Hip Hop Enomics Volume 1:

HEADZ-zINe: Vol. 1, 'REGIONS-UK', Issue 1 Dr Adam de Paor-Evans, Dr David Kerr, 2020-07-01 HEADZ zINe is a periodical output of the HEADZ Project. Taking the form of the fanzine with a critical edge, it challenges the convention of academic knowledge production and dissemination. HEADZ zINe seeks to capture the personal, local, and communal histories of hip hop. HEADZ zINe is foremost interested in the stories of its participants and through a series of in-depth interviews and complimentary analysis of the artefacts and archives of hip hop, reveals a set of previously untold stories. HEADZ zINe is created with much the same immediacy as a zine. It is produced within a period of weeks, is self-published, and designed using standard domestic hardware and software. Although the topic addressed is historical, participants' reflections illustrate the immediacy and closeness of this material to their current lives. True to the aims of the fanzine, HEADZ zINe illuminates the histories of music culture which have previously been largely undocumented. These histories are told through the personal and collective stories of their participants. HEADZ zINe is freely distributed, and the inaugural issue has been manufactured with a print run of only 200 copies, in addition to being available in an expanded edition online. The zine presents a continued engagement with questions of knowledge production and dissemination. HEADZ zINe has been developed in collaboration with practitioners and seeks to foreground their histories, thoughts, and ideas. We are interested in how hip hop offers practitioners a way of engaging with and knowing the world through music, artistic, and dance practices. In this, we take hip hop seriously as a cultural form through which practitioners and fans learn, share, and archive knowledge. Hip hop practitioners are both the creators of and thinkers about hip hop; they are local intellectuals. The principal focus of this zine is on the voices of hip hop practitioners themselves as they not only tell but theorise hip hop history. As accumulators of vinyl records, flyers, posters, photographs, and magazines, ourselves, we are interested in what these artefacts and archives can reveal to us about the creative acts of curating and remembering cultural history. We are interested in exploring how involvement in hip hop culture shaped the lives of practitioners and provided a space for creatively, imaginatively, and intellectually engaging with the world around them.

First Floor Volume 1 Shawn Reynaldo, 2023-08-31 First Floor started small. At first, it was just a newsletter, an outlet where veteran electronic music journalist Shawn Reynaldo could write and share his ideas without having to contend with outside editors or cater to social media algorithms. It was a blank canvas, and Reynaldo began to fill it with his extended thoughts on not just electronic music but the culture and industry that surrounded it. Just a few years later, First Floor now stands as one of electronic music's most influential platforms, particularly as Reynaldo continues to put many of the genre's thorniest issues under the microscope. First Floor Volume 1 collects his most thought-provoking pieces and provides a nuanced, wide-ranging look at contemporary electronic music culture as it comes to grips with systemic challenges during a time of profound transformation. Whether he's taking a hard look at the genre's futurist ethos, questioning the practices of the modern music press, or mapping out what motivates dance music's

newest generation Reynaldo applies an undeniably critical lens but his words are informed by decades of experience a genuine passion for the subject matter and an open minded outlook toward whatever changes lie ahead Economic Analysis of Music Copyright Ivan L. Pitt, 2010-07-16 Chris Anderson's initial Long Tail analysis was released in 2004 just as the wave of mergers and acquisitions was sweeping the music publishing and radio industries Music industry executives began looking for Anderson's Long Tail effect and with it the implied redistribution of royalty income from popular songs to long dormant and forgotten works in their catalogs These music publishers had hoped to further maximize the value of their copyright assets lyrics and melody in their existing music catalogs as the sale of compact disks diminished and consumers switched their purchasing and listening habits to new digital formats in music technology such as the iPod This book deals with the measurement of skewness heavy tails and asymmetry in performance royalty income data in the music industry an area that has received very little academic attention for various reasons For example the pay packages including signing bonuses of some superstars in the sports world are often announced when they join a team In the art world the value of an artist's work is sometimes revealed when the work is sold at auction The main reason it is difficult to study art and culture from a royalty income perspective is that most of the income data at the individual level is often proprietary and generally not made publicly available for economic analysis As a Senior Economist for the American Society of Composers Authors and Publishers ASCAP using both internal and licensed external proprietary data the author found that the so called superstar effects are still present in performance royalty income Success is still concentrated on a relatively few copyright holders or members who can be grouped into heavy tails of the empirical income distribution in a departure from Anderson's long tail analysis This book is divided into two parts The first part is a general introduction to the many supply and demand economic factors that are related to music performance royalty payments The second part is an applied econometrics section that provides modeling and in depth analysis of income data from a songwriter music publisher and blanket licensing perspective In an era of declining income from CD album sales data collection mining and analysis are becoming increasingly important in terms of understanding the listening buying and music use habits of consumers The economic impact on songwriters publishers music listeners and Performance Rights Organizations PROs is discussed and future business models are evaluated The book will appeal to researchers and students in cultural economics media and statistics as well as general readers and professionals in the music publishing industry *The Revolutionary Vol. 1* Kobie Colemon, 2004-12 The Revolutionary is all about WAAAR Waging African American Armed Resistance to racist oppression throughout three distinct historical epochs or chambers Plus an exciting and defiant 4th Chamber which describes current social conditions in the United States and elsewhere as a revolutionary situation that is set to explode The Revolutionary Vol 1 is unique in that no other single text attempts to portray the history of African American armed resistance in its entirety or to make it available as a possible strategy to end racist oppression The Revolutionary Vol 1 introduces a Black people's history of armed

