SAFETY PRECAUTIONS

- The following precautions should be observed when working:
1. Since many parts in the unit have special safety related characteristics, always use genuine Hitachi replacement parts. Especially critical parts in the circuit (such as capacitors and resistors) should be replaced with correct values.
 2. Critical parts are marked with "C" in the schematic diagram and circuit board diagram.
 3. When working a capacitor, it is recommended to use a discharge tool to discharge it properly. A short circuiting tool such as a screwdriver can damage the capacitor or cause a fire or electric shock.
