

Introduction to the Islamic philosophy

Merkur ist der sonnennächste Planet und der kleinste im gesamten Sonnensystem. Der Name dieses Planeten hat nichts mit dem flüssigen Metall zu tun, denn Merkur wurde nach dem römischen Götterboten benannt. Obwohl er näher an der Sonne liegt als die Venus, sind seine Temperaturen nicht ganz so heiß. Seine Oberfläche ist der unseres Mondes sehr ähnlich, was bedeutet, dass es dort viele Krater und Ebenen gibt.

Apropos Krater: Viele von ihnen wurden nach Künstlern oder Schriftstellern benannt, die einen wichtigen Beitrag zu ihrem jeweiligen Gebiet geleistet haben. Merkur braucht etwas mehr als 58 Tage, um seine Rotation zu vollenden, also stell dir vor, wie lang die Tage dort sein müssen! Da seine Temperaturen so extrem sind, wenn auch nicht gar so extrem wie auf der Venus, und die Sonneneinstrahlung so hoch ist, gilt Merkur als unbewohnbar für Menschen.

The History of Philosophy in Islam Tjitze J. de Boer, 1903-01-01 In olden time the Arabian desert was as it is at this day the roaming ground of independent Bedouin tribes With free and healthy minds they contemplated their monotonous world whose highest charm was the raid and whose intellectual treasure was the tribal tradition Neither the achievements of social labour nor the accomplishments of elegant leisure were known to them Only on the borders of the desert in regularly constituted communities which often had to suffer from the incursions of those Bedouins a higher degree of civilization had been attained This was the case in the South where the ancient kingdom of the Queen of Sheba continued its existence in Christian times under Abyssinian or Persian overlordship On the West lay Mecca and Medina Yathrib by an old caravan route and Mecca in particular with its market safe guarded by a temple was the centre of a brisk traffic Lastly on the North two semi sovereign States had been formed under Arab princes towards Persia the kingdom of the Lakhmids in Hira and towards Byzantium the dominion of the Gassanids in Syria In speech and poetry however the unity of the Arab nation was set forth to some extent even before Mohammed s time The poets were the men of knowledge for their people Their incantations held good as oracles first of all for their several tribes but no doubt extending their influence often beyond their own particular septs Mohammed and his immediate successors Abu Bekr Omar Othman and Ali 622 661 succeeded in inspiring the free sons of the desert together with the more civilized inhabitants of the coast lands with enthusiasm for a joint enterprise To this circumstance Islam owes its world position for Allah showed himself great and the world was quite small for those who surrendered themselves to him Muslims In a short time the whole of Persia was conquered and the East Roman empire lost its fairest provinces Syria and Egypt Medina was the seat of the first Caliphs or representatives of the prophet Then Mohammed s brave son in law Ali and Ali s sons fell before Moawiya the able governor of Syria From that time dates the existence of the party of Ali Shi ites which in the course of diverse vicissitudes now reduced to subjection now in detached places attaining power lives on in history until it finally incorporates itself with the Persian kingdom in definite opposition to Sunnite Islam