resistance from an analytic perspective accessible to both scholars and students of history as well as anyone interested in this fascinating aspect of the Black Experience Indeed The Revolutionary is accessible to all Lucid well organized and extensively documented The Revolutionary Vol 1 offers a fresh approach to the traditional problems of racism and raises challenging new issues in the use of violence to combat oppression English-Speaking Towns and Cities: Memoirs and Narratives Glain Olivier,2020-09-18 This book relies on a multidisciplinary approach that allows the authors to bear witness to the realities and representations of various urban environments in the English speaking world in complementary ways They deal with the motifs of urban identity and expression from several methodological and theoretical perspectives sociolinguistics soundscapes architecture stylistics literature This book analyses the representations of and the changes in urban identity through different forms of linguistic and artistic expression associated with several English speaking towns and cities The protagonists are in order of appearance Sydney Melbourne Manchester Liverpool Glasgow Houghton le Spring Kolkata New York City London Sheffield Aberdeen Dublin and Edinburg Cet ouvrage s appuie sur une approche pluridisciplinaire qui permet de rendre compte des r alit s et des repr sentations d environnements urbains anglophones de mani re compl mentaire Les auteurs abordent la question de l identit et de l expression urbaine selon des perspectives m thodologiques et th oriques diverses sociolinguistique environnement sonore architecture stylistique litt rature L ouvrage vise rendre compte des repr sentations et des mutations identitaires des villes anglophones travers des modes d expression linguistiques et artistiques qui leur sont propres Les protagonistes sont par ordre d apparition Sydney Melbourne Manchester Liverpool Glasgow Houghton le Spring Kolkata New York Londres Sheffield Aberdeen Dublin et dimbourg

Gülen Joshua D. Hendrick, 2013-08-12 The Hizmet Service Movement of Fethullah Gülen is Turkey's most influential Islamic identity community Widely praised throughout the early 2000s as a mild and moderate variation on Islamic political identity the Gülen Movement has long been a topic of both adulation and conspiracy in Turkey and has become more controversial as it spreads across the world In Gülen Joshua D Hendrick suggests that when analyzed in accordance with its political and economic impact the Gülen Movement despite both praise and criticism should be given credit for playing a significant role in Turkey's rise to global prominence Drawing on 14 months of ethnographic fieldwork in Turkey and the U S Hendrick examines the Gülen Movement's role in Turkey's recent rise as well as its strategic relationship with Turkey's Justice and Development Party led government He argues that the movement's growth and impact both inside and outside Turkey position both its leader and its followers as indicative of a post political turn in twenty first century Islamic political identity in general and as illustrative of Turkey's political economic and cultural transformation in particular Joshua D Hendrick is Assistant Professor of Sociology and Global Studies at Loyola University Maryland in Baltimore

African Youth and the Persistence of Marginalization Danielle Resnick, James Thurlow, 2015-04-10 The much heralded growth and transformation of many economies in sub Saharan Africa over the last decade continues to receive prominent attention in academic scholarship and among policy practitioners An apparent feature about this transformation however is that Africa's youth appear to have been left out This book critically examines the extent and consequences of the marginalization of

African youth It questions conventional wisdoms about data trends aspirational goals and common policy interventions surrounding Africa's youth that have been variously propagated in both the development studies literature and in mainstream donor policy reports The book explores macro trends from both a temporal and cross regional perspective in order to highlight what is distinct about contemporary African youth and whether their prospects and behaviours do actually vary from their counterparts in other regions of the world or from previous generations of African youth Such studies include cross country analyses of youth employment patterns and modes of political participation in depth examination of the behaviours and aspirations of the urban youth and critical reflections on the impact of rural employment initiatives vocational education and learnership programmes The incorporation of multiple methods and disciplines as well as its attention to policy issues ensures that the book will be of great interest to graduate students researchers and professional researchers whose work lies at the intersection of African area studies and development studies as well as those focused on development economics political science and public policy and administration

distinct cultural universe of the Point Place community Margaretten's sensitive investigations reveal how young men and women draw on customary notions of respect and support to forge an ethos of connection and care that allows them to live far richer lives than ordinarily assumed Her discussion of gender dynamics highlights terms like nakana to care about or take notice of another that young women and men use to construct outside and inside boyfriends and girlfriends and to communicate notions of trust Margaretten exposes the structures of inequality at a local regional and global level that contribute to socioeconomic and political dislocation But she also challenges the idea that Point Place's marginalized residents need rehabilitation As she argues these young men and women want love secure homes and the means to provide for their dependents in short the same hopes and aspirations mirrored across South African society
