree of knowledge as to the scientific importance of the genetically modified seeds that they work with None of the staff have made the connection as to what the enormous value these products could have to the entire world in the very near future Going Concern Valuation L. Deane Wilson Ma Asa,Robin G. Wilson Mai,2012-02 Our purpose in writing this book is multifaceted First this book aims to present a clear understanding of going concern valuations at the same time resolving the current misrepresentations surrounding the issue Additionally this book offers a new set of rules readers can use to determine which property types qualify as going concern valuations and which do not This book presents an understanding that in performing a Going Concern Valuation of properties which are perceived to have a business component it may not be possible to segregate allocate or value the components individually For example when appraising the going concern value of a motel with occupancy of 75% it could be argued and possibly proven that there is a value that can be separated from the overall value or going concern value to the business component On the other hand however appraising that same motel with only 40% occupancy presents a completely different set of circumstances that could easily draw completely opposite conclusions It simply may be a lack of sufficient tools or data to argue and prove that the business component in fact has value separate from the real estate To do so with authority is tantamount to ignorance or arrogance **Audit Reporting for Going Concern Uncertainty** Sandro Brunelli,2018-01-30 This book employs a narrative analytical approach to explore all aspects of the debate surrounding auditor reporting on going concern uncertainty worldwide In depth analysis of significant academic studies and of regulatory perspectives is combined with an illuminating empirical study in the Italian context The book opens by discussing the assessment of going concern for accounting and auditing purposes It is examined how going concern is considered in the FASB and IASB accounting standards and how auditors in the PCAOB and IAASB environments should verify its presence in financial statements and report on it in the audit report Accounting and auditing in relation to going concern in other jurisdictions are

also addressed Research into the determinants accuracy and consequences of going concern opinions GCO is then thoroughly reviewed with separate examination of studies and trends in the United States Europe and the rest of the world In the third part of the book interesting evidence from the Italian Stock Market including investor reactions to GCOs during the period 2008 2014 is presented and evaluated The book will be of interest to academics regulators and practitioners alike

Auditor Going Concern Reporting Marshall A. Geiger, Anna Gold, Philip Wallage, 2021-06-09 Auditor reporting on going concern related uncertainties remains one of the most challenging issues faced by external auditors Business owners market participants and audit regulators want an early warning of impending business failure However companies typically do not welcome audit opinions indicating uncertainty regarding their future viability Thus the auditor's decision to issue a going concern opinion GCO is a complex and multi layered one facing a great deal of tension Given such a rich context academic researchers have examined many facets related to an auditor's decision to issue a GCO This monograph reviews and synthesizes 182 recent GCO studies that have appeared since the last significant review published in 2013 through the end of 2019 The authors categorize studies into the three broad areas of GCO 1 determinants 2 accuracy and 3 consequences As an integral part of their synthesis they summarize the details of each study in several user friendly tables After discussing and synthesizing the research they present a discussion of opportunities for future research including issues created or exacerbated as a result of the global COVID 19 pandemic This monograph will be of assistance to researchers interested in exploring this area of auditor responsibility It will also be of interest to auditing firms and individual practitioners wanting to learn what academic research has examined and found regarding this challenging aspect of audit practice Auditing standard setters and regulators will find it of interest as the authors review numerous studies examining issues related to audit policy and regulation and their effects on GCO decisions The examination of GCO research is extremely timely given the financial and business disruption caused by the worldwide COVID 19 pandemic This unprecedented global event has caused companies auditors and professional bodies to revisit and reassess their approach to going concern and to think even more deeply about this fundamental business imperative

The Iran-U.S. Claims Tribunal at 25 Christopher S. Gibson, Christopher R. Drahozal, 2007-02-28 The Iran United States Claims Tribunal which has been called the most significant arbitral body in history celebrated its 25th anniversary in 2006 As of mid 2005 the Tribunal had issued over 800 awards and decisions a total of 600 awards including partial awards and awards on agreed terms 83 interlocutory and interim awards and 133 decisions in resolving almost 3000 cases The Tribunal's awards have been described as the most important body of international arbitration jurisprudence The significance of these decisions as persuasive authority is second to none In this volume experts in the field identify and comment on the Tribunal awards that are most important for international arbitration i.e. the cases that everyone needs to know for investor state and international commercial arbitration The book approaches the Tribunal's work from a forward looking perspective with emphasis on the continuing usefulness of awards and decisions issued by the Tribunal in international arbitration practice In addition to original contributions from an array of eminent authors all of whom have extensive experience at the Tribunal and or in investor State and international arbitration this book includes

excerpts of key awards discussed in the contributions as well as appendices with foundational documents for the Tribunal

 Pryce Steptoe Johnson **Immovable Property Under VAT** Robert F. W. van Brederode, 2010-12-31 The ideal value added
 tax VAT would carry an economic efficiency ratio of 100 as in theory VAT should not be susceptible to exemptions and rate
 variations However practical reality tells a different story and it will come as no surprise to learn that the VAT systems of
 almost all countries remain far from the benchmark and that this is particularly the case when VAT is applied to real estate
 This book describes and analyses VAT treatment of real estate transactions in six representative countries Australia Canada
 Germany Japan Mexico and the United Kingdom As in any jurisdiction the VAT schemes covered must accommodate complex
 factual matrices that demand consistent fair and equal treatment Among these VAT determinants the authors each an expert
 in the national tax law of one of the six countries address the following types of real estate sales long versus short term
 leases commercial versus residential use newly constructed versus existing property status of the parties involved as taxable
 or non taxable for VAT taxable and tax free supplies special rules for charities mooring facilities aircraft sports facilities etc
 subdivision of apartments into title units commercial residential premises construction work cross border supply of
 construction work and services and transfer of a going concern The discussions also include the practical areas of accounting
 for VAT administrative compliance personal tax liability and VAT refund and overpayment certification processes as well as
 thorough consideration of relevant case law and examination of frequently litigated matters Each author has designed his or
 her chapter to ensure that the technical nuances of each system are explained An introductory chapter outlines economic
 theory and preferred VAT treatment of real estate transactions and compares the variety of solutions applied in the six
 countries covered Although a number of legal works exist on real estate under VAT in single jurisdictions this is the first book
 to combine a multi jurisdictional approach with attention to relevant economic theory allowing for a very useful assessment
 of best practices For this reason it is sure to be welcomed by practitioners and academics not only as an overview of the
 problem areas encountered when designing VAT policy but also as a reference in applying VAT to real estate transactions
