Hill, Greg Brandeau, Emily Truelove, Kent Lineback, 2014-05-13 Named one of 10 Management Classics for 2022 by Thinkers50. Why can some organizations innovate time and again while most cannot? You might think the key to innovation is attracting exceptional creative talent. Or making the right investments. Or breaking down organizational silos. All of these things may help, but there's only one way to ensure

sustained innovation you need to lead it and with a special kind of leadership Collective Genius shows you how Preeminent leadership scholar Linda Hill along with former Pixar tech wizard Greg Brandeau MIT researcher Emily Truelove and Being the Boss coauthor Kent Lineback found among leaders a widely shared and mistaken assumption that a good leader in all other respects would also be an effective leader of innovation The truth is leading innovation takes a distinctive kind of leadership one that unleashes and harnesses the collective genius of the people in the organization Using vivid stories of individual leaders at companies like Volkswagen Google eBay and Pfizer as well as nonprofits and international government agencies the authors show how successful leaders of innovation don't create a vision and try to make innovation happen themselves Rather they create and sustain a culture where innovation is allowed to happen again and again an environment where people are both willing and able to do the hard work that innovative problem solving requires Collective Genius will not only inspire you it will give you the concrete practical guidance you need to build innovation into the fabric of your business

You're Damn Right I'm a Fanboy: MG Siegler on Apple, Google, Startup Culture, and Jackasses on the Internet MG

Siegler,2012-06-07 As we all know by now comments on the Internet are a fascinating thing My favorite involve the word fanboy Generally speaking being a fanboy means you write stories tweets whatever about a certain topic with a positive

angle It s meant to be a derogatory term but the truth is that it s so overused that it s almost completely meaningless For the sake of this post though I ll play ball I have a confession to make I m a fanboy Now I didn t say specifically what I m a fanboy of because there have been too many titles bestowed upon me over the years At various points over just the past few months I ve been an Apple fanboy a Google fanboy a Twitter fanboy a Facebook fanboy a Foursquare fanboy a Gowalla fanboy and yes even a Microsoft fanboy Never mind that most of companies compete with one another so it would be hard to be a true fanboy of multiple ones without misrepresenting my fanboydom of a few of the others We ll just say I m a fanboy and leave it at that And that leaves me wondering why wouldn t you want to be a fanboy [Google Voice For Dummies](#) Bud E.
