discusses the leading forecasts for energy and the strategies that resource rich countries may adopt Part II Rules based multilateral governance of the energy sector details the development and sources of rules on energy Part III Competition and regulation in transboundary energy markets discusses principal instruments of rules based governance of energy Part IV Attracting investments and the challenges of multi level governance focuses on the critical governance of the right investments This book is a flagship publication of the Centre for Energy Petroleum and Mineral Law and Policy at the University of Dundee It launches the Hart series Global Energy Law and Policy and is edited by the series general editors Professors Peter D Cameron and Volker Roeben and also Dr Xiaoyi Mu *Realizing a New Global Cyberspace Framework* Rolf H. Weber, 2014-09-23 In many respects cyberspace has created a new world The online phenomena encompass social cultural economic and legal facets Exceeding the present Internet Governance concept the book analyses the normative foundations and guiding principles of a global cyberspace regime that includes the exchange of people businesses governments and other entities Based on this assessment and philosophical theories the book attempts to outline a model for a general legal framework enshrining key principles of civil society such as human rights ethics The proposed global framework not in the form of a multilateral treaty but a morally convincing declaration could then be complemented by additional polycentric regulations with binding effect developed on the basis of multistakeholder participation in a multi layer concept Governance and Regulation of Power Pools and System Operators James Barker, 1997-01-01 Annotation World Bank Technical Paper No 382 This technical paper compares and contrasts the governance and regulation of new style power pools in Australia Canada Norway Sweden and the United Kingdom These trading markets in electricity commodities and services are explored in various ways The authors review the basic governance models compare decisionmakers in the industry examine market surveillance methods used and explore the role of government and the regulator The paper emphasizes the lessons that can be learned from international experiences Changing Geopolitics of Global Communication Daya Thussu, 2024-07-31 Changing Geopolitics of Global Communication examines the rapidly evolving dynamics between global communication and geopolitics As an intersection between communication and international relations it bridges the existing gap in scholarship and highlights the growing importance of digital communication in legitimizing and promoting the geopolitical and economic goals of leading powers One central theme that emerges in the book is the continuity of asymmetries in power relations that can be traced back to 19th century European imperialism manifested in its various incarnations from liberal to neo liberal to digital imperialism The book includes a discussion of the post Cold War US led transformation of the hardware and software of global communication and how it has been challenged by the rise of the rest especially China Other key issues covered include the geopolitics of image wars weaponization of information and the visibility of discourses emanating from outside the Euro Atlantic zone The ideas and arguments advanced here privilege a reading of geopolitical processes and examples from the perspective of the global South Written by a leading

scholar of global communication this comprehensive and transdisciplinary study adopts a holistic approach and will be of interest to the global community of scholars researchers and commentators in communication and international relations among other fields

Human Power Gry Hasselbalch, 2025-03-12 The rapid and tumultuous technological transformation of our societies has triggered a self exploratory public debate about what it means to be human What are our human potential talents and powers what essentially is our place in the modern world Will a culture of machines out compete a culture of humanity In this thought provoking but ultimately hopeful book scholar and leading technology critic Gry Hasselbalch invites readers to reflect on the shifting dynamics between humans and the AI powered technologies increasingly shaping our world Exploring the distinctiveness of human power the book addresses current debates about technology that portray humans as powerless and flawed in essence outdated software in dire need of a technological fix arguing that human power must remain central in discussions about AI and technology It investigates seven key traits which set humans apart from machines Creativity Intuition Emotion Life Defiance Love and Wisdom Drawing on interviews and examples from across arts including literature visual arts film and music and from technology politics and policymaking Human Power explains how these traits provide a foundation for a new politics in the AI Machine Age One that does not diminish and reduce human power but actively protects and reinforces it If human power is not a computational process then what is it Human Power Seven Traits for the Politics of the AI Machine Age gives human power our humanity and fundamental humanness a renewed voice in a debate dominated by fears and preconceptions about technological power This important new work will appeal to journalists policymakers artists and educators and anyone else interested in the rapidly growing role of AI and digital technology in our lives
