B. Harley,2002-10-03 In these essays the author draws on ideas in art history literature philosophy and the study of visual culture to subvert the traditional positivist model of cartography and replace it with one grounded in an iconological and semiotic theory of the nature of maps *The Map Collector* ,1992 [The Routledge Handbook of Cartographic Humanities](#) Tania Rossetto,Laura Lo Presti,2024-06-03 The Routledge Handbook of Cartographic Humanities offers a vibrant exploration of the intersection and convergence between map studies and the humanities through the multifaceted traditions and inclinations from different disciplinary geographical and cultural contexts With 42 chapters from leading scholars this book provides an intellectual infrastructure to navigate core theories critical concepts phenomenologies and ecologies of mapping while also providing insights into exciting new directions for future scholarship It is organised into seven parts Part 1 moves from the depths of the humans maps relation to the posthuman dimension from antiquity to the future of humanity presenting a multidisciplinary perspective that bridges chronological distances introspective instances and social engagements Part 2 draws on ancient archaeological historical and literary sources to consider the materialities and textures embedded in such texts Fictional and non fictional cartographies are explored including layers of time mobile historical phenomena unmappable terrain features and even animal perspectives Part 3 examines maps and mappings from a medial perspective offering theoretical insight into cartographic mediality as well as studies of its intermedial relations with other media Part 4 explores how a cultural cartographic perspective can be productive in researching the digital as a human experience considering the development of a cultural attentiveness to a wide range of map related phenomena that interweave human subjectivities and nonhuman entities in a digital ecology Part 5 addresses a range of issues and urgencies that have been and still are at the centre of critical cartographic thinking from politics inequalities and discrimination Part 6 considers the growing amount of literature and creative experimentation that involve mapping in practices of eliciting individual life histories collective identities and self accounts Part 7 examines the variety of ways in which we can think of maps in the public realm This innovative and expansive Handbook will appeal to those in the fields of geography art philosophy media and visual studies anthropology history digital humanities and cultural studies as well as industry professionals [Historical Atlases](#) Walter Goffart,2011-04-15 Today we can walk into any well stocked bookstore or library and find an array of historical atlases The first thorough review of the source material Historical Atlases traces how these collections of maps for history maps whose sole purpose was to illustrate some historical moment or scene came into being Beginning in the sixteenth century and continuing down to the late nineteenth Walter Goffart

discusses milestones in the origins of historical atlases as well as individual maps illustrating historical events in alternating paired chapters He focuses on maps of the medieval period because the development of maps for history hinged particularly on portrayals of this segment of the postclassical modern past Goffart concludes the book with a detailed catalogue of more than 700 historical maps and atlases produced from 1570 to 1870 Historical Atlases will immediately take its place as the single most important reference on its subject Historians of cartography medievalists and anyone seriously interested in the role of maps in portraying history will find it invaluable Educational Weekly ,1878 *Real Estate Record and Builders' Guide* ,1893 **The City Record** ,1901
