A healthy human body vibrates at a rate of 7.86 vibrations per second, the Schumann Resonant Frequency. Areas of the body with pain and inflammation vibrate at a lower or higher frequency. A TensCam unit directed at these higher or lower vibration areas of the body uses quartz crystal technology to re-establish the normal vibration frequency, relieving pain and inflammation almost instantly. Here's what physicians are saying about CAMS: I have used the TensCam for over 10 years on an almost daily basis. A 15 minute deep ganglion injection procedure requiring a 31/2 needle can be replaced by a two minute no touch treatment with the TensCam. Robert F. Kidd, M.D., C.M., Renfrew, Ontario, Canada. Author of *Neural Therapy Applied Neurophysiology and Other Topics*. The TensCam unit is the most impressive device I have used in pain management. It has obviated the need for invasive interventional techniques in many instances. Simon Trueblood, M.D., Anesthesiologist, Pain Management Specialist, Merrillville, Indiana.
