History And Narration Looking Back From The Twentieth Century:

History and Narration Marialuisa Bignami, 2011-07-12 The relation between narration and history from the perspective of the twentieth century the century of criticisms suggests a new outlook fit for the new millennium We can no longer look at history and historiography naively but must be aware of the rhetorical strategies that are at work in the writing A research group based in Milan has been working on this topic for a few years discussing authors and texts from different genres and epochs The essays presented here deal with texts chosen because of their intrinsic relevance to the history of English speaking cultures and recent critical perspectives largely but not exclusively indebted to Hayden White Thus the volume considers instances of narrativity and historical discourse in authors as diverse as S Johnson E Chambers C Hill J Raban V Woolf N Mitchison V S Naipaul S Rushdie J M Coetzee A Ghosh War and Literature: Looking Back on 20th Century Armed Conflicts Tom Burns, Elcio Cornelsen, Volker Jaeckel, Luiz Gustavo Vieira, 2014-06-01 This comprehensive volume analyzes the radical change in the nature of armed conflicts and in the way they are narrated and represented Ever since the First World War has changed war itself rendering meaningless the very vocabulary of war in terms such as battle front non combatant open city and hero new words new approaches new theories and new texts had to be invented The enemy became invisible Submarines tanks mines gas long range artillery and airplanes made this war different from all the other that came before A hundred years after the beginning of this terrible war it is now time to recall different representations of the armed conflicts of the 20th century The articles in this collection analyze representations of the Canudos Civil War in Brazil the First World War the Second World War the Korean War the Vietnam War the colonial wars in Africa and the war in Afghanistan aiming to understand how war and the telling of war have changed during the most murderous hundred years in the history of mankind **Virginia Woolf's Unwritten Histories** Anne Besnault, 2021-11-04 Virginia Woolf's Unwritten Histories explores the interrelatedness of Woolf's modernism feminism and her understanding of history as a site of knowledge and a writing practice that enabled her to negotiate her heritage to find her place among the moderns as a female artist and intellectual and to elaborate her poetics of the new not as radical rupture but as the result of a process of unwriting and rewriting traditional historiographical orthodoxies Its central argument is that unless we comprehend the genealogy of Woolf's historical thought and the complexity of its lineage we cannot fully grasp the innovative thrust of her attempt to think back through our mothers Bringing together canonical texts such as Orlando 1928 A Room of One's Own 1929 Three Guineas 1938 or Between the Acts 1941 and under researched ones among which stand Woolf's essays on historians and reviews of history books and her pieces on literary history and nineteenth century women's literature this book argues that Woolf's textual conversations with nineteenth century writers historians and critics many of which remain unexplored are interwoven with her historiographical poesis and constitute the groundwork for her alternative histories and literary histories unwritten open textured unacademic and polemical counter narratives that keep track of the past and engage politically with the future
