Wargaming Campaigns Henry Hyde, 2022-07-20 An authoritative reference guide to building wargaming campaigns featuring a full set of campaign rules tips on creating maps and more Most miniature wargames take the form of simulating a single battle with the opponents either winning or losing and that s that until the next game Such games can be a fun test of tactical skill but it can be even more rewarding if they form part of a wider campaign In a campaign the players commanding the forces have to make the decisions at the strategic level that determine the context of any battles that occur The outcome of these battles will in turn have strategic consequences for the ongoing campaign Although campaigns can be very rewarding many wargamers are deterred by the need to produce maps and devise mechanisms for strategic movement Intelligence logistics recruiting reinforcements keeping track of casualties etc Henry Hyde s excellent book greatly eases this task with masses of sound advice concrete suggestions and even a full set of campaign rules useful for any period Whatever historical or fantasy setting you prefer Henry shows that even simple campaigns can add extra fun to your gaming Praise for Wargaming Campaigns This big thick tome contains everything you d ever want to know about creating and running a wargame campaign Historical Miniatures Gaming Society

The Fundamentals of Tabletop Miniatures Game Design Glenn Ford, Mike Hutchinson, 2024-11-19 This book presents a much needed framework for the critical examination of miniatures games and their design It provides the reader with both a conceptual model for understanding how these games work as well as a toolbox of mechanical approaches to achieving a range of design outcomes and assessing the fit of any given approach within a specific design Though dating back to the 1820s tabletop miniatures games have been little explored critically and lack a conceptual vocabulary for their discussion Active practitioners in the miniature games design community Glenn Ford and Mike Hutchinson explore what defines these games proposing the term non discrete miniatures games to encapsulate the essence of these open and immersive hobby gaming experiences Discarding the term wargame they argue against limiting conceptions of these games to direct armed conflict and champion their diverse narrative potential The book provides a fresh conceptual framework for miniatures
