whiteness approach to American literary criticism and strengthens the growing interdisciplinary field of critical whiteness studies in the humanities Critical whiteness studies shifts the attention from solely examining people and perspectives of color in race discourse to addressing whiteness as an essential component of race ideology. The primary contribution of this perspective is in how whites construct and see whiteness for the larger purpose of exploring the possibilities of how they may come to no longer construct and see themselves through whiteness Understanding this is at the heart of contemporary discussions of post raciality Abolishing White Masculinity from Mark Twain to Hiphop uses the following texts as canonical case studies Puddn head Wilson and Those Extraordinary Twins by Mark Twain The Great Gatsby and The Beautiful and the Damned by F Scott Fitzgerald and Angry Black White Boy and The End of the Jews by Adam Mansbach Each underscores the dialectic of formation deformation and reformation of whiteness at specific socio historical moments based upon anxieties about race possessed by whites and highlighted by white fictionists The selected writers ultimately serve dually as co constructors of whiteness and social critics of their times through their literature **Kendrick Lamar and the Making of** Black Meaning Christopher M. They also observe that his astute and biting thoughts on race and culture may come from an African American perspective but many find something familiar in Lamar's lyrical testimony across great chasms of social and geographical difference This sophisticated exploration of one of popular culture s emerging icons reveals a complex and multi faceted engagement with religion faith race art and culture As such it will be vital reading for anyone working in religious African American and hip hop studies as well as scholars of music media and popular culture
